20-7-435. Funding of educational programs for eligible children receiving in-state inpatient treatment of serious emotional disturbances. (1) It is the intent of the legislature that eligible children receiving inpatient treatment of a serious emotional disturbance at in-state qualifying facilities be provided with an appropriate educational opportunity in a cost-effective manner. The legislature further intends that in-state qualifying facilities prioritize treatment of Montana residents over residents of other states.

(2) The superintendent of public instruction may contract with a qualifying facility for provision of an educational program for an eligible child in the qualifying facility. The contract between the superintendent of public instruction and a qualifying facility must include a provision requiring the qualifying facility to provide educational data and regular reports about the academic status and academic progress being made by each eligible child at a qualifying facility.

(3) (a) Whenever the superintendent of public instruction contracts with a qualifying facility for provision of an educational program for an eligible child, the superintendent of public instruction shall establish a daily rate per eligible child for each qualifying facility that reflects actual documented costs of providing an appropriate educational opportunity at that facility and that excludes the cost of services that are eligible for reimbursement under any provision of state or federal law or an insurance policy.

(b) For each eligible child and from appropriations provided for the purposes of this section, the superintendent of public instruction shall pay the qualifying facility the daily rate under subsection (3)(a) minus the amount paid under subsection (3)(c).

(c) For each eligible child, the eligible child's school district of residence shall pay the qualifying facility a daily rate of 40% of the tuition per-ANB amount as defined in 20-5-323 divided by 180 in a manner prescribed by the superintendent of public instruction. The district of residence shall finance the tuition amount from the levy authorized to support the district tuition fund or from the district's general fund or any other legally available fund in the discretion of the trustees.

(d) An eligible child whose appropriate educational opportunity is provided under subsection (5)(a) or (5)(b) may not receive funding under this subsection (3).

(e) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall include a request for funding this section based on the daily rate for each facility as determined under subsection (3)(a). If the money appropriated for the payments to qualifying facilities under this section is not sufficient, the superintendent of public instruction shall request the state budget director to submit a request for a supplemental appropriation in the second year of the biennium that is sufficient to complete the funding of the payments.

(4) A supplemental education fee or tuition, beyond those authorized under this section, may not be charged for an eligible child who receives an education under contract with an in-state children's psychiatric hospital or residential treatment facility under subsection (3) or as provided under subsection (5).

(5) If a qualifying facility fails to provide an appropriate educational opportunity for an eligible child at the facility or fails to negotiate a contract under the provisions of subsection (2), the superintendent of public instruction shall, from appropriations provided for the purposes of this section, choose either of the following two options:

(a) provide for an appropriate educational opportunity for the eligible child utilizing qualified specialists who are employees of the office of public instruction or under contract with the office of public instruction for the purposes of this section. The eligible child's district of residence shall reimburse the office of public instruction at the daily rate established in subsection (3)(c). The district of residence may finance the reimbursement from the levy authorized to support the district tuition fund.

(b) negotiate with the school district in which the qualifying facility is located for the supervision and implementation of an appropriate educational opportunity for eligible children attending the facility. The amount to be paid to the district of attendance by the office of public instruction and the amount to be paid by the eligible child's district of residence are determined in the same manner as provided in 20-5-323 and 20-5-324 for out-of-district attendance agreements approved under 20-5-321(1)(d) and (1)(e).

(6) Funds provided to a district under this section, including funds received under the provisions of 20-7-420:

(a) must be deposited in the miscellaneous programs fund of the district that provides the education program for an eligible child, regardless of the age or grade placement of the child who is served under a negotiated contract; and

(b) are not subject to the budget limitations in 20-9-308.

(7) The superintendent of public instruction shall report to the education interim budget committee and the education interim committee in accordance with 5-11-210 no later than September 30 of even-numbered years on the implementation of this section and an analysis that supports each daily rate. The report must include:

(a) the daily rate calculated for each qualifying facility as described in subsection (3)(a); and

(b) an evaluation of education programs at qualifying facilities funded under this section.

(2) For the purposes of this section, "dyslexia" means a specific learning disability that is neurological in origin and characterized by difficulties with accurate or fluent word recognition

and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge.

(3) (a) In alignment with the existing requirements of the Individuals With Disabilities Education Act, rules of the board of public education, and rules of the superintendent of public instruction, school districts shall establish procedures to ensure that all resident children with disabilities, including specific learning disabilities resulting from dyslexia, are identified and evaluated for special education and related services as early as possible.

(b) To support the goal of the people of Montana to develop the full educational potential of each person, articulated in Article X, section 1(1), of the Montana constitution, and to ensure early identification and intervention for students with dyslexia, a school district shall utilize a screening instrument aimed at identifying students at risk of not meeting grade-level reading benchmarks. The screening instrument must:

(i) be administered to:

(A) a child in the first year that the child is admitted to a school of the district up to grade 2; and

(B) a child who has not been previously screened by the district and who fails to meet grade-level reading benchmarks in any grade;

(ii) be administered by an individual with an understanding of, and training to identify, signs of dyslexia; and

(iii) be designed to assess developmentally appropriate phonological and phonemic awareness skills.

(c) If a screening under subsection (3)(b) suggests that a child may have dyslexia or a medical professional diagnoses a child with dyslexia, the child's school district shall take steps to identify the specific needs of the child and implement best practice interventions to address those needs. This process may lead to consideration of the child's qualification as a child with a disability under the Individuals With Disabilities Education Act.

(4) The office of public instruction shall:

(a) endeavor to raise statewide awareness of dyslexia, as well as the attendant rights of students and parents and the responsibilities of school districts related to dyslexia; and

(b) provide guidance to school districts related to:

(i) the early identification of students with dyslexia, including best practices for universal, valid, and reliable screening methods and other assessments in support of the requirements of subsection (3)(b) that:

(A) have minimal or no cost to a district; and

(B) are able to be integrated with a district's existing reading programs;

(ii) best practice interventions to support students with dyslexia as early as possible, including interventions for those students with dyslexia evaluated as requiring special education and those students with dyslexia evaluated as not requiring special education; and

(iii) best practices for collaborating with and supporting parents of students with dyslexia.

(5) The legislature urges all entities within the state with authority over, or a role to play in, teacher preparation and professional development to ensure that teachers and other school personnel, especially those in the early grades, are well prepared to identify and serve students with dyslexia.

(g) a certification that pupil records will not be retained or available to the third party upon completion of the terms of the contract and a description of how that certification will be enforced. Written notice of noncompliance may be provided by any party to the contract. All parties subject to a contract voided under this subdivision shall return all pupil records in their possession to the school district.

(2) In acknowledgment of Article X, section 1, of the Montana constitution, the educationally relevant factors for the school funding formula under 20-9-309(3), and the increased costs associated with language immersion programs, a district creating an Indian language immersion program is entitled to the following in addition to the school funding formula in Title 20, chapter 9:

(a) (i) subject to subsections (3) and (4), for every Indian student participating in an Indian language immersion program, an additional American Indian achievement gap payment, as calculated in 20-9-306, multiplied by 2; and

(6) The cultural and intellectual property rights from materials developed for an Indian language immersion program belong to the tribe to which the materials relate. Use of the cultural and intellectual property outside of the Indian language immersion program may be negotiated with the tribe.

(2) (a) To qualify for the funding and flexibilities in subsections (4) and (5), the board of trustees of a district shall submit an application that has been approved by motion of the board and signed by the presiding officer to the board of public education for approval of an advanced opportunity program on a form provided by the superintendent of public instruction.

(b) The school board's application must include a strategic plan with appropriate planning horizons for implementation, measurable objectives to ensure accountability, and planned strategies to:

(i) develop an advanced opportunity plan for each participating pupil from grades 6 through 12 that fosters individualized pathways for career and postsecondary educational opportunities and that honors individual interests, passions, strengths, needs, and culture and is supported through relationships among teachers, family, peers, the business community, postsecondary education officials, and other community stakeholders;

(ii) embed community-based, experiential, online, and work-based learning opportunities and foster a learning environment that incorporates both face-to-face and virtual connections; and

(3) The board of public education shall:

(a) establish the opening and closing dates for receipt of applications and annual reports;

(b) no later than January 31, qualify for the subsequent school year nonparticipating districts that submit an application meeting the requirements of subsection (2) for the funding in subsection (4) and the flexibilities in subsection (5);

The trustees have full discretion to allocate expenditures among all pupils of the district or any select group of pupils, using any reasonable method they consider appropriate in their full discretion to meet the individual needs of each pupil who pursues an advanced opportunity. The trustees may create free district initiatives of their own that satisfy the conditions of this subsection (5)(a). Permissible expenditures include but are not limited to:

(ii) pay for the costs of employing an advanced opportunity facilitator as defined in 20-7-1503.

(6) A district qualified for funding under subsection (3) may supplement state funding of advanced opportunity aid with matched expenditures from its adopted adult education budget, not to exceed 25% of the district's advanced opportunity aid. Transformational Learning

20-7-1601. Forms of personalized learning — legislative intent. (1) The legislature finds and declares pursuant to Article X, section 1, of the 1972 Montana constitution that forms of personalized learning authorized under Montana law, including but not limited to work-based learning pursuant to 20-7-1510, proficiency-based learning as defined in subsection (2) of this section, determinations of course equivalency by an elected board of trustees under 20-3-324(18), remote instruction under 20-7-118, and transformational learning, are appropriate means of fulfilling the people's goal of developing the full educational potential of each person. The provision of and participation in forms of personalized learning under this part and in compliance with accreditation standards of the board of public education are constitutionally compliant and protected. The legislature declares that any public or private regulation that discriminates against a district or pupil participating in forms of personalized learning referenced in this section is inconsistent with constitutional goals and guarantees under Article X of the Montana constitution.

(2) As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(a) "Proficiency" means a measure of competence that is demonstrated through application in a performance assessment.

(b) "Proficiency-based learning" means an education system in which student progress is based on a student's demonstration of competence rather than on the basis of seat time or the age or grade level of the student.

(c) "Transformational learning" means a flexible system of pupil-centered and proficiency-based learning that is designed to develop the full educational potential of each pupil that:

(i) is customized to address each pupil's strengths, needs, and interests; and

(ii) actively engages each pupil in determining what, how, when, and where each pupil learns.

2025 Amendment: See 2025 Session Law for amendment made by sec. 1, Ch. 462, L. 2025. Amendment effective July 1, 2025.

20-7-1602. *(Temporary)* **Incentives for creation of transformational learning programs.** (1) (a) A school district as defined in 20-6-101 that satisfies the conditions of subsection (2) and is qualified by the board of public education pursuant to subsection (4) is eligible for a 4-consecutive-year provision of the transitional funding and flexibilities in subsections (5) and (6).

(b) A school district may be qualified by the board of public education for no more than one 4-consecutive-year provision of transitional funding and flexibilities in any 8-year period.

(2) To qualify for the transitional funding and flexibilities in subsections (5) and (6), the board of trustees of a district shall submit an application that has been approved by motion of the board of trustees and signed by the presiding officer to the board of public education for approval of a transformational learning program on a form provided by the superintendent of public instruction. The school board's application must:

(a) identify the number of full-time equivalent educators meeting the criteria of 20-9-327(3) who will participate in the district's transformational learning program, with full-time equivalence calculated and reported by the district based on the planned portion of each qualifying educator's full-time equivalent assignment that is dedicated to the district's transformational learning program;

(b) include the district's definition of proficiency within the meaning of the term as used in 20-9-311(4)(d). The definition must be incorporated in the district's policies and must be used for purposes of determining content and course proficiency and other progress, promotion from grade to grade, grades, and graduation for pupils enrolled in the district's transformational learning program. The district must also describe the district's plans for the implementation of proficiency-based learning as defined in 20-7-1601; and

(c) include a strategic plan with appropriate planning horizons for implementation, measurable objectives to ensure accountability, and planned strategies to:

(i) develop a transformational learning plan for each participating pupil that honors individual interests, passions, strengths, needs, and culture and that is rooted in relationships with teachers, family, peers, and community members;

(ii) embed community-based, experiential, online, and work-based learning opportunities and foster a learning environment that incorporates both face-to-face and virtual connections;

(iii) provide effective professional development to assist employees in transitioning to a transformational learning model; and

(iv) ensure equality of educational opportunity to participate by all pupils of the district.

(3) The board of public education shall establish by rule the opening and closing dates for receipt of applications and annual reports.

(4) The board of public education shall:

(a) on an annual basis, qualify districts that submit an application meeting, in the determination of the board or the board's designee, the requirements of subsection (2) for the funding in subsection (5) and the flexibilities in subsection (6) until the annual appropriation is exhausted, after which further applications, including first-time applications and annual reports requesting an expansion of a previously approved plan, are to be deferred for consideration in a subsequent year, in the order of a lottery system draw, if and when additional funds become available for distribution. The lottery system shall assign every first-time application or request for expansion of a previously approved plan a number that will be placed into a lottery system draw that will be done by a third party. The applications will be assigned a position in the order in which the numbers are drawn. The drawing will continue until all districts are on the qualification list for the current year funding or deferred for consideration in a subsequent year.

(b) require each participating school district to submit an annual report demonstrating, in the determination of the board or the board's designee, continued qualification for funding under this section and including a report of progress toward measurable objectives under the school district's transformational learning plan. The school district shall include any decrease or requested increase in the number of participating full-time equivalent educators under subsection (2)(a) for adjustments to its funding. Any increase in funding based on requested increased levels of participation under subsection (2)(a) must be determined in the year in which the request for a funding increase is received and augmented with a lottery system among all first-time applications and annual reports requesting an expansion of a previously approved plan and must be contingent on the availability of funds within any appropriation of the legislature. An application deferred for consideration in a subsequent year due to lack of funding must be annually updated each year after more than 1 full fiscal year has passed from the date of original submission of the application in order for the application to retain its priority by original date received.

(c) report in accordance with 5-11-210 to the education interim committee on the progress made by districts as submitted in the annual report and strategic plan operating under approved and funded transformational learning plans.

(5) (a) For a period of 4 consecutive fiscal years following the fiscal year in which a district is qualified by the board of public education and contingent on satisfying the annual reporting requirements under subsection (4), the superintendent of public instruction shall provide a transformational learning aid payment to the district equivalent to 50% of the quality educator and qualified staff payment defined in 20-9-306 from the immediate prior fiscal year multiplied by the number of the district's full-time equivalent educators reported under subsection (2)(a) of this section.

(b) The payment under this subsection (5) must be distributed directly to the school district's flexibility fund established under 20-9-543 by October 1 of each year of funding by the superintendent of public instruction. The money must be expended by the district only for the purposes set forth in the district's approved transformational learning program and within 6 years of the first year of funding.

(c) A school district may not receive more than 25% of the total amount of payments made under this subsection (5).

(6) During each year that a school district remains qualified for funding under subsection (5), the district's trustees may:

(a) if the obligations of transparency set forth in 20-9-116 are met, levy an annual permissive property tax not to exceed 100% of any funds distributed to the district under subsection (5). Proceeds of the levy must be deposited in the district's flexibility fund established under 20-9-543 and must be expended by the district only for the purposes of the district's approved transformational learning plan.

(b) transfer state or local revenue from any budgeted or nonbudgeted fund, other than the debt service fund or retirement fund, to the district's flexibility fund.

(7) (a) Any funds transferred pursuant to subsection (6)(b) may be expended by the district solely for the purposes of implementing the district's approved transformational learning plan. Any transfers of funds are not considered expenditures to be applied against budget authority.

(b) Any transfers that are not expended for the purposes of implementing the district's approved transformational learning plan within 2 full school fiscal years after the funds are transferred must be transferred back to the originating fund from which the revenue was transferred.

(c) The intent of subsection (6)(b) and this subsection (7) is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

(8) The present law base calculated for K-12 local assistance under Title 17, chapter 7, part 1, must include transformational learning aid as defined in subsection (9).

(9) For the purposes of this title, the following definitions apply:

(a) "Transformational learning" means a flexible system of pupil-centered and proficiency-based learning that is designed to develop the full educational potential of each pupil that:

(i) is customized to address each pupil's strengths, needs, and interests; and

(ii) actively engages each pupil in determining what, how, when, and where each pupil learns.

(b) "Transformational learning aid" means 50% of the quality educator and qualified staff payment defined in 20-9-306 multiplied by 10% of the statewide number of full-time equivalent educators from the fiscal year immediately preceding the year to which distribution of transformational aid applies calculated as provided in 20-9-327. *(Terminates June 30, 2026—sec. 4, Ch. 462, L. 2025.)*

(5) The office of public instruction shall ensure that the participating student is included in the resident school district's ANB calculation pursuant to 20-9-311 in any year that the student remains otherwise eligible for inclusion and participates in the program. No other school district may count the student for ANB purposes. The participating student is not considered to be enrolled in the resident school district.

(6) The office of public instruction shall administer the individual student accounts pursuant to subsection (4)(a) so that:

(a) reimbursements are made promptly to parents for the purchase of allowable educational resources for a participating student pursuant to 20-7-1704; and

Part 18
Early Literacy Targeted Interventions

20-7-1801. Findings — purpose — legislative intent. (1) The legislature finds that the ability to read and to perform math at or above grade level is essential for educational success. The legislature also finds that too many Montana children are not proficient in reading or math at the end of 3rd grade.

(2) The purposes of this part are to:

(a) provide parents with voluntary early interventions for their children;

(b) increase the number of children who are proficient in reading and math at the end of 3rd grade and in so doing help those children develop their full educational potential pursuant to Article X, section 1(1), of the Montana constitution; and

(c) foster a strong economic return for the state on early educational investment through enhancing Montana's skilled workforce and decreasing future reliance on social programs and the criminal justice system.

(3) The legislature intends that the board of public education, the office of public instruction, and the boards of trustees of school districts collaborate to implement this part and achieve the purposes under subsection (2).

(4) The legislature further intends that the board of public education, the office of public instruction, and the boards of trustees of school districts collaborate on an ongoing basis to gather, analyze, and make available outcome data and continually refine the interventions to increase the efficacy and efficiency of each intervention.

20-7-1803. Early targeted interventions. (1) The trustees of a school district may provide eligible children with any of the interventions described in this section. This part may not be construed to limit the duty or authority of trustees to provide educational opportunities described elsewhere in this title.

(2) The board of public education shall determine evaluation methodologies to determine, based on a child's age or grade level, whether the child is above, at, or below a developmental trajectory leading to reading or math proficiency on completion of 3rd grade. The evaluation methodologies must be:

(a) developmentally appropriate;

(b) research-based;

(c) cost-effective; and

(d) if possible, aligned with formative assessments that inform instruction in the classroom-based program and the jumpstart program.

(3) The superintendent of public instruction shall provide school districts with access to and technical support for the evaluation methodologies determined by the board of public education.

(4) A child may not be evaluated for the purposes of this part unless requested by the child's parent or guardian. The trustees may administer an evaluation methodology to a child who will be 4 years of age or older on or before the following September 10 and who has not yet entered 3rd grade. A child who is evaluated to be below trajectory for 3rd-grade reading or math proficiency for the child's age or grade level is an eligible child.

(5) (a) For an eligible child who is 4 years of age or older on or before September 10 of the year in which the child is to participate in the program and who is not entering and who has not completed kindergarten, the trustees may offer a classroom-based program, which may be a half-time or full-time program. A full-time program must allow a parent or guardian to enroll the child half-time.

(iii) foster parental engagement; and

(iv) have a cost of no more than $1,000 a year for each child.

(c) The superintendent of public instruction shall provide school districts with access to and technical support for the home-based program.

(7) (a) For an eligible child who is 5 years of age or older on or before September 10 of the year in which the child is to participate in the program and who has not yet completed 3rd grade, the trustees may offer a jumpstart program.

(b) The jumpstart program must:

(i) take place during the time between the end of one school calendar year and the start of the next school calendar year, as determined by the trustees, preceding a child's entry into kindergarten, 1st grade, 2nd grade, or 3rd grade;

(ii) be at least 4 weeks in duration and provide at least 120 instructional hours;

(iii) be aligned to a framework determined by the board of public education; and

(iv) be designed in a manner to increase the likelihood of a child being evaluated at the end of the ensuing school year to be at or above a trajectory leading to reading or math proficiency at the end of 3rd grade.

(2) The superintendent of public instruction shall pay for the costs for an eligible child participating in a home-based program pursuant to 20-7-1803(6) from funds appropriated for this purpose. The cost for each child may not exceed $1,000 a year. If the annual appropriation for this program is not sufficient to fully fund all eligible children participating in the home-based program, the superintendent shall limit participation on a first-come, first-served basis.

(3) An eligible child participating in a jumpstart program pursuant to 20-7-1803(7) must be counted as quarter-time enrollment by the school district providing the jumpstart program to the child for the purpose of ANB calculations pursuant to 20-9-311. An eligible child participating in a jumpstart program provided by a district other than the child's resident school district does not require an out-of-district attendance agreement and is not subject to the tuition laws under 20-5-320 through 20-5-324.

(4) Trustees offering an early targeted intervention shall closely monitor the program and report annually to the superintendent of public instruction on the efficacy of the program no later than July 15. (b) longitudinal data displaying the proficiency level of participating and nonparticipating children at each grade level following participation in an intervention;

(c) at a time when the data is available, long-term outcome data for participants and nonparticipants, including but not limited to:

(i) assessment data in 8th grade and high school;

(ii) high school graduation rates; and

(iii) postsecondary participation rates; and

(d) a list of schools offering one or more targeted interventions and a list of the matched comparable nonparticipating schools that on the most recent 4th grade statewide reading and math assessments:

(i) had 75% or more of its students score at proficient or above; or

(ii) improved the percentage of students scoring at proficient or above by 10 or more percentage points.

20-9-141. *(Temporary)* **Computation of general fund net levy requirement by county superintendent.** (1) The county superintendent shall compute the levy requirement for each district's general fund on the basis of the following procedure:

(a) Determine the funding required for the district's final general fund budget less the sum of direct state aid and the special education allowable cost payment for the district by totaling:

(i) the district's nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303; and

(ii) any general fund budget amount adopted by the trustees of the district under the provisions of 20-9-308 and 20-9-353.

(b) Determine the money available for the reduction of the property tax on the district for the general fund by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund, excluding any guaranteed tax base aid;

(iii) anticipated oil and natural gas production taxes;

(iv) pursuant to subsection (4), anticipated revenue from coal gross proceeds under 15-23-703;

(v) if applicable, a coal-fired generating unit closure mitigation block grant as provided in 20-9-638; and

(vi) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the BASE levy budget.

(c) Notwithstanding the provisions of subsection (2), subtract the money available to reduce the property tax required to finance the general fund that has been determined in subsection (1)(b) from any general fund budget amount adopted by the trustees of the district, up to the BASE budget amount, to determine the general fund BASE budget levy requirement.

(d) Determine the sum of:

(i) any amount remaining after the determination in subsection (1)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the over-BASE budget levy; and

(iii) after first applying anticipated tuition revenue to the BASE budget under subsection (2)(b), any remaining tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(e) Subtract the amount determined in subsection (1)(d) from any additional funding requirement to be met by an over-BASE budget amount and a district levy as provided in 20-9-303 to determine any additional general fund levy requirements.

(2) The county superintendent shall calculate the number of mills to be levied on the taxable property in the district to finance the general fund levy requirement for any amount that does not exceed the BASE budget amount for the district by:

(a) dividing the amount determined in subsection (1)(c) by the sum of:

(i) the amount of guaranteed tax base aid that the district will receive for each mill levied, as certified by the superintendent of public instruction; and

(ii) the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202, divided by 1,000; and

(b) if applicable, subtracting the result of dividing any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2), that are available for reduction of the district's BASE budget levy by the current total taxable valuation of the district, as certified by the department of revenue under 15-10-202 divided by 1,000.

(3) The net general fund levy requirement determined in subsections (1)(c) and (1)(d) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the general fund net levy requirement for the district, and a levy must be set by the county commissioners in accordance with 20-9-142.

(4) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.

20-9-141. *(Effective July 1, 2026)* **Computation of general fund revenue and levy requirements by county superintendent — BASE funding revenue requirement — over-BASE levy requirement.** (1) The county superintendent shall compute the revenue and levy requirements for each district's general fund as described in this section.

(2) For a district's BASE funding revenue requirement:

(a) Determine the funding required for the BASE area of the district's final general fund budget less the sum of:

(i) the district's BASE aid; and

(ii) if applicable, the district's nonisolated school BASE budget requirement to be met by a district levy as provided in 20-9-303.

(b) Determine the money available for the reduction of the BASE funding revenue requirement by totaling:

(i) the general fund balance reappropriated, as established under the provisions of 20-9-104;

(ii) amounts received in the last fiscal year for which revenue reporting was required for each of the following:

(A) interest earned by the investment of general fund cash in accordance with the provisions of 20-9-213(4); and

(B) any other revenue received during the school fiscal year that may be used to finance the general fund;

(iii) anticipated oil and natural gas production taxes allocated to the BASE portion of the general fund budget at the discretion of school district trustees pursuant to 20-9-310; and

(iv) pursuant to subsection (6), anticipated revenue from coal gross proceeds under 15-23-703.

(c) Subtract the money available to reduce the BASE funding revenue requirement that has been determined in subsection (2)(b) from the amount determined in subsection (2)(a). This is the district's BASE funding revenue requirement. If the amount determined in subsection (2)(b) exceeds the amount determined in subsection (2)(a), the district's BASE funding revenue requirement is $0 and the excess amount from subsection (2)(b) must be applied to reducing the over-BASE levy under subsection (3).

(3) For the district's over-BASE budget levy:

(a) Determine the sum of:

(i) any excess amount remaining after the determination in subsection (2)(c);

(ii) any portion of the increment remitted to a school district under 7-15-4286(3) or 7-15-4291 used to reduce the over-BASE budget levy;

(iii) anticipated oil and natural gas production taxes allocated to the over-BASE portion of the general fund budget at the discretion of school district trustees pursuant to 20-9-310;

(iv) if applicable, a coal-fired generating unit closure mitigation block grant as provided in 20-9-638; and

(v) any tuition payments for out-of-district pupils to be received under the provisions of 20-5-320 through 20-5-324, except the amount of tuition received for a pupil who is a child with a disability in excess of the amount received for a pupil without disabilities, as calculated under 20-5-323(2).

(b) Subtract the amount determined in subsection (3)(a) from the district's over-BASE budget. This is this the district's over-BASE budget levy.

(4) The county superintendent shall:

(a) utilize a district's BASE funding revenue requirement calculated under subsection (2) to determine the countywide levy for BASE funding support as described in 20-9-362; and

(b) report a district's over-BASE budget levy amount to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and a levy must be set by the county commissioners in accordance with 20-9-142.

(5) If a district has an amount of revenue directed to funding the district's general fund under this section that results in an excess of revenue required to fund the district's over-BASE levy as calculated in subsection (3), the trustees of the district shall allocate that excess to another budgeted fund of the district to reduce local property taxes by the amount of the excess.

(6) For each school district, the department of revenue shall calculate and report to the county superintendent the amount of revenue anticipated for the ensuing fiscal year from revenue from coal gross proceeds under 15-23-703.

(6) any other unforeseen need of the district that cannot be postponed until the next school year without dire consequences affecting:

(a) the safety of the students and district employees; or

(b) the educational functions of the district. Any budget amendment adopted pursuant to this subsection (6)(b) that in combination with other budget amendments within the same school fiscal year exceeds 10% of the district's adopted general fund budget must be reported by the school district to the education interim committee in accordance with 5-11-210 and the board of public education with an explanation of why the budget amendment is necessary.

20-9-162. Authorization for budget amendment adoption. (1) (a) Notwithstanding the provisions of subsections (2) and (3), a budget amendment may be adopted at any time of the school fiscal year, except that a budget amendment required by an enrollment increase as provided in 20-9-161(1) may not be adopted until after October 1.

(b) The trustees may approve a budget amendment pursuant to 20-9-161(2) through (6) by a resolution.

(c) Whenever the trustees of a district decide that a budget amendment is necessary, they may proclaim the need for the budget amendment by a majority vote of the trustees. The proclamation must state the facts constituting the need for the budget amendment, the funds affected by the budget amendment, the anticipated source of financing, the estimated amount of money required to finance the budget amendment, and the time and place the trustees will meet for the purpose of considering and adopting the budget amendment for the current school fiscal year.

(2) The trustees shall send a copy of the proclamation to the county superintendent and to the board of county commissioners of the county.

(3) The trustees shall submit a budget amendment for an enrollment increase to the superintendent of public instruction for approval in the manner provided in 20-9-163.

20-9-163. Resolution for budget amendment — petition to superintendent of public instruction. (1) Whenever the trustees of a district decide that a budget amendment is necessary because of an enrollment increase, they may petition the superintendent of public instruction to adopt a resolution for the budget amendment. The petition must be signed by a majority of the trustees.

(2) The petition must state the facts constituting the need for the budget amendment, the estimated amount of money required to fund the budget amendment, the funds affected by the budget amendment, the anticipated source of financing for the budget amendment, and the current year enrollment.

(3) The superintendent of public instruction shall promptly approve or disapprove the petition requesting approval to adopt a resolution for a budget amendment because of increased enrollment. The superintendent of public instruction shall adjust the district's maximum general fund budget based on the approved enrollment increase. Upon approval, a district may not adopt a budget amendment if the amount will cause the district to exceed the district's adjusted maximum general fund budget. If the petition is approved, the trustees may adopt a resolution for a budget amendment and take all other steps required for the adoption of a budget amendment. Approval of a petition by the superintendent of public instruction authorizes the board of trustees to initiate a budget amendment by resolution and does not relieve the trustees of the necessity of complying with the requirements of the school budgeting laws. Approval of the petition may not be construed as approval of any subsequent application for increased state aid on account of the budget amendment.

20-9-164. Notice of budget amendment resolution. A copy of the budget amendment resolution must be published one time in a newspaper that will give notice to the largest number of people of the district as determined by the trustees, and a copy of the resolution must be posted at each schoolhouse of the district. A copy of the budget amendment resolution must also be delivered to the county superintendent and to the county clerk as the clerk of the board of county commissioners of the county. The publication, posting, and delivery of the resolution must be done not less than 1 week before the day specified in the resolution for the consideration and adoption of a budget amendment.

20-9-165. Budget amendment limitation, preparation, and adoption procedures. (1) The meeting of the trustees to consider and adopt a budget amendment must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that there is sufficient need for a budget amendment, the trustees may make and adopt a final budget amendment, setting forth fully the facts constituting the need for the budget amendment. In adopting the final budget amendment, the trustees may budget for any fund that was included on the final budget of the district for the current school fiscal year. The budget must be itemized to show the amount appropriated for each item.

(2) When the budget amendment is the result of increased enrollment, the maximum amount of the budget amendment for all funds must be determined in the following manner:

(a) determine the total amount in the final budget for the current school fiscal year of all funds affected by the enrollment increase, less any amounts appropriated as capital outlay and any amount appropriated for addition to the operating reserve;

(b) divide the amount determined in subsection (2)(a) by the number of pupils originally enrolled in the district during the immediately preceding school fiscal year. The resulting cost per pupil is the maximum permissible per-pupil expenditure in the budget amendment.

(c) determine the enrollment increase of the current school fiscal year by subtracting the number of pupils originally enrolled during the immediately preceding school fiscal year from the number of pupils enrolled for the current school year. The result is the enrollment increase for the current school fiscal year.

(d) multiply the cost per pupil determined in subsection (2)(b) by the enrollment increase determined in subsection (2)(c). The result is the maximum limitation on a budget amendment for amendments resulting from increased enrollment.

(3) For other types of budget amendments, the budget amendment is limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the budget amendment and the final budget amendment must include the details of the proposed expenditures.

(4) Whenever the trustees adopt a budget amendment for the transportation fund, the trustees shall attach to the budget amendment a copy of each transportation contract that is connected with the budget amendment and that has been prepared and executed in accordance with the school transportation contract laws.

(5) After the trustees have adopted the budget amendment by a majority vote of the trustees, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the superintendent of public instruction.

20-9-166. Financial support for transportation budget amendments and significant enrollment increases. (1) Whenever a final budget amendment has been adopted for the transportation fund, the trustees may apply to the superintendent of public instruction for an increased payment for state transportation reimbursement. The superintendent of public instruction shall adopt rules for the application for state transportation reimbursement. The superintendent of public instruction shall approve or disapprove each application for state transportation reimbursement. When the superintendent of public instruction approves an application, the superintendent of public instruction shall determine the additional amount of state transportation reimbursement that will be made available to the applicant district because of additional pupil transportation obligations. The superintendent of public instruction shall notify the applicant district of the superintendent's approval or disapproval and, in the event of approval, the amount of additional state aid that will be made available for the transportation fund. The superintendent of public instruction shall disburse the state aid to the eligible district at the time the next regular state aid payment is made.

(2) (a) When a district experiences an enrollment increase based on the October enrollment count, the district may be eligible for a significant enrollment increase payment in support of the district's general fund as described in this subsection (2). All enrollment increases under this subsection (2) must be calculated separately for each budget unit of a school district.

(b) To be eligible for a significant enrollment increase payment, a district's October enrollment count in the current year converted to ANB must exceed the district's budget limit ANB for the school fiscal year 3 years prior by 110% or more. The significant enrollment increase payment the district qualifies for must be calculated by the superintendent of public instruction no later than December 1 following the October enrollment count as the difference between:

(i) an amount equal to 80% of the district's total per-ANB entitlement for that fiscal year if the district's budget limit ANB was calculated using the district's actual October enrollment count minus the absorption factor; and

(ii) 80% of the district's total per-ANB entitlement for that fiscal year.

(c) (i) The superintendent of public instruction shall notify a district of the district's eligibility for a significant enrollment increase payment and the amount by December 15.

(ii) The trustees of the district shall determine at the next scheduled board meeting and no later than March 1 whether to accept the full or a partial amount of the payment and adopt a general fund budget amendment for any accepted amount. A budget amendment under this section must be made by resolution of the trustees of the district and is not subject to the requirements of other budget amendments under Title 20, chapter 9, part 1. The trustees shall provide a copy of the budget amendment to the superintendent of public instruction in a manner determined by the superintendent of public instruction.

(iii) On receiving a copy of the budget amendment, the superintendent of public instruction shall disburse from the BASE aid appropriation in House Bill No. 2 the amount of the accepted payment distributed with the remaining direct state aid payments for that fiscal year pursuant to 20-9-344.

(d) A district receiving additional financial support under this subsection (2) shall deposit the money in the district's general fund and use it to address costs associated with the enrollment increase.

(e) For the purposes of this subsection (2), "absorption factor" means an ANB amount rounded to the nearest whole number equal to the sum of 5 ANB plus 3% of the district's budget limit ANB for that fiscal year.

20-9-201. Definitions and application. (1) As used in this title, unless the context clearly indicates otherwise, "fund" means a separate detailed account of receipts and expenditures for a specific purpose as authorized by law or by the superintendent of public instruction under the provisions of subsection (2). Funds are classified as follows:

(a) A "budgeted fund" means any fund for which a budget must be adopted in order to expend money from the fund. The general fund, transportation fund, bus depreciation reserve fund, tuition fund, retirement fund, debt service fund, building reserve fund, adult education fund, nonoperating fund, and any other funds designated by the legislature are budgeted funds.

(b) A "nonbudgeted fund" means any fund for which a budget is not required in order to expend money on deposit in the fund. The school food services fund, miscellaneous programs fund, building fund, lease or rental agreement fund, traffic education fund, interlocal cooperative fund, internal service fund, impact aid fund, enterprise fund, custodial fund, extracurricular fund, metal mines tax reserve fund, endowment fund, litigation reserve fund, and any other funds designated by the legislature are nonbudgeted funds.

(2) The school financial administration provisions of this title apply to all money of any elementary or high school district. Elementary and high school districts shall record the receipt and disbursement of all money in accordance with generally accepted accounting principles. The superintendent of public instruction has general supervisory authority as prescribed by law over the school financial administration provisions, as they relate to elementary and high school districts. The superintendent of public instruction shall adopt rules necessary to secure compliance with the law.

(3) Except as otherwise provided by law, whenever the trustees of a district determine that a fund is inactive and will no longer be used, the trustees shall close the fund by transferring all cash and other account balances to any fund considered appropriate by the trustees if the fund does not have a cash or fund balance deficit.

20-9-204. Conflicts of interests, letting contracts, and calling for bids — exceptions. (1) It is unlawful for a trustee to:

(a) have any pecuniary interest, either directly or indirectly, in any contract made by the trustee while acting in that official capacity or by the board of trustees of which the trustee is a member; or

(b) be employed in any capacity by the trustee's own school district, with the exception of officiating at athletic competitions under the auspices of the Montana officials association.

(2) For the purposes of subsection (1):

(a) "contract" does not include:

(i) merchandise sold to the highest bidder at public auctions;

(ii) investments or deposits in financial institutions that are in the business of loaning or receiving money when the investments or deposits are made on a rotating or ratable basis among financial institutions in the community or when there is only one financial institution in the community; or

(iii) contracts for professional services, other than salaried services, or for maintenance or repair services or supplies when the services or supplies are not reasonably available from other sources if the interest of any board member and a determination of the lack of availability are entered in the minutes of the board meeting at which the contract is considered; and

(b) "pecuniary interest" does not include holding an interest of 10% or less in a corporation.

(3) (a) Except for district needs that must be met because of an unforeseen emergency, as defined in 20-3-322(6), or as provided in subsections (4) and (6) of this section, whenever any building, furnishing, repairing, or other work for the benefit of the district or purchasing of supplies for the district is necessary, the work done or the purchase made must be by contract if the sum exceeds $80,000.

(b) Except as provided in Title 18, chapter 2, part 5, each contract must be let to the lowest responsible bidder after advertisement for bids. The advertisement for bids under this subsection (3)(b) must be published in the newspaper that will give notice to the largest number of people of the district as determined by the trustees. The advertisement must be made once each week for 2 consecutive weeks, and the second publication must be made not less than 5 days or more than 12 days before consideration of bids. A district participating in a cooperative purchasing group may purchase supplies and services through the group without complying with the provisions of subsection (3) if the cooperative purchasing group has a publicly available master list of items available with pricing included and provides an opportunity at least twice yearly for any vendor, including a Montana vendor, to compete, based on a lowest responsible bidder standard, for inclusion of the vendor's supplies and services on the cooperative purchasing group's master list.

(5) This section may not require the board of trustees to let a contract for any routine and regularly performed maintenance or repair project or service that can be accomplished by district staff whose regular employment with the school district is related to the routine performance of maintenance for the district.

(1) Whenever it appears to the trustees of a district that the appropriated amount of an item of a budgeted fund of the final budget or a budget amendment is in excess of the amount actually required during the school fiscal year for the appropriation item, the trustees may transfer any of the excess appropriation amount to any other appropriation item of the same budgeted fund.

(2) Unless otherwise restricted by a specific provision in this title, transfers may be made between different funds of the same district or between the final budget and a budget amendment under one of the following circumstances:

(a) (i) Except as provided in subsections (2)(a)(ii) through (2)(a)(iv), transfers may be made from one budgeted fund to another budgeted fund or between the final budget and a budget amendment for a budgeted fund whenever the trustees determine, in their discretion, that the transfer of funds is necessary to improve the efficiency of spending within the district or when an action of the trustees results in savings in one budgeted fund that can be put to more efficient use in another budgeted fund. Transfers may not be made with funds approved by the voters or with funds raised by a nonvoted levy unless:

(A) the transfer is within or directly related to the purposes for which the funds were raised and the trustees hold a properly noticed hearing to accept public comment on the transfer; or

(B) the transfer is approved by the qualified electors of the district in an election called for the purpose of approving the transfer, in which case the funds may be spent for the purpose approved on the ballot.

(ii) Unless otherwise authorized by a specific provision in this title, transfers from the general fund to any other fund and transfers to the general fund from any other fund are prohibited.

(iii) Unless otherwise authorized by a specific provision in this title, transfers from the retirement fund to any other fund are prohibited.

(iv) Unless otherwise authorized by a specific provision in this title, transfers from the debt service fund to any other fund are prohibited.

(b) Transfers may be made from one nonbudgeted fund to another nonbudgeted fund whenever the trustees determine that the transfer of funds is necessary to improve the efficiency of spending within the district. Transfers may not be made with funds restricted by federal law unless the transfer is in compliance with any restrictions or conditions imposed by federal law. Before a transfer can occur, the trustees shall hold a properly noticed hearing to accept public comment on the transfer.

(3) The trustees shall enter the authorized transfers upon the permanent records of the district.

(4) The intent of this section is to increase the flexibility and efficiency of school districts without an increase in local taxes. In furtherance of this intent, if transfers of funds are made from any school district fund supported by a nonvoted levy, the district may not increase its nonvoted levy for the purpose of restoring the amount of funds transferred.

20-9-213. Duties of trustees. The trustees of each district have the authority to transact all fiscal business and execute all contracts in the name of the district. A person other than the trustees acting as a governing board may not expend money of the district. In conducting the fiscal business of the district, the trustees shall:

(1) cause the keeping of an accurate, detailed accounting of all receipts and expenditures of school money for each fund and account maintained by the district in accordance with generally accepted accounting principles and the rules prescribed by the superintendent of public instruction. The record of the accounting must be open to public inspection at any meeting of the trustees.

(2) authorize all expenditures of district money and cause warrants or checks, as applicable, to be issued for the payment of lawful obligations;

(3) issue warrants or checks, as applicable, on any budgeted fund in anticipation of budgeted revenue, except that the expenditures may not exceed the amount budgeted for the fund;

(4) invest any money of the district, whenever in the judgment of the trustees the investment would be advantageous to the district, either by directing the county treasurer to invest any money of the district or by directly investing the money of the district in eligible securities, as identified in 7-6-202, in savings or time deposits in a state or national bank, building or loan association, savings and loan association, or credit union insured by the FDIC or NCUA located in the state, or in a repurchase agreement that meets the criteria provided for in 7-6-213. All interest collected on the deposits or investments must be credited to the fund from which the money was withdrawn, except that interest earned on account of the investment of money realized from the sale of bonds must be credited to the debt service fund or the building fund, at the discretion of the board of trustees. The placement of the investment by the county treasurer is not subject to ratable distribution laws and must be done in accordance with the directive from the board of trustees. A district may invest money under the state unified investment program established in Title 17, chapter 6, or in a unified investment program with the county treasurer, with other school districts, or with any other political subdivision if the unified investment program is limited to investments that meet the requirements of this subsection (4), including those investments authorized by the board of investments under Title 17, chapter 6. A school district that enters into a unified investment program with another school district or political subdivision other than the state shall do so under the auspices of and by complying with the provisions governing interlocal cooperative agreements authorized under Title 7, chapter 11, and educational cooperative agreements authorized under Title 20, chapter 9, part 7. A school district either shall contract for investment services with any company complying with the provisions of Title 30, chapter 10, or shall contract with the state board of investments for investment services.

(5) cause the district to record each transaction in the appropriate account before the accounts are closed at the end of the fiscal year in order to properly report the receipt, use, and disposition of all money and property for which the district is accountable;

(6) report annually to the county superintendent, not later than August 15, the financial activities of each fund maintained by the district during the last-completed school fiscal year, on the forms prescribed and furnished by the superintendent of public instruction. Annual fiscal reports for joint school districts must be submitted on or before August 15 to the county superintendent of each county in which part of the joint district is situated.

(7) whenever requested, report any other fiscal activities to the county superintendent, superintendent of public instruction, or board of public education;

(8) cause the accounting records of the district to be audited as required by 2-7-503; and

(9) perform, in the manner permitted by law, other fiscal duties that are in the best interests of the district.

(2) The portion of a joint district direct state aid for each county, as determined in subsection (1)(c), is a separate direct state aid amount in the county for the purposes of calculating the various revenues for the BASE funding program. After the calculation of the direct state aid revenues, the remainder of the general fund revenues must be calculated in accordance with the provisions for general fund financing.

(1) Pursuant to Article X, section 1, of the Montana constitution, the legislature is required to provide a basic system of free quality public elementary and secondary schools throughout the state of Montana that will guarantee equality of educational opportunity to all.

(2) As used in this section, a "basic system of free quality public elementary and secondary schools" means:

(a) the educational program specified by the accreditation standards provided for in 20-7-111, which represent the minimum standards upon which a basic system of free quality public elementary and secondary schools is built;

(b) educational programs to provide for students with special needs, such as:

(i) a child with a disability, as defined in 20-7-401;

(ii) an at-risk student;

(iii) a student with limited English proficiency;

(iv) a child who is qualified for services under 29 U.S.C. 794; and

(v) gifted and talented children, as defined in 20-7-901;

(c) educational programs to implement the provisions of Article X, section 1(2), of the Montana constitution and Title 20, chapter 1, part 5, through development of curricula designed to integrate the distinct and unique cultural heritage of American Indians into the curricula, with particular emphasis on Montana Indians;

(d) qualified and effective teachers or administrators and qualified staff to implement the programs in subsections (2)(a) through (2)(c);

(e) facilities and distance learning technologies associated with meeting the accreditation standards;

(f) transportation of students pursuant to Title 20, chapter 10;

(g) a procedure to assess and track student achievement in the programs established pursuant to subsections (2)(a) through (2)(c); and

(h) preservation of local control of schools in each district vested in a board of trustees pursuant to Article X, section 8, of the Montana constitution.

(3) In developing a mechanism to fund the basic system of free quality public elementary and secondary schools and in making adjustments to the funding formula, the legislature shall, at a minimum, consider the following educationally relevant factors:

(a) the number of students in a district;

(b) the needs of isolated schools with low population density;

(c) the needs of urban schools with high population density;

(d) the needs of students with special needs, such as a child with a disability, an at-risk student, a student with limited English proficiency, a child who is qualified for services under 29 U.S.C. 794, and gifted and talented children;

(e) the needs of American Indian students; and

(f) the ability of school districts to attract and retain qualified educators and other personnel.

(4) The legislature shall:

(a) determine the costs of providing the basic system of free quality public elementary and secondary schools;

(b) establish a funding formula that:

(i) is based on the definition of a basic system of free quality public elementary and secondary schools and reflects the costs associated with providing that system as determined in subsection (4)(a);

(ii) allows the legislature to adjust the funding formula based on the educationally relevant factors identified in this section;

(iii) is self-executing and includes a mechanism for annual inflationary adjustments;

(iv) is based on state laws;

(v) is based on federal education laws consistent with Montana's constitution and laws; and

(vi) distributes to school districts in an equitable manner the state's share of the costs of the basic system of free quality public elementary and secondary schools; and

(c) consolidate the budgetary fund structure to create the number and types of funds necessary to provide school districts with the greatest budgetary flexibility while ensuring accountability and efficiency.

(5) At least every 10 years, the legislature shall form the school funding interim commission pursuant to 5-20-301 for the purpose of reassessing the state's school funding formula.

History: En. Sec. 2, Ch. 208, L. 2005; amd. Sec. 2, Ch. 359, L. 2015.

20-9-310. *(Temporary)* **Oil and natural gas production taxes for school districts — allocation and limits.** (1) Except as provided in subsection (5), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) Except as provided by 15-36-332(9), the department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the guarantee account provided for in 20-9-622.

(4) (a) Subject to the limitation in subsection (1) and the conditions in subsection (4)(b), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(b) Except as provided in subsection (4)(c), if the trustees apply an amount less than 12.5% of the total oil and natural gas production taxes received by the district in the prior school fiscal year to the district's general fund BASE budget for the upcoming school fiscal year, then:

(i) the trustees shall levy the number of mills required to raise an amount equal to the difference between 12.5% of the oil and natural gas production taxes received by the district in the prior school fiscal year and the amount of oil and natural gas production taxes the trustees budget in the district's general fund BASE budget for the upcoming school fiscal year;

(ii) the mills levied under subsection (4)(b)(i) are not eligible for the guaranteed tax base subsidy under the provisions of 20-9-366 through 20-9-369; and

(iii) the general fund BASE budget levy requirement calculated in 20-9-141 must be calculated as though the trustees budgeted 12.5% of the oil and natural gas production taxes received by the district in the prior year and the number of mills calculated in subsection (4)(b)(i) must be added to the number of mills calculated in 20-9-141(2).

(c) The provisions of subsection (4)(b) do not apply to the following:

(i) a district that has a maximum general fund budget of less than $1 million;

(ii) a district whose oil and natural gas revenue combined with its adopted general fund budget totals 105% or less of its maximum general fund budget;

(iii) a district that has a maximum general fund budget of $1 million or more and was eligible for a significant enrollment increase payment pursuant to 20-9-166 in the fiscal year immediately preceding the fiscal year to which the provisions of this subsection (4) would otherwise apply; or

(iv) a district that has issued outstanding oil and natural gas revenue bonds. Funds received pursuant to this section must first be applied by the district to payment of debt service obligations for oil and natural gas revenue bonds for the next 12-month period.

(5) (a) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district that was eligible for a significant enrollment increase payment pursuant to 20-9-166. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the fiscal year immediately following the fiscal year in which the district was eligible and must be calculated by multiplying $45,000 times each additional ANB used to calculate the significant enrollment increase payment pursuant to 20-9-166, including the absorption factor reduction.

(b) For a district in nonoperating status under 20-9-505, the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget in the district's most recent operating year, determined in accordance with 20-9-308.

(6) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall.

20-9-310. *(Effective July 1, 2026)* **Oil and natural gas production taxes for school districts — allocation and limits.** (1) Except as provided in subsection (5), the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget, determined in accordance with 20-9-308.

(2) Upon receipt of school district budget reports required under 20-9-134, the superintendent of public instruction shall provide the department of revenue with a list reporting the maximum general fund budget for each school district.

(3) Except as provided by 15-36-332(9), the department of revenue shall make the full quarterly distribution of oil and natural gas production taxes as required under 15-36-332(6) until the amount distributed reaches the limitation in subsection (1) of this section. The department of revenue shall deposit any amount exceeding the limitation in subsection (1) in the guarantee account provided for in 20-9-622.

(4) Subject to the limitation in subsection (1), the trustees shall budget and allocate the oil and natural gas production taxes anticipated by the district in any budgeted fund at the discretion of the trustees. Oil and natural gas production taxes allocated to the district general fund may be applied to the BASE or over-BASE portions of the general fund budget at the discretion of the trustees.

(5) (a) The limit on oil and natural gas production taxes that a school district may retain under subsection (1) must be increased for any school district that was eligible for a significant enrollment increase payment pursuant to 20-9-166. The increase in the limit on oil and natural gas production taxes that a school district may retain under subsection (1) applies in the fiscal year immediately following the fiscal year in which the district was eligible and must be calculated by multiplying $45,000 times each additional ANB used to calculate the significant enrollment increase payment pursuant to 20-9-166, including the absorption factor reduction.

(b) For a district in nonoperating status under 20-9-505, the maximum amount of oil and natural gas production taxes that a school district may retain is 130% of the school district's maximum budget in the district's most recent operating year, determined in accordance with 20-9-308.

(6) In any year in which the actual oil and natural gas production taxes received by a school district are less than 50% of the total oil and natural gas production taxes received by the district in the prior year, the district may transfer money from any budgeted fund to its general fund in an amount not to exceed the amount of the shortfall.

Applicability: Section 31, Ch. 424, L. 2025, provided: "[This act] applies to fiscal years beginning on or after July 1, 2026."

20-9-311. Calculation of ANB — 3-year averaging. (1) Average number belonging must be computed for each budget unit as follows:

(a) compute an average enrollment by adding a count of regularly enrolled pupils who were enrolled as of the first Monday in October of the prior school fiscal year to a count of regularly enrolled pupils on the first Monday in February of the prior school fiscal year or the next school day if those dates do not fall on a school day, and divide the sum by two; and

(b) multiply the average enrollment calculated in subsection (1)(a) by the sum of 180 and the approved pupil-instruction-related days for the current school fiscal year and divide by 180.

(2) For the purpose of calculating ANB under subsection (1), up to 7 approved pupil-instruction-related days may be included in the calculation.

(3) When a school district has approval to operate less than the minimum aggregate hours under 20-9-806, the total ANB must be calculated in accordance with the provisions of 20-9-805.

(4) (a) Except as provided in subsection (4)(d), for the purpose of calculating ANB, enrollment in an education program:

(i) from 180 to 359 aggregate hours of pupil instruction per school year is counted as one-quarter-time enrollment;

(ii) from 360 to 539 aggregate hours of pupil instruction per school year is counted as half-time enrollment;

(iii) from 540 to 719 aggregate hours of pupil instruction per school year is counted as three-quarter-time enrollment; and

(iv) 720 or more aggregate hours of pupil instruction per school year is counted as full-time enrollment.

(b) Except as provided in subsection (4)(d), enrollment in a program intended to provide fewer than 180 aggregate hours of pupil instruction per school year may not be included for purposes of ANB.

(c) Enrollment in a self-paced program or course may be converted to an hourly equivalent based on the hours necessary and appropriate to provide the course within a regular classroom schedule.

(d) A school district may include in its calculation of ANB a pupil who is enrolled in a program providing fewer than the required aggregate hours of pupil instruction required under subsection (4)(a) or (4)(b) if the pupil has demonstrated proficiency in the content ordinarily covered by the instruction as determined by the school board using district assessments. The ANB of a pupil under this subsection (4)(d) must be converted to an hourly equivalent based on the hours of instruction ordinarily provided for the content over which the student has demonstrated proficiency.

(e) (i) Except as provided in subsection (4)(e)(ii), a pupil who is concurrently enrolled in more than one public school, program, or district may not be counted as more than one full-time pupil for ANB purposes. When a pupil is concurrently enrolled in more than one district, any fractional enrollment under subsection (4)(a) must be attributed first to a pupil's nonresident district.

(ii) A pupil who participates in a jumpstart program under Title 20, chapter 7, part 18, may be counted as up to 1¼ enrollment for ANB purposes. A district providing a jumpstart program shall add one-quarter enrollment for a pupil who participated in the district's jumpstart program to the pupil's regular enrollment count under this subsection (4) in both the October and February enrollment counts following the student's participation in the jumpstart program.

(5) When a pupil has been absent, with or without excuse, for more than 10 consecutive school days, the pupil may not be included in the enrollment count used in the calculation of the ANB unless the pupil resumes attendance prior to the day of the enrollment count.

(6) (a) (i) The enrollment of preschool pupils in preschool programs created at the discretion of trustees as provided in 20-7-117 may not be included in the ANB calculations.

(ii) Preschool children with disabilities receiving special education services as required under 20-7-411(3) may be included in ANB calculations based on the aggregate hours of pupil instruction as provided in subsection (4) of this section.

(b) Except as provided in subsection (6)(c), a pupil who has reached 19 years of age by September 10 of the school year may not be included in the ANB calculations.

(c) A pupil with disabilities who is over 19 years of age and has not yet reached 21 years of age by September 10 of the school year and who is receiving special education services from a school district pursuant to 20-7-411(4)(a) may be included in the ANB calculations if:

(i) the student has not graduated;

(ii) the student is eligible for special education services and is likely to be eligible for adult services for individuals with developmental disabilities due to the significance of the student's disability; and

(iii) the student's individualized education program has identified transition goals that focus on preparation for living and working in the community following high school graduation since age 16 or the student's disability has increased in significance after age 16.

(d) A school district providing special education services pursuant to subsection (6)(c) is encouraged to collaborate with agencies and programs that serve adults with developmental disabilities in meeting the goals of a student's transition plan.

(7) The ANB of the regularly enrolled pupils for the public schools of a district must be based on the aggregate of all the regularly enrolled pupils attending the schools of the district, except that:

(a) the ANB is calculated as a separate budget unit when:

(i) a school of the district is located more than 20 miles beyond the incorporated limits of a city or town located in the district and at least 20 miles from any other school of the district, the number of regularly enrolled pupils of the school must be calculated as a separate budget unit for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(ii) a school of the district is located more than 20 miles from any other school of the district and incorporated territory is not involved in the district, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district;

(iii) the superintendent of public instruction approves an application not to aggregate when geographic barriers exist affecting transportation, such as poor roads, mountains, rivers, or other obstacles to travel, that would result in an unusual hardship to the pupils of the school if they were transported to another school, the number of regularly enrolled pupils of the school must be calculated separately for ANB purposes and the district must receive a basic entitlement for the school calculated separately from the other schools of the district; or

(iv) two or more districts reorganize or annex under the provisions of 20-6-422 or 20-6-423, the ANB and the basic entitlements of the component districts must be calculated separately for a period of 3 years following the reorganization or annexation. Each district shall retain a percentage of its basic entitlement for 3 additional years as follows:

(A) 75% of the basic entitlement for the fourth year;

(B) 50% of the basic entitlement for the fifth year; and

(C) 25% of the basic entitlement for the sixth year.

(b) when a junior high school has been approved and accredited as a junior high school, all of the regularly enrolled pupils of the junior high school must be considered as high school district pupils for ANB purposes;

(c) when a middle school has been approved and accredited, all pupils below the 7th grade must be considered elementary school pupils for ANB purposes and the 7th and 8th grade pupils must be considered high school pupils for ANB purposes; or

(d) when a school has been designated as nonaccredited by the board of public education because of failure to meet the board of public education's assurance and performance standards, the regularly enrolled pupils attending the nonaccredited school are not eligible for ANB calculation purposes, nor will an ANB for the nonaccredited school be used in determining the BASE funding program for the district.

(8) The district shall provide the superintendent of public instruction with semiannual reports of school attendance, absence, and enrollment for regularly enrolled students, using a format determined by the superintendent.

(9) (a) Except as provided in subsections (9)(b) and (9)(c), enrollment in a basic education program provided by the district through any combination of in-person or remote instruction may be included for ANB purposes only if the pupil is offered access to the complete range of

educational services for the basic education program required by the accreditation standards adopted by the board of public education.

(b) Access to school programs and services for a student placed by the trustees in a private program for special education may be limited to the programs and services specified in an approved individual education plan supervised by the district.

(c) Access to school programs and services for a student who is incarcerated in a facility, other than a youth detention center, may be limited to the programs and services provided by the district at district expense under an agreement with the incarcerating facility.

(d) This subsection (9) may not be construed to require a school district to offer access to activities governed by an organization having jurisdiction over interscholastic activities, contests, and tournaments to a pupil who is not otherwise eligible under the rules of the organization.

(10) A district may include only, for ANB purposes, an enrolled pupil who is otherwise eligible under this title and who is:

(a) a resident of the district or a nonresident student admitted by trustees under a student attendance agreement and who is attending a school or an offsite instructional setting of the district;

(b) unable to attend school due to a medical reason certified by a medical doctor and receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(c) unable to attend school due to the student's incarceration in a facility, other than a youth detention center, and who is receiving individualized educational services supervised by the district, at district expense, at a home or facility that does not offer an educational program;

(d) receiving special education and related services, other than day treatment, under a placement by the trustees at a private nonsectarian school or private program if the pupil's services are provided at the district's expense under an approved individual education plan supervised by the district;

(e) participating in the running start program at district expense under 20-9-706;

(f) receiving educational services, provided by the district, using appropriately licensed district staff at a private residential program or private residential facility licensed by the department of public health and human services;

(g) enrolled in an educational program or course provided at district expense using remote delivery methods, including but not limited to tutoring, distance learning programs, online programs, and technology delivered learning programs. The pupil:

(i) must meet the residency requirements for that district as provided in 1-1-215;

(ii) shall live in the district and must be eligible for educational services under the Individuals With Disabilities Education Act or under 29 U.S.C. 794; or

(iii) must be enrolled in the educational program or course under a mandatory attendance agreement as provided in 20-5-321; or

(iv) must be receiving remote instruction under 20-7-118(1)(c).

(h) a resident of the district attending the Montana youth challenge program or a Montana job corps program under an interlocal agreement with the district under 20-9-707.

(11) A district shall, for ANB purposes, calculate the enrollment of an eligible Montana youth challenge program participant as half-time enrollment.

(12) (a) A district may, for ANB purposes, include in the October and February enrollment counts an individual who is otherwise eligible under this title and who during the prior school year:

(i) resided in the district;

(ii) was not enrolled in the district or was not enrolled full time; and

(iii) completed an extracurricular activity with a duration of at least 6 weeks.

(b) (i) Except as provided in subsection (12)(b)(ii), each completed extracurricular activity under subsection (12)(a) may be counted as one-sixteenth enrollment for the individual, but under this subsection (12) the individual may not be counted as more than one full-time enrollment for ANB purposes.

(ii) Each completed extracurricular activity lasting longer than 18 weeks may be counted as one-eighth enrollment.

(c) For the purposes of this section, "extracurricular activity" means:

(i) a sport or activity sanctioned by an organization having jurisdiction over interscholastic activities, contests, and tournaments;

(ii) an approved career and technical student organization, pursuant to 20-7-306; or

(iii) a school theater production.

(13) (a) For an elementary or high school district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated using the current year ANB for all budget units or the 3-year average ANB for all budget units, whichever generates the greatest maximum general fund budget.

(b) For a K-12 district that has been in existence for 3 years or more, the district's maximum general fund budget and BASE budget for the ensuing school fiscal year must be calculated separately for the elementary and high school programs pursuant to subsection (13)(a) and then combined.

(14) The term "3-year ANB" means an average ANB over the most recent 3-year period, calculated by:

(a) adding the ANB for the budget unit for the ensuing school fiscal year to the ANB for each of the previous 2 school fiscal years; and

(b) dividing the sum calculated under subsection (14)(a) by three.

20-9-313. Circumstances under which regular ANB may be increased. The average number belonging of a budget unit of a school district, calculated in accordance with the ANB formula prescribed in 20-9-311, may be increased when:

(1) the opening of a new elementary school or the reopening of an elementary school has been approved in accordance with 20-6-502. An increase in the average number belonging for the appropriate budget unit resulting from the opening or reopening of the school must be established by the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction.

(2) the opening or reopening of a high school or a branch of the county high school has been approved in accordance with 20-6-503, 20-6-504, or 20-6-505. An increase in the average number

belonging for the appropriate budget unit must be established by the county superintendent's estimate, after an investigation of the probable number of pupils that will attend the high school.

(3) a district anticipates an increase in the average number belonging due to the closing of a private or public school in the district or a neighboring district. The estimated increase in average number belonging for the appropriate budget unit must be established by the trustees and the county superintendent and approved, disapproved, or adjusted by the superintendent of public instruction no later than the fourth Monday in June.

(4) a high school district provides early graduation for a student who completes graduation requirements in less than eight semesters or the equivalent amount of secondary school enrollment. The increase must be established by the trustees as though the student had attended to the end of the school fiscal year and must be approved, disapproved, or adjusted by the superintendent of public instruction.

20-9-321. Allowable cost payment for special education. (1) As used in this section, "ANB" means the current year ANB.

(2) The 3-year average ANB provided for in 20-9-311 does not apply to the calculation and distribution of state special education allowable cost payments provided for in this section.

(3) For the purpose of establishing the allowable cost payment for a current year special education program for a school district, the superintendent of public instruction shall determine the total special education payment to a school district or special education cooperative using the following factors:

(a) the district ANB student count as established pursuant to 20-9-311 and 20-9-313;

(b) a per-ANB amount for the special education instructional block grant;

(c) a per-ANB amount for the special education-related services block grant;

(d) an amount for cooperatives meeting the requirements of 20-7-457, to compensate for the additional costs of operations and maintenance, travel, supportive services, recruitment, and administration; and

(e) any other data required by the superintendent of public instruction to administer the provisions of this section.

(4) (a) The total special education allocation must be distributed according to the following formula:

(i) 52.5% through instructional block grants;

(ii) 17.5% through related services block grants;

(iii) 25% to reimbursement of local districts; and

(iv) 5% to special education cooperatives for administration and travel.

(b) Special education allowable cost payments outlined in subsection (4)(a) must be granted to each school district and cooperative with a special education program as follows:

(i) The instructional block grant limit prescribed in subsection (4)(a)(i) must be awarded to each school district, based on the district ANB and the per-ANB special education instructional amount.

(ii) The special education-related services block grant limit prescribed in subsection (4)(a)(ii) must be awarded to each school district that is not a cooperative member, based on the district ANB and the per-ANB special education-related services amount, or to a cooperative that meets the requirements of 20-7-457. The special education-related services block grant amount for districts that are members of approved cooperatives must be awarded to the cooperatives.

(iii) If a district's allowable costs of special education exceed the total of the special education instructional and special education-related services block grant plus the required district match required by subsection (6), the district is eligible to receive at least a 40% reimbursement of the additional costs. To ensure that the total of reimbursements to all districts does not exceed 25% of the total special education allocation limit established in subsection (4)(a)(iii), reimbursement must be made to districts for amounts that exceed a threshold level calculated annually by the office of public instruction. The threshold level is calculated as a percentage amount above the sum of the district's block grants plus the required district match.

(iv) Of the amount distributed under subsection (4)(a)(iv), three-fifths must be distributed based on the ANB count of the school districts that are members of the special education cooperative and two-fifths must be distributed based on distances, population density, and the number of itinerant personnel under rules adopted by the superintendent of public instruction.

(5) The superintendent of public instruction shall adopt rules necessary to implement this section.

(6) A district shall provide a 25% local contribution for special education, matching every $3 of state special education instructional and special education-related services block grants with at least one local dollar. A district that is a cooperative member is required to provide the 25% match of the special education-related services grant amount to the special education cooperative.

(7) The superintendent of public instruction shall determine the actual district match based on the trustees' reports. Any unmatched portion reverts to the state and must be subtracted from the district's ensuing year's special education allowable cost payment.

(8) A district that demonstrates severe economic hardship because of exceptional special education costs may apply to the superintendent of public instruction for an advance on the reimbursement for the year in which the actual costs will be incurred.

2025 Amendment — Coordination: See 2025 Session Law for amendment made by sec. 10, Ch. 482, L. 2025. Amendment effective May 8, 2025.

20-9-325. Data-for-achievement payment. (1) The state shall provide a data-for-achievement payment to public school districts as defined in 20-6-101 and 20-6-701. The data-for-achievement payment is calculated as provided in 20-9-306.

(2) Funds received for the data-for-achievement payment must be used by a school district to pay for access fees or other costs associated with use of or participation in the statewide data system administered by the office of public instruction or a comparable data system provided by a private vendor, including data entry and staff training on use of the systems.

(3) Unless funds are otherwise appropriated at higher amounts by the legislature, the office of public instruction may spend no more than $500,000 per biennium for the purposes of mediating with vendors, developing a plan, preparing a request for proposal solicitation package, managing the vendor contract, and implementing a plan with school districts for the statewide data system. 20-9-326. Annual inflation-related adjustments to basic entitlements and per-ANB entitlements — reporting. (1) In preparing and submitting an agency budget pursuant to 17-7-111 and 17-7-112, the superintendent of public instruction shall determine the inflation factor for the basic and per-ANB entitlements, the data-for-achievement payment, the per-ANB amount used to calculate the total special education allocation in 20-9-306, and the general fund payments in 20-9-327 through 20-9-330 in each fiscal year of the ensuing biennium. The inflation factor is calculated as follows:

(a) for the first year of the biennium, divide the consumer price index for July 1 of the prior calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the prior calendar year and raise the resulting ratio to the power of one-third; and

(b) for the second year of the biennium, divide the consumer price index for July 1 of the current calendar year by the consumer price index for July 1 of the calendar year 3 years prior to the current calendar year and raise the resulting ratio to the power of one-third.

(2) (a) The present law base for the entitlements referenced in subsection (1) of this section, calculated under Title 17, chapter 7, part 1, must consist of any enrollment increases or decreases plus the inflation factor calculated pursuant to this section, not to exceed 3% in each year, applied to both years of the biennium.

(b) This subsection (2) does not limit the superintendent or the governor from recommending, or limit the legislature from adopting, inflationary adjustments other than those calculated in this section.

(3) Beginning in fiscal year 2026 and then every even-numbered fiscal year thereafter, the superintendent of public instruction shall provide a report no later than September 1 to the education interim budget committee and the education interim committee and no later than December 31 to the legislative finance committee, in accordance with 5-11-210, regarding the educational relevance in the implementation of this section. (c) a cumulative numerical comparison of the difference between the percentages reported in subsections (3)(a) and (3)(b), rounded to the nearest one hundredth.

(4) For the purposes of this section, "consumer price index" means the consumer price index, U.S. city average, all urban consumers, for all items, using the 1982-84 base of 100, as published by the bureau of labor statistics of the U.S. department of labor.

20-9-335. Formula for apportionment of county equalization money. (1) The superintendent of public instruction shall calculate the apportionment of revenue available in the elementary and high school county equalization funds in accordance with the following procedure:

(a) determine the percentage that the county equalization money available for the support of the elementary direct state aid of the districts in the county is of the total elementary direct state aid of all districts in the county;

(b) multiply the elementary direct state aid amount of each district by the percentage determined in subsection (1)(a) to determine the portion of the county equalization money available to each school district.

(2) The procedure in subsection (1) must also be applied for the high school direct state aid.

(3) Territory situated within a county may not be excluded from the calculations of the county equalization money under this section solely because the territory lies within the boundaries of a joint district. Cash balances to the credit of any district at the end of a school fiscal year may not be considered in the apportionment procedure prescribed in this section.

(4) The county equalization money reported under these procedures is the first source of revenue for financing the elementary and high school direct state aid payments.

20-9-336. *(Temporary)* **School equalization and property tax reduction account — uses.** (1) There is a school equalization and property tax reduction account in the state special revenue fund. Contingent on appropriation by the legislature, money in the account is for distribution to school districts as the second source of funding for state equalization aid as provided in 20-9-343. At fiscal yearend, any fund balance in the account exceeding what was appropriated must be transferred to the guarantee account established in 20-9-622.

(2) The account receives revenue as described in 20-9-331, 20-9-333, and 20-9-360.

(3) (a) Beginning in fiscal year 2027, each December the superintendent of public instruction shall forecast the amount of revenue the account will receive in that fiscal year by dividing the sum of the taxable value of all property in the state reported by the department of revenue pursuant to 20-9-369 by 1,000 to determine a statewide value mill and then multiplying that amount by the total number of mills specified in 20-9-331, 20-9-333, and 20-9-360.

(b) If the forecasted amount in subsection (3)(a) differs from the amount determined through the same calculation in the prior fiscal year and is less by an amount greater than $2 million, then the superintendent shall:

(i) decrease the multiplier used to calculate the statewide elementary and high school guaranteed tax base ratios used for funding BASE budgets under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of guaranteed tax base aid distributed to eligible school districts equal to 85% of the decrease in the calculated amount between the 2 years; and

(ii) decrease the multiplier used to calculate the statewide elementary and high school mill value per ANB for school retirement guaranteed tax base purposes under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of retirement guaranteed tax base aid distributed to eligible counties equal to 15% of the decrease in the calculated amount between the 2 years.

(c) If the forecasted amount in subsection (3)(a) is greater than the amount determined through the same calculation in the prior fiscal year, the superintendent, using an amount equal to 50% of the forecasted revenue growth up to revenue growth of 105% of the prior fiscal year revenue plus all forecasted revenue growth above 105% of the prior fiscal year revenue, shall:

(i) first increase the multiplier used to calculate statewide mill value per elementary and high school ANB for retirement purposes under 20-9-366, not to exceed 305%, to the nearest whole number determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible counties as close as mathematically possible to the excess amount determined in subsection (3)(c); and

(ii) if there is an excess amount remaining after the 305% cap is hit under subsection (3)(c)(i), then:

(A) the superintendent shall increase the percentages of the basic and per-ANB entitlements in 20-9-306[(2)(b) and] (3)(a) by whole numbers not to exceed 45.3% and 90% respectively, then the multiplier used to calculate the statewide elementary and high school guaranteed tax base ratios used for funding BASE budgets under 20-9-366 by whole numbers in a manner determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible districts as close as mathematically possible to the excess amount remaining without an increase in the amount of BASE property taxes on a statewide basis; and

(B) in making the calculations under subsection (3)(c)(ii)(A) and in calculating the guaranteed tax base aid ratios under 20-9-366 for the ensuing school fiscal year, the superintendent shall utilize a GTBA budget area for the prior year based on the adjusted percentages of the basic and per-ANB entitlements.

(4) (a) The adjustments to the multipliers and percentages under subsection (3) are applicable to state equalization aid distributions in the fiscal year following the adjustment.

(b) Adjustments to the multipliers and percentages made under subsection (3) remain in effect in subsequent years unless further changed under 20-9-366 or subsection (3) of this section or as otherwise provided by law.

20-9-336. *(Effective July 1, 2026)* **School equalization and property tax reduction account — uses.** (1) There is a school equalization and property tax reduction account in the state special revenue fund. Contingent on appropriation by the legislature, money in the account is for distribution to school districts as the second source of funding for state equalization aid as provided in 20-9-343. At fiscal yearend, any fund balance in the account exceeding what was appropriated must be transferred to the guarantee account established in 20-9-622.

(2) The account receives revenue as described in 20-9-331, 20-9-333, and 20-9-360.

(3) (a) Beginning in fiscal year 2027, each December the superintendent of public instruction shall forecast the amount of revenue the account will receive in that fiscal year by dividing the sum of the taxable value of all property in the state reported by the department of revenue pursuant to 20-9-369 by 1,000 to determine a statewide value mill and then multiplying that amount by the total number of mills specified in 20-9-331, 20-9-333, and 20-9-360.

(b) If the forecasted amount in subsection (3)(a) differs from the amount determined through the same calculation in the prior fiscal year and is less by an amount greater than $2 million, then the superintendent shall:

(i) decrease the multiplier used to calculate the statewide guaranteed tax base ratio for the countywide levy for BASE funding support under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of guaranteed tax base aid distributed to eligible counties equal to 85% of the decrease in the calculated amount between the 2 years; and

(ii) decrease the multiplier used to calculate the statewide elementary and high school mill value per ANB for school retirement guaranteed tax base purposes under 20-9-366 to the nearest whole number determined by the superintendent to result in a decrease in the amount of retirement guaranteed tax base aid distributed to eligible counties equal to 15% of the decrease in the calculated amount between the 2 years.

(c) If the forecasted amount in subsection (3)(a) is greater than the amount determined through the same calculation in the prior fiscal year, the superintendent, using an amount equal to 50% of the forecasted revenue growth up to revenue growth of 105% of the prior fiscal year revenue plus all forecasted revenue growth above 105% of the prior fiscal year revenue, shall:

(i) first increase the multiplier used to calculate statewide mill value per elementary and high school ANB for retirement purposes under 20-9-366, not to exceed 305%, to the nearest whole number determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible counties as close as mathematically possible to the excess amount determined in subsection (3)(c); and

(ii) if there is an excess amount remaining after the 305% cap is hit under subsection (3)(c)(i), then:

(A) the superintendent shall increase the percentages of the basic and per-ANB entitlements in 20-9-306 (3)(a) by whole numbers not to exceed 45.3% and 90% respectively, then the multiplier used to calculate the statewide elementary and high school guaranteed tax base ratios used for guaranteed tax base funding for the countywide levy for BASE funding support under 20-9-366 by whole numbers in a manner determined by the superintendent to result in an increase in the amount of guaranteed tax base aid distributed to eligible counties as close as mathematically possible to the excess amount remaining without an increase in the amount of countywide BASE funding levies on a statewide basis; and

(B) in making the calculations under subsection (3)(c)(ii)(A) and in calculating the guaranteed tax base aid ratios under 20-9-366 for the ensuing school fiscal year, the superintendent shall utilize a GTBA budget area for the prior year based on the adjusted percentages of the basic and per-ANB entitlements.

(4) (a) The adjustments to the multipliers and percentages under subsection (3) are applicable to state equalization aid distributions in the fiscal year following the adjustment.

(b) Adjustments to the multipliers and percentages made under subsection (3) remain in effect in subsequent years unless further changed under 20-9-366 or subsection (3) of this section or as otherwise provided by law.

20-9-346. Duties of superintendent of public instruction for state and county equalization aid distribution. The superintendent of public instruction shall administer the distribution of the state and county equalization aid by:

(1) establishing the annual entitlement of each district and county to state and county equalization aid, based on the data reported in the retirement, general fund, and debt service fund budgets for each district that have been adopted for the current school fiscal year and verified by the superintendent of public instruction;

(2) for the purposes of state advances and reimbursements for school facilities, limiting the distribution to no more than the amount appropriated for the school fiscal year to the districts that are eligible under the provisions of 20-9-366 through 20-9-371 by:

(a) determining the debt service payment obligation in each district for debt service on bonds that were sold as provided in 20-9-370(3) that qualify for a state advance or reimbursement for school facilities under the provisions of 20-9-366 through 20-9-369 and 20-9-370;

20-9-347. Distribution of BASE aid and special education allowable cost payments in support of BASE funding program — exceptions. (1) The superintendent of public instruction shall:

(a) supply the county treasurer and the county superintendent with a monthly report of the payment of BASE aid in support of the BASE funding program of each district of the county;

(b) in the manner described in 20-9-344, provide for a state advance to each county in an amount that is no less than the amount anticipated to be raised for the elementary and high school county equalization funds as provided in 20-9-331 and 20-9-333; and

(c) adopt rules to implement the provisions of subsection (1)(b).

(2) (a) The superintendent of public instruction is authorized to adjust the schedule prescribed in 20-9-344 for distribution of the BASE aid payments if the distribution will cause a district to register warrants under the provisions of 20-9-212(8).

(b) To qualify for an adjustment in the payment schedule, a district shall demonstrate to the superintendent of public instruction, in the manner required by the office, that the payment schedule prescribed in 20-9-344 will result in insufficient money available in all funds of the district to make payment of the district's warrants. The county treasurer shall confirm the anticipated deficit. In order to allow for the estimation of the amount of money to be realized from this source of revenue when the county superintendent is estimating the general fund budget revenues, the county superintendent shall consider that the state BASE funding program revenues and county equalization moneys, together, will be capable of financing 100% of the BASE funding program.

(1) The trustees of a district may propose to adopt an over-BASE budget amount for the district general fund that does not exceed the general fund budget limitations, as provided in 20-9-308. If the trustees of a district are required to submit to the electors of the district a proposition to finance an increase in the over-BASE budget amount pursuant to 20-9-308, the trustees shall comply with the provisions of subsections (2) through (4) of this section.

(2) When the trustees of the district propose to adopt an over-BASE budget under subsection (1), any increase in local property taxes authorized by 20-9-308(4) over revenue previously authorized by the electors of the district or imposed by the district in any of the previous 5 years must be submitted to a vote of the qualified electors of the district, as provided in 15-10-425. The trustees are not required to submit to the qualified electors any increase in state funding of the basic or per-ANB entitlements or of the general fund payments established in 20-9-327 through 20-9-330 approved by the legislature. When the trustees of a district determine that a voted amount of financing is required for the general fund budget, the trustees shall submit the proposition to finance the voted amount to the electors who are qualified under 20-20-301 to vote upon the proposition. The election must be called and conducted in the manner prescribed by this title for school elections and must conform to the requirements of 15-10-425. The ballot for the election must conform to the requirements of 15-10-425.

(3) If the proposition for an increase in the over-BASE budget levy for the general fund is approved by a majority vote of the electors voting at the election, the proposition carries and the trustees may use any portion or all of the authorized amount in adopting the final general fund budget. The trustees shall certify any over-BASE budget levy amount authorized by the election on the budget form that is submitted to the county superintendent, and the county commissioners shall levy the authorized number of mills on the taxable value of all taxable property within the district, as prescribed in 20-9-141.

Applicability: Section 31, Ch. 424, L. 2025, provided: "[This act] applies to fiscal years beginning on or after July 1, 2026."

20-9-370. Definitions. As used in this title, unless the context clearly indicates otherwise, the following definitions apply:

(1) "School facility entitlement" means:

(a) $300 per ANB for an elementary school district;

(b) $450 per ANB for a high school district; or

(c) $370 per ANB for an approved and accredited junior high school or middle school.

(2) "State advance for school facilities" is the amount of state equalization aid distributed to an eligible district to pay the debt service obligation for a bond in the first school fiscal year in which a debt service payment is due for the bond.

(3) "State reimbursement for school facilities" means the amount of state equalization aid distributed to a district that:

(a) has a district mill value per ANB that is less than the corresponding facility guaranteed mill value per ANB; and

(b) has a debt service obligation in the ensuing school year on bonds.

(4) "Total school facility entitlement" means the school facility entitlement times the total ANB for the district.

History: En. Sec. 38, Ch. 633, L. 1993; amd. Sec. 38, Ch. 18, L. 1995; amd. Sec. 4, Ch. 586, L. 1995; amd. Sec. 5, Ch. 550, L. 2003.

20-9-371. Calculation and uses of school facility entitlement amount. (1) The state reimbursement for school facilities for a district is the percentage determined in 20-9-346(2)(b) times (1-(district mill value per ANB/facility guaranteed mill value per ANB)) times the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligations on general obligation bonds that qualify under the provisions of 20-9-370(3).

(2) The state advance for school facilities for a district is determined as follows:

(a) Calculate the percentage of the district's debt service payment that will be advanced by the state using the district ANB, the district mill value and the statewide mill value for the current year, and the percentage used to determine the proportionate share of state reimbursement for school facilities in the prior year.

(b) Multiply the percentage determined in subsection (2)(a) by the lesser of the total school facility entitlement calculated under the provisions of 20-9-370 or the district's current year debt service obligation for general obligation bonds to which the state advance applies.

(3) Within the available appropriation, the superintendent of public instruction shall first distribute to eligible districts the state advance for school facilities. From the remaining appropriation, the superintendent shall distribute to eligible districts the state reimbursement for school facilities.

(4) The trustees of a district may apply the state reimbursement for school facilities to reduce the levy requirement in the ensuing school fiscal year for all outstanding bonded indebtedness on general obligation bonds sold in the debt service fund of the district. The trustees may apply the state advance for school facilities to reduce the levy requirement in the current school fiscal year for debt service payments on general obligation bonds to which the state advance for school facilities applies.

20-9-381. Future ready payment — purpose — calculation — definitions. (1) Beginning in fiscal year 2028, the state shall provide a future ready payment to school districts. The payment is composed of incentive amounts as described in 20-9-306 and this section. The purpose of the payment is to:

(b) reduce out-of-pocket costs for pupils and families in support of a pupil's postsecondary success;

(c) empower pupils to actively engage in forming their postsecondary success path; and

(d) provide expanded flexibility to districts to support the alignment of each pupil's postsecondary success path with each pupil's individual interests, passions, strengths, needs, and culture.

(2) The incentive amount of the future ready payment is based on three goal levels:

(a) goal level 1, high school graduates who while in high school earned 15 or more postsecondary or CTE-equivalent credits;

(b) goal level 2, high school graduates who while in high school earned 30 or more postsecondary or CTE-equivalent credits; and

(b) (i) "Postsecondary credit" means the successful completion of a course of study by a student enrolled in a high school district or K-12 school district that results in the student's eligibility for transcripted credit within the Montana university system.

(ii) No later than December 1, the commissioner of higher education shall provide to the office of public instruction an annually updated list of the criteria of courses of study, including any completion or examination requirements, that a high school student may take that result in eligibility for transcripted credit at any unit of the Montana university system based on the adopted policies of the board of regents of higher education. If the number of credits differs based on examination results, the list must include these differentiated credit values. The list submitted applies to the achievements of high school graduates from the prior school year.

(1) (a) Except as provided in subsection (1)(c), the maximum amount for which an elementary district or a high school district may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is 100% of the taxable value of the property subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(b) Except as provided in subsection (1)(c), the maximum amount for which a K-12 school district, as formed pursuant to 20-6-701, may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, regardless of whether the general obligation bonds finance elementary program improvements or high school program improvements, is the sum of 100% of the taxable value of the property in its elementary program subject to taxation and 100% of the taxable value of the property in its high school program subject to taxation, as ascertained by the last assessment for state, county, and school taxes previous to the incurring of the indebtedness.

(c) (i) Unless the maximum amount calculated under subsection (1)(a) yields a greater amount, the maximum amount for which an elementary district or a high school district with a district mill value per elementary ANB or per high school ANB that is less than the facility guaranteed mill value per elementary ANB or high school ANB under 20-9-366 may become indebted by the issuance of general obligation bonds, including all indebtedness represented by outstanding general obligation bonds of previous issues, registered warrants, outstanding obligations under 20-9-471, oil and natural gas revenue bonds to which a deficiency tax levy is pledged, and any other loans or notes payable that are held as general obligations of the district, is the corresponding facility guaranteed mill value per ANB times 1,000 times the ANB of the district. For a K-12 district, unless the maximum amount calculated under subsection (1)(b) yields a greater amount, the maximum amount for which the district may become indebted is the sum of the facility guaranteed mill value per elementary ANB times 1,000 times the elementary ANB of the district and the facility guaranteed mill value per high school ANB times 1,000 times the high school ANB of the district. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(ii) If mutually agreed upon by the affected districts, for the purpose of calculating its maximum bonded indebtedness under this subsection (1)(c), a district may include the ANB of the district plus the number of students residing within the district for which the district or county pays tuition for attendance at a school in an adjacent district. The receiving district may not use out-of-district ANB for the purpose of calculating its maximum indebtedness if the out-of-district ANB has been included in the ANB of the sending district pursuant to the mutual agreement. For the purpose of calculating ANB under this subsection, a district may use the greater of the current year ANB or the 3-year ANB calculated under 20-9-311.

(2) The maximum amounts determined in subsection (1) do not pertain to indebtedness imposed by special improvement district obligations or assessments against the school district or to general obligation bonds issued for the repayment of tax protests lost by the district. All general obligation bonds issued in excess of the amount are void, except as provided in this section.

(3) The maximum amount of impact aid revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual federal impact aid basic support payments for the 5 years immediately preceding the issuance of the bonds. However, at the time of issuance of the bonds, the average annual payment of principal of and interest on the impact aid bonds each year may not exceed 35% of the total federal impact aid basic support payments of the school district for the current year.

(4) The maximum amount of oil and natural gas revenue bonds that an elementary district, high school district, or K-12 school district may issue may not exceed a total aggregate amount equal to three times the average of the school district's annual oil and natural gas production taxes received pursuant to 15-36-331, 15-36-332, and 20-9-310 for the 2 fiscal years immediately preceding the issuance of the bonds. At the time of the issuance of the bonds, the average annual payment of principal of and interest on the oil and natural gas revenue bonds each year may not exceed 35% of the total oil and natural gas production taxes received by the school district under the limitations in 20-9-310 for the immediately preceding fiscal year. If the oil and natural gas revenue bonds are also secured by a deficiency tax levy as provided in 20-9-437, the debt limitation provided in subsection (1) of this section applies to the bonds.

(5) When the total indebtedness of a school district has reached the limitations prescribed in this section, the school district may pay all reasonable and necessary expenses of the school district on a cash basis in accordance with the financial administration provisions of this chapter.

(6) Whenever bonds are issued for the purpose of refunding bonds, any money to the credit of the debt service fund for the payment of the bonds to be refunded is applied toward the payment of the bonds and the refunding bond issue is decreased accordingly.

(7) As used in this part, "federal impact aid basic support payment" means the annual impact aid revenue received by a district under 20 U.S.C. 7703(b) but excludes revenue received for impact aid special education under 20 U.S.C. 7703(d) and impact aid construction under 20 U.S.C. 7707.

20-9-407. Industrial facility agreement for bond issue in excess of maximum. (1) Pursuant to an agreement between a new major industrial facility and a school district and as a precondition to qualifying as class five property under 15-6-135(1)(c) before the amendment of 15-6-135 in Chapter 644, Laws of 2023, the new major industrial facility and its owners shall pay, in addition to the taxes imposed by the school district on property owners generally, as much of the principal and interest on the bonds provided for under former subsection (1) of this section before the amendment in Chapter 644, Laws of 2023 as represents payment on an indebtedness in excess of the limitation prescribed in 20-9-406. After the completion of the new major industrial facility and when the indebtedness of the school district no longer exceeds the limitation prescribed in former subsection (1) of this section before the amendment in Chapter 644, Laws of 2023, the new major industrial facility is entitled, after all the current indebtedness of the school district has been paid, to a tax credit over a period of no more than 20 years. The credit must as a total amount be equal to the amount that the facility paid the principal and interest of the school district's bonds in excess of its general liability as a taxpayer within the district.

(2) A major industrial facility is a facility subject to the taxing power of the school district, whose construction or operation will increase the population of the district, imposing a significant burden upon the resources of the district and requiring construction of new school facilities. A significant burden is an increase in ANB of at least 20% in a single year.

20-9-408. Definition of forms of bonds. As used in this part, the following definitions apply:

(1) "Amortization bond" means that form of bond on which a part of the principal is required to be paid each time that interest becomes due and payable. The part payment of principal increases with each following installment in the same amount that the interest payment decreases, so that the combined amount payable on principal and interest is the same on each payment date. However, the payment on the initial interest payment date may be less or greater than the amount of other payments on the bond, reflecting the payment of interest only or the payment of interest for a period different from that between other interest payment dates. The final payment may vary from prior payments in amount as a result of rounding prior payments.

(2) "General obligation bonds" means bonds that pledge the full faith and credit and the taxing power of a school district.

(3) "Impact aid revenue bonds" means bonds that pledge and are payable solely from federal impact aid basic support payments received and deposited to the credit of the fund established in 20-9-514.

(4) "Oil and natural gas revenue bonds" means bonds that pledge and are payable from a first lien on oil and natural gas production taxes received by a school district pursuant to 20-9-310. Oil and natural gas revenue bonds to which a tax deficiency is pledged are not considered general obligation bonds that are eligible to receive guaranteed tax base aid pursuant to 20-9-367 but are to be considered in determining the debt limit of a school district for the purposes of 20-9-406.

(5) "Serial bonds" means a bond issue payable in annual installments of principal commencing not more than 2 years from the date of issue, any one installment consisting of one or more bonds, with the principal amount of bonds maturing or subject to mandatory sinking fund redemption in each installment, commencing with the installment payable in the fourth year after the date of issue, not exceeding three times the principal amount of the bonds payable in the immediately preceding installment.

20-9-410. Limitation of term and interest — timing for redemption. (1) School district bonds may not be issued for a term longer than 30 years, except that bonds issued to refund or redeem outstanding bonds may not be issued for a term longer than 10 years unless the unexpired term of the bonds to be refunded or redeemed is in excess of 10 years, in which case the refunding or redeeming bonds may be issued for the unexpired term. Other than refunding or redeeming bonds, all bonds issued for a longer term than 5 years must be redeemable at the option of the school district on any interest payment date after one-half of the term for which they were issued has expired, and the redemption option must be stated on the face of the bonds. The interest must be as provided under 17-5-102 and must be payable semiannually.

(2) For purposes of this section, the term of a bond issue commences on July 1 of the fiscal year in which the school district first levies taxes to pay the principal and interest on the bonds.

20-9-411. Dates of issue and payments. In order that the dates of payment of installments on school district bond issues may coincide as nearly as possible with the largest monthly tax collections, all school district bonds shall preferably bear a date of some day in June or December. For this reason, the bonds may be dated back not more than 5 months from the time of the actual sale, but no interest shall be charged on these bonds before they have been delivered to the purchaser and payment has been made by the purchaser. Interest accrued on such bonds according to their terms at the time of delivery shall either be refunded by the purchaser or deducted from the first interest payments. The failure to date such bonds in June or December shall not affect their validity.

History: En. 75-7108 by Sec. 309, Ch. 5, L. 1971; R.C.M. 1947, 75-7108.

20-9-412. Issuance of refunding bonds without election. (1) Bonds of a school district issued for the purpose of providing the money needed to redeem outstanding bonds may be issued without submitting the proposition to the electorate at an election. In order to issue refunding bonds, the trustees, at a regular meeting or a special meeting, shall adopt a resolution setting forth:

(a) the facts regarding the outstanding bonds that are to be redeemed;
(b) the reasons for issuing new bonds; and
(c) the term and details of the new bond issue.

(2) After the adoption of the resolution, the trustees shall:

(a) sell the bonds at a private negotiated sale; or
(b) at their option, give notice of the sale of the new bonds in the same manner that notice is required to be given for the sale of bonds authorized at a school election and sell the new bonds in open competitive bidding, by written bids or by sealed bids.

(3) Except for bonds refunded by a school district under the provisions of Title 17, chapter 5, part 16, including any variable rate finance program that is authorized, bonds may not be refunded by the issuance of new bonds unless the rate of interest offered on the new bonds is at least 1/2 of 1% a year less than the rate of interest in the bonds to be refunded or redeemed.

(4) If a refunding bond issue refunds only a portion of an outstanding bond issue, the unrefunded portion of the outstanding bond issue and the refunding bond issue must be treated as a single bond issue for the purposes of 20-9-408.

(5) Refunding bonds may be issued in a principal amount greater than the principal amount of the outstanding bonds if there is a reduction of total debt service cost to the district.

(6) (a) Refunding bonds issued pursuant to this section may be issued to refund outstanding bonds in advance of the date on which the bonds mature or are subject to redemption, provided that the proceeds of the refunding bonds, less any accrued interest or premium received upon the sale of the bonds, are deposited with other funds appropriated to the payment of the outstanding bonds in escrow with a suitable banking institution in or outside of the state.

(b) Except as provided in subsection (6)(c), funds deposited must be invested in securities that are general obligations of the United States or the principal and interest of which are guaranteed by the United States and that mature or are callable at the option of the holder on the dates and bear interest at the rates and are payable on the dates that are required to provide funds sufficient, with any cash retained in the escrow account, to pay when due the interest to accrue on each bond being refunded to its maturity or redemption date, if called for redemption, to pay the principal of the bond at maturity or upon the redemption date, and to pay any redemption premium.

(c) If the funds initially deposited in escrow are sufficient, without regard to any investment income on those funds, to redeem in full the bonds being refunded as of their redemption date and to pay the principal of and interest and premium on the bonds being refunded at their stated maturities, the funds may be invested in the securities described in subsection (6)(b) or in a money market fund that is composed exclusively of eligible securities described in 7-6-202 and that otherwise satisfies the requirements of 7-6-202(4).

(d) The escrow account must be irrevocably appropriated to the payment of the principal of and interest and redemption premium on the bonds being refunded. Funds in the debt service fund for the payment of the bonds being refunded and not required for the payment of principal of or interest on the bonds being refunded due prior to issuance of the refunding bonds may be appropriated by the district to the escrow account. The school district may pay the reasonable costs and expenses of printing the refunding bonds and of establishing and maintaining the escrow account. Bonds that are refunded pursuant to this part are not to be considered outstanding for purposes of 20-9-406 or any other debt limitation.

(1) The county superintendent shall compute the levy requirement for each school district's general obligation debt service fund on the basis of the following procedure:

(a) Determine the total money available in the debt service fund for the reduction of the property tax on the district by totaling:

(i) the end-of-the-year fund balance in the debt service fund, less any limited operating reserve as provided in 20-9-438;

(ii) anticipated interest to be earned by the investment of debt service cash in accordance with the provisions of 20-9-213(4) or by the investment of bond proceeds under the provisions of 20-9-435;

(iii) any state advance for school facilities distributed to a qualified district under the provisions of 20-9-346, 20-9-370, and 20-9-371;

(iv) funds transferred from the impact aid fund established pursuant to 20-9-514 that are authorized by 20-9-437(2) to be used to repay the district's bonds; and

(v) any other money, including money from federal sources, anticipated by the trustees to be available in the debt service fund during the ensuing school fiscal year from sources such as legally authorized money transfers into the debt service fund or from rental income, excluding any guaranteed tax base aid.

(b) Subtract the total amount available to reduce the property tax, determined in subsection (1)(a), from the final budget for the debt service fund as established in 20-9-438.

(2) The net debt service fund levy requirement determined in subsection (1)(b) must be reported to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values by the county superintendent as the net debt service fund levy requirement for the district, and a levy must be made by the county commissioners in accordance with 20-9-142.

(3) If the board of county commissioners fails in any school fiscal year to make a levy for any issue or series of bonds of a school district sufficient to raise the money necessary for payment of interest and principal becoming due during the next ensuing school fiscal year, in any amounts established under the provisions of this section, the holder of any bond of the issue or series or any taxpayer of the district may apply to the district court of the county in which the school district is located for a writ of mandate to compel the board of county commissioners of the county to make a sufficient levy for payment purposes. If, upon the hearing of the application, it appears to the satisfaction of the court that the board of county commissioners of the county has failed to make a levy or has made a levy that is insufficient to raise the amount required to be raised as established in the manner provided in this section, the court shall determine the amount of the deficiency and shall issue a writ of mandate directed to and requiring the board of county commissioners, at the next meeting for the purpose of fixing tax levies for county purposes, to fix and make a levy against all taxable property in the school district that is sufficient to raise the amount of the deficiency. The levy is in addition to any levy required to be made at that time for the ensuing school fiscal year. Any costs that may be allowed or awarded the petitioner in the proceeding must be paid by the members of the board of county commissioners and may not be a charge against the school district or the county.

The county treasurer shall maintain a separate debt service fund for each school district and, if bonds are to be issued as either impact aid revenue bonds or oil and natural gas revenue bonds, shall maintain a separate impact aid revenue bond debt service fund or oil and natural gas revenue bond debt service fund, as applicable, and an impact aid revenue bond debt service reserve account or oil and natural gas revenue bond debt service reserve account, if required. 20-9-441. Redemption of bonds — investment of debt service fund money. (1) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more bonds of the school district held by the state of Montana, the county treasurer shall apply the money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice not less than 30 days before the next interest due date to the board of investments that the bonds will be paid on the interest due date. Before the interest due date, the county treasurer shall remit to the state treasurer the amount of money that is necessary to pay the bonds that are being redeemed and the interest due on the bonds. When the state treasurer receives the payment, the treasurer shall cancel the bonds and any unpaid coupons of the bonds and return the canceled bonds and coupons to the county treasurer.

(2) Whenever there is a sufficient amount of money in any school district debt service fund available to pay and redeem one or more optional bonds of the school district not held by the state of Montana, not yet due but then redeemable or becoming redeemable on the next interest due date, the county treasurer shall apply the available money in payment of as many of the bonds as can be paid and redeemed. The county treasurer shall give notice to the holder of the bonds, if known, or to any bank or financial institution at which the bonds are payable, at least 30 days before the next interest due date, that the bonds will be paid and redeemed on that date. If the bonds are payable at some bank or financial institution, the county treasurer shall remit to the bank or financial institution, before the interest due date, an amount sufficient to pay and redeem the bonds. If the bonds are not presented for payment and redemption on the interest due date, the accrual of interest ceases on the interest due date.

(3) Whenever there is money available in any school district debt service fund sufficient to pay and redeem one or more outstanding bonds not yet due or redeemable and not held by the state of Montana, the trustees of the school district may direct the county treasurer to purchase the bonds of the district if this can be done at not more than par and accrued interest or at a reasonable premium that the trustees may feel justified in paying, but not exceeding 6%.

(4) Whenever the trustees cannot purchase outstanding bonds of the school district at a reasonable price, the available debt service fund money must be invested by the trustees under the provisions of 20-9-213(4). The investments must be sold in ample time before the debt service fund money is required for the payment of the bonds of the school district.

(c) the electors of the district approve a proposition authorizing the trustees to apply for funds through the board of investments or a bank, building and loan association, savings and loan association, or credit union that is a regulated lender, as defined in 31-1-111, for the construction project. (7) The net retirement fund levy requirement for a joint elementary district or a joint high school district must be prorated to each county in which a part of the district is located in the same proportion as the district ANB of the joint district is distributed by pupil residence in each county. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county as provided in 20-9-151.

(8) The net retirement fund levy requirement for districts that are members of special education cooperative agreements must be prorated to each county in which the district is located in the same proportion as the special education cooperative budget is prorated to the member school districts. The county superintendents of the counties affected shall jointly determine the net retirement fund levy requirement for each county in the same manner as provided in 20-9-151, and the county commissioners shall fix and levy the net retirement fund levy for each county in the same manner as provided in 20-9-152.

(9) The county superintendent shall calculate the number of mills to be levied on the taxable property in the county to finance the retirement fund net levy requirement by dividing the amount determined in subsection (5)(a) by the sum of:

(a) the amount of guaranteed tax base aid that the county will receive for each mill levied, as certified by the superintendent of public instruction; and

(b) the taxable valuation of the district divided by 1,000.

(10) The levy for a community college district may be applied only to property within the district.

(11) The county superintendent of each county shall submit a report of the revenue amounts used to establish the levy requirements for county school funds supporting elementary and high school district retirement obligations to the superintendent of public instruction on or before September 15. 20-9-502. Purpose and authorization of building reserve fund — subfund structure. (1) The trustees of any district may establish a building reserve fund to budget for and expend funds for any of the purposes set forth in this section. Appropriate subfunds must be created to ensure separate tracking of the expenditure of funds from voted and nonvoted levies and transfers for school safety pursuant to 20-9-236.

(2) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district for the purpose of raising money for the future construction, equipping, or enlarging of school buildings or for the purpose of purchasing land needed for

school purposes in the district. In order to submit to the qualified electors of the district a building reserve proposition for the establishment of or addition to a building reserve, the trustees shall pass a resolution that specifies:

(i) the purpose or purposes for which the new or addition to the building reserve will be used;

(ii) the duration of time over which the new or addition to the building reserve will be raised in annual, equal installments;

(iii) the total amount of money that will be raised during the duration of time specified for the levy; and

(iv) any other requirements under 15-10-425 and 20-20-201 for the calling of an election.

(b) Except as provided in subsection (4)(b), a building reserve tax authorization may not be for more than 20 years.

(c) The election must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

(d) The building reserve proposition is approved if a majority of those electors voting at the election approve the establishment of or addition to the building reserve. The annual budgeting and taxation authority of the trustees for a building reserve is computed by dividing the total authorized amount by the specified number of years. The authority of the trustees to budget and impose the taxation for the annual amount to be raised for the building reserve lapses when, at a later time, a bond issue is approved by the qualified electors of the district for the same purpose or purposes for which the building reserve fund of the district was established. Whenever a subsequent bond issue is made for the same purpose or purposes of a building reserve, the money in the building reserve must be used for the purpose or purposes before any money realized by the bond issue is used.

(3) (a) A subfund must be created to account for revenue and expenditures for school major maintenance and repairs authorized under this subsection (3). The trustees of a district may authorize and impose a levy of no more than 10 mills on the taxable value of all taxable property within the district for that school fiscal year for the purposes of raising revenue for identified improvements or projects meeting the requirements of 20-9-525. The 10-mill limit under this subsection (3) must be calculated using the district's total taxable valuation most recently certified by the department of revenue under 15-10-202. The amount of money raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525 may not exceed the district's school major maintenance amount as defined in 20-9-525. To authorize and impose a levy under this subsection (3), the trustees shall:

(i) following public notice requirements pursuant to 20-9-116, adopt no later than March 31 of each fiscal year a resolution:

(A) identifying the anticipated improvements or projects for which the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525 will be used; and

(B) estimating a total dollar amount of money to be raised by the levy, the deposits and transfers authorized under subsection (3)(f) of this section, anticipated state aid pursuant to 20-9-525, and the resulting estimated number of mills to be levied using the district's taxable valuation most recently certified by the department of revenue under 15-10-202; and

(ii) include the amount of any final levy to be imposed as part of its final budget meeting noticed in compliance with 20-9-131.

(b) Proceeds from the levy may be expended only for the purposes under 20-9-525, and the expenditure of the money must be reported in the annual trustees' report as required by 20-9-213.

(c) Whenever the trustees of a district impose a levy pursuant to this subsection (3) during the current school fiscal year, they shall budget for the proceeds of the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525 in the district's building reserve fund budget. Any expenditures of the funds must be made in accordance with the financial administration provisions of this title for a budgeted fund.

(d) When a tax levy pursuant to this subsection (3) is included as a revenue item on the final building reserve fund budget, the county superintendent shall report the levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(e) A subfund in the building reserve fund must be created for the deposit of proceeds from the levy, the deposits and transfers authorized under subsection (3)(f) of this section, and anticipated state aid pursuant to 20-9-525.

(f) If the imposition of 10 mills pursuant to subsection (3)(a) is estimated by the trustees to generate an amount less than the maximum levy revenue specified in subsection (3)(a), the trustees may deposit additional funds from any lawfully available revenue source and may transfer additional funds from any lawfully available fund of the district to the subfund provided for in subsection (3)(a), up to the difference between the revenue estimated to be raised by the imposition of 10 mills and the maximum levy revenue specified in subsection (3)(a). The district's local effort for purposes of calculating its eligibility for state school major maintenance aid pursuant to 20-9-525 consists of the combined total of funds raised from the imposition of 10 mills and additional funds raised from deposits and transfers in compliance with this subsection (3)(f).

(4) (a) A voted levy may be imposed and a subfund must be created with the approval of the qualified electors of the district to provide funding for transition costs incurred when the trustees:

(i) open a new school under the provisions of Title 20, chapter 6;

(ii) close a school;

(iii) replace a school building;

(iv) reorganize with or annex another district under the provisions of Title 20, chapter 6; or

(v) receive approval from voters to expand an elementary district into a K-12 district pursuant to 20-6-326.

(b) Except as provided in subsection (4)(c), the total amount the trustees may submit to the electorate for transition costs may not exceed the number of years specified in the proposition times the greater of 5% of the district's maximum general fund budget for the current year or $250 per ANB for the current year. The duration of the levy for transition costs may not exceed 6 years.

(c) If the levy for transition costs is for reorganization under 20-6-423 or annexation under 20-6-422:

(i) the limitation on the amount levied is calculated using the ANB and the maximum general fund budget for the districts that are being combined; and

(ii) the proposition must be submitted to the qualified electors in the combined district.

(d) The levy for transition costs may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406.

(5) (a) A subfund in the building reserve fund must be created for:

(i) the funds transferred to the building reserve fund for school safety and security pursuant to 20-9-236; and

(ii) funds generated by a voter-approved levy for school and student safety and security pursuant to subsection (5)(b) of this section.

(b) A voted levy may be imposed with the approval of the qualified electors of the district to provide funding for improvements to school and student safety and security that meet any of the criteria set forth in 20-9-236(1). A voted levy for school and student safety and security may not be considered as outstanding indebtedness for the purpose of calculating the limitation in 20-9-406. The election for a voted levy for school and student safety and security must be conducted in accordance with the school election laws of this title, and the electors qualified to vote in the election must be qualified under the provisions of 20-20-301. The ballot for a building reserve proposition must be substantially in compliance with 15-10-425.

20-9-503. Budgeting, tax levy, and use of building reserve fund. (1) Whenever an annual building reserve authorization to budget is available to a district, the trustees shall include the authorized amount in the building reserve fund of the final budget. The county superintendent shall report the amount as the building reserve fund levy requirement to the county commissioners by the later of the first Tuesday in September or within 30 calendar days after receiving certified taxable values, and a levy on the district must be made by the county commissioners in accordance with 20-9-142.

(2) The trustees of any district maintaining a building reserve fund may:

(a) pledge the revenue from the building reserve fund levy for up to 15 years to repay loans used only for projects authorized by the electors of the district pursuant to 20-9-502.

(b) expend money from the fund for the purpose or purposes for which it was authorized without the specific expenditures being included in the final budget when, in their discretion, there is a sufficient amount of money to begin the authorized projects. The expenditures may not invalidate the district's authority to continue the annual imposition of the building reserve taxation authorized by the electors of the district.

(3) Whenever there is money credited to the building reserve fund for which there is no immediate need, the trustees may invest the money in accordance with 20-9-213(4). The interest earned from the investment must be credited to the building reserve fund or the debt service fund, at the discretion of the trustees, and expended for any purpose authorized by law for the fund.

20-9-504. Extracurricular fund for pupil functions. (1) The trustees of a district may establish an extracurricular fund for the purposes of receiving and expending money collected for pupil extracurricular functions. All extracurricular money of a pupil organization of the school must be deposited and expended by check from a bank account maintained for the extracurricular fund.

(2) An accounting system for the extracurricular fund recommended by the superintendent of public instruction must be implemented by the trustees. The accounting system must provide for:

(a) the internal control of the cash receipts and expenditures of the money; and

(b) a general account that can be reconciled with the bank account for the extracurricular fund and reconciled with the detailed accounts within the extracurricular fund maintained for each student function.

(3) The trustees may invest any excess money in the extracurricular fund in accordance with the provisions of 20-9-213(4). Interest earned as a result of the investments may either be:

(a) credited to a general operating account within the fund to be used to offset expenses incurred in administering the fund; or

(b) distributed to the fund from which the money was withdrawn for investment.

20-9-505. Purpose and establishment of nonoperating fund. (1) The trustees of a district that will not operate a school during the ensuing school fiscal year shall establish a nonoperating fund on the first day of the school fiscal year. In establishing the nonoperating fund, the trustees shall cause the transfer of the end-of-the-year fund balance of each fund maintained by the district during the immediately preceding school fiscal year to the nonoperating fund. However, fund balances of the debt service fund and the miscellaneous programs fund, if any, must be maintained in their individual funds.

(2) The trustees of a district establishing a nonoperating fund for the first year of nonoperation may earmark a portion of the nonoperating fund balance as a nonoperating fund operating reserve when they anticipate the reopening of a school in the following school fiscal year. The operating reserve may not be more than the general fund operating reserve designated for the immediately preceding school fiscal year. If a school is not operated in the following school fiscal year, the authority of the trustees to earmark a nonoperating fund operating reserve terminates and the money earmarked as an operating reserve must be used to reduce the levy requirement of the nonoperating fund. If the trustees acquire approval to reopen a school in the following school fiscal year under the provisions of 20-6-502 or 20-6-503 and operate the school, the nonoperating fund operating reserve must be restored as the general fund operating reserve.

(3) The purpose of the nonoperating fund is to centralize the financing and budgeting for the limited functions of a district not operating a school. The functions include:

(a) tuition obligations to other districts;

(b) transportation of the resident pupils;

(c) maintenance of district-owned property; and

(d) any other nonoperating school function of the district considered necessary by the trustees or required by law.

(4) Any expenditure of nonoperating fund money must be made in accordance with the financial administration provisions of this title for a budgeted fund.

The nonoperating budget must contain the nonoperating fund and, when appropriate, a debt service fund. The nonoperating budget form must be promulgated and distributed by the superintendent of public instruction under the provisions of 20-9-103.

(1) The purpose of school major maintenance aid as provided in this section is to support school facility projects, including the payment of principal and interest on obligations issued pursuant to 20-9-471 for school facility projects, that support a basic system of free quality public elementary and secondary schools under 20-9-309, including but not limited to:

(a) improvements to school and student safety and security as described in 20-9-236(1); and

(b) projects designed to produce operational efficiencies such as utility savings, reduced future maintenance costs, improved utilization of staff, and enhanced learning environments for students, including but not limited to projects addressing:

(i) roofing systems;

(ii) heating, air-conditioning, and ventilation systems;

(iii) energy-efficient window and door systems and insulation;

(iv) plumbing systems;

(v) electrical systems and lighting systems;

(vi) information technology infrastructure, including internet connectivity both within and to the school facility; and

(vii) other critical repairs to an existing school facility or facilities.

(2) (a) In any year in which the legislature has appropriated funds for school major maintenance aid, the superintendent of public instruction shall administer the distribution of school major maintenance aid for deposit in the subfund of the building reserve fund provided for in 20-9-502(3)(e). Subject to proration under subsection (4) of this section, aid must be annually distributed no later than the last working day of May to a school district imposing a levy pursuant to 20-9-502(3) in the current school fiscal year, with the amount of state support per dollar of local effort of the applicable elementary and high school program of each district determined as follows:

(i) using the taxable valuation most recently determined by the department of revenue under 20-9-369:

(A) divide the total statewide taxable valuation by the statewide total of school major maintenance amounts and multiply the result by 355%;

(B) multiply the result determined under subsection (2)(a)(i)(A) by the district's school major maintenance amount;

(C) subtract the district's taxable valuation from the amount determined under subsection (2)(a)(i)(B); and

(D) divide the amount determined under subsection (2)(a)(i)(C) by 1,000;

(ii) determine the greater of the amount determined in subsection (2)(a)(i) or 18% of the district's mill value;

(iii) multiply the result determined under subsection (2)(a)(ii) by the district's school major maintenance amount, then divide the product by the sum of the result determined under subsection (2)(a)(ii) and the district's mill value; and

(iv) divide the result determined under subsection (2)(a)(iii) by the difference resulting from subtracting the result determined under subsection (2)(a)(iii) from the district's school major maintenance amount.

(b) For a district with an adopted general fund budget in the prior year greater than or equal to 97% of the district's general fund maximum budget in the prior year, the amount determined in subsection (2)(a)(iv) rounded to the nearest cent is the amount of school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(c) For a district with an adopted general fund budget in the prior year less than 97% of the district's maximum budget in the prior year, multiply the amount determined in subsection (2)(a)(iv) by the ratio of the district's adopted general fund budget in the prior year to the district's maximum general fund budget in the prior year. The result, rounded to the nearest cent, is the amount of state school major maintenance aid per dollar of local effort, not to exceed an amount that would result in the state aid composing more than 80% of the district's school major maintenance amount.

(3) Using the taxable valuation most recently determined by the department of revenue under 20-9-369, the superintendent shall provide school districts with a preliminary estimated amount of state school major maintenance aid per dollar of local effort for the ensuing school year no later than March 1 and a final amount for the current school year no later than July 31.

(4) If the appropriation for school major maintenance aid or the available funds in any school fiscal year are less than the amount of school major maintenance aid for which school districts would otherwise qualify, the superintendent of public instruction shall proportionally prorate the aid distributed to ensure that the distributions do not exceed the appropriated or available funds.

(5) A school district that receives school major maintenance aid shall, within 30 days of receiving the funds, file with the office of the superintendent of public instruction a document acknowledging it has received funds from the coal severance tax trust fund.

(6) For the purposes of this section, the following definitions apply:

(a) "Local effort" means an amount of money raised by levying no more than 10 mills pursuant to 20-9-502(3) and, provided that 10 mills have been levied, any additional amount of money deposited or transferred by trustees to the subfund pursuant to 20-9-502(3).

(b) "School major maintenance amount" means the sum of $40,000 and the product of $115 multiplied by the district's budgeted ANB for the prior fiscal year.

If the trustees adopt the resolution, the pupil-instruction time lost during the closure need not be rescheduled to meet the minimum requirement for aggregate hours that a school district must conduct during the school year in order to be entitled to full BASE aid.

(b) At least 75% of the pupil-instruction time lost due to the unforeseen emergency must have been made up before the trustees can declare that a reasonable effort has been made.

(2) The board of trustees may close school for 1 school day each school year because of an unforeseen emergency and may not be required to reschedule the pupil-instruction time lost because of the unforeseen emergency. 20-10-104. Penalty for violating law or rules. (1) Every district, its trustees and employees, and every person under a transportation contract with a district is subject to the policies prescribed by the board of public education and the rules prescribed by the superintendent of public instruction. When a district knowingly violates a transportation law or board of public education transportation policy, the district shall forfeit any reimbursement otherwise payable under 20-10-145 and 20-10-146 for any bus miles actually traveled during that fiscal year in violation of the law or policies.

As provided in 20-10-141(1), a district that operates a bus route not approved by its county transportation committee may not receive transportation reimbursement on that route, but if the route is operated in compliance with transportation law, the operation of the routes is not a violation that will result in the forfeiture of all transportation aid to the district.

(3) The county superintendent shall suspend all reimbursements payable to the district under 20-10-145 and 20-10-146 for all miles being traveled, including both miles being traveled in compliance with the transportation laws or policies and miles being traveled in violation of the transportation laws or policies, until the district corrects the violation. Upon discovering a violation, the trustees of the district shall give written notice to the person that unless the violation is corrected within 10 days of the giving of notice, the contract will be canceled. The trustees of a district shall order the operation of a bus operated under contract suspended when the bus is being operated in violation of transportation law or policies and the trustees find that the violation jeopardizes the safety of pupils.

(2) A representative of the applicable district and a parent or guardian of the child to be transported shall be present when the distance is measured.

(3) The measurement shall begin 6 yards from the family home and end 6 yards from the entrance of the school grounds closest to the route.

(4) The route traversed for the measurement shall be the route designated by the trustees, except that the route shall be reasonably passable during the entire school fiscal year by the vehicle that provides the child's transportation. In determining reasonable passage, a route may not be disqualified because it is impassable during temporary, extreme weather conditions such as rains, snow, or floods.

(1) purchase or rent a school bus;

20-10-108. Two-way radio operation. When the trustees authorize a two-way radio as standard equipment on a school bus, the two-way radio may be operated on the same frequency as that used by the Montana highway patrol and the sheriff of the county when their permission and the permission of the federal communications commission is secured. If permission is not secured from these agencies, the frequency assigned by the federal communications commission shall be used for the operation of the two-way radio.

(1) The board of public education, with the advice of the Montana department of justice and the superintendent of public instruction, shall adopt and enforce policies, not inconsistent with the motor vehicle laws, to provide uniform standards and regulations for the design, construction, and operation of school buses in the state of Montana. The policies must:

20-10-123. Provision of transportation for nonpublic school children. Any child attending a nonpublic school may ride a school bus when a permit to ride the school bus is secured from the operating district by the parent or guardian of the nonpublic school child and when there is seating capacity available on the school bus. When a nonpublic school child rides a school bus, the operating district may charge the child a proportionate share, as determined by the trustees, of the cost of operating the school bus. Money realized from the payments must be deposited to the credit of the transportation fund.

(1) When the trustees contract with any private party to provide transportation to eligible transportees, the private party shall comply with the regulations of the board of public education for the standards of equipment, operation and safety of the school bus, and qualifications of the driver. The trustees may require added safeguards by supplementing the board of public education policies in the contract with additional requirements for bus specifications, age of drivers, liability insurance, operating speed, or any other contractual condition considered necessary by the trustees.

(2) Any school bus transportation by a private party or individual transportation that is furnished by a district must be under contract, and district, county, or state money may not be paid for transportation services to any person or firm who does not hold a legal contract with the district. Transportation contracts for the ensuing year must be completed by the fourth Monday of June, except when an eligible transportee establishes residence in the district after the fourth Monday of June and a contingency amount is included in the regular transportation budget or an emergency transportation budget is adopted.

(3) Transportation contracts between a district and a private party for the provision of school bus transportation must:

(a) be completed in triplicate, with one copy for the county superintendent, one copy for the private party, and one copy for the district;

(b) conform to the transportation law, policies of the board of public education, and rules of the superintendent of public instruction; and

(b) it must be completed on forms promulgated by the superintendent of public instruction;

(a) secure bids by publishing during a period of 21 days at least three calls for bids in a newspaper of the county that will give notice to the largest number of people of the district or in the official newspaper of the county; the trustees shall let the contract to the lowest responsible bidder, and the trustees shall have the right to reject any and all bids; or

(b) negotiate a new contract with the current school bus contractor, provided the negotiated contract costs do not exceed by more than 12% per year the basic costs of the previous year's contract. Such a negotiated contract can be entered into only at a public meeting of the trustees at which meeting the patrons of the district may appear and be heard. Notice of the meeting must have been published in a newspaper of wide circulation within the district at least 1 week prior to the meeting.

(2) The provisions of this section for awarding a contract for school bus transportation shall be subject to the provisions of 20-9-204.

(3) The trustees shall not expend any moneys of the district for school bus transportation by a private party or for individual transportation unless:

(a) a contract for such transportation services has been completed; and

(b) such contracted services for school bus transportation by a private party have been actually furnished except that the failure to perform may be excused by the trustees for reasons not under the control of the contractor; or

(c) such contracted services for individual transportation have been actually furnished as confirmed by the actual attendance of school by the eligible transportees and recorded on the school attendance records or, in the case of a supervised correspondence course or supervised home study, as confirmed by the trustees; except that the contracted services furnished one way on any school day shall be reimbursed at one-half the daily contract amount.

20-10-126. Establishment of transportation service areas. (1) The territory of a transportation service area is the territory of a school district unless the county transportation committee approves alternative boundaries after determining that the adjustments will improve pupil safety, transportation efficiency, or the cost-effectiveness of the pupil transportation system of the county.

(2) (a) Except as provided in subsection (2)(b), a district may not extend a bus route to transport pupils from outside its transportation service area unless the district has a written

agreement with the district that the county transportation committee has assigned to transport the pupils.

(b) A district may extend a bus route across another transportation service area if the district determines that it is necessary in order to provide transportation to pupils in the district's own transportation service area. Under this subsection (2)(b), a district may not transport pupils from outside its transportation service area.

(3) When the trustees of two or more districts enter into a written agreement to authorize transportation services among transportation service areas, a copy of the agreement must be submitted to the county superintendent and approved by the county transportation committee. Upon approval by the committee, the transportation agreements are valid for the current school year.

(4) The trustees of any district who object to a particular bus route or transportation service area to which the district has been assigned may request a transfer to another bus route or transportation service area. The county transportation committee may transfer the territory of the district to an adjacent transportation service area or approved bus route with the consent of the district providing transportation in the adjacent transportation service area.

(5) The trustees of any district who object to a bus route operated by another district may bring that route to the attention of the county transportation committee. If the committee agrees that the district is operating a portion of its route as an unapproved route outside of its district boundaries, the committee shall file with the district a written warning concerning the unapproved route, and if the district, in spite of the warning, continues to operate the route, the committee may withdraw its approval of the entire route.

(6) If the qualified electors of the district object to the decision of the county transportation committee and the adjacent district is willing to provide school bus service, 20% of the qualified electors, as prescribed in 20-20-301, may petition the trustees to conduct an election on the proposition that the territory of the district be transferred for pupil transportation purposes to the adjacent transportation service area. If a satisfactory petition is presented to the trustees, the trustees shall call an election on the proposition in accordance with 20-20-201 for the next ensuing regular school election day. The election must be conducted in accordance with the school election laws. If a majority of those voting at the election approve the transfer, the transfer is effective on July 1 of the ensuing school fiscal year.

(7) Unless a transfer of territory from one transportation service area or approved bus route to another area or bus route is approved by the superintendent of public instruction and the county transportation committee, the state transportation reimbursement is limited to the reimbursement amount for pupil transportation to the nearest operating public elementary school or public high school, whichever is appropriate for the affected pupils.

(2) A passenger vehicle that is owned by the district is not eligible to be included in the calculations for the bus depreciation reserve fund under 20-10-147.

(3) For purposes of this section, "passenger vehicle" means a motor vehicle that is:

20-10-131. County transportation committee membership. (1) To coordinate the orderly provision of a uniform transportation program within a county, there must be a county transportation committee created in each county of the state of Montana. The membership of the committee consists of:

(a) the county superintendent;

(b) the presiding officer of the board of county commissioners or a member of the board designated by the presiding officer; and

(c) one representative of each school district within the county, except that an elementary district and high school district that compose a school system under 20-6-312 or 20-6-508 are limited to one representative for the school system. Each representative must be designated by the trustees of the respective school district or school system.

(2) The county transportation committee must have at least five members, and if this minimum membership cannot be realized in the manner prescribed in subsections (1)(a) through (1)(c), the county superintendent shall appoint a sufficient number of members to satisfy the minimum membership requirement.

(3) The county superintendent is the presiding officer of the county transportation committee, and a quorum is a majority of the membership. A quorum must be present for the committee to conduct business. The committee shall meet on the call of the presiding officer or any three members of the committee. Each member of the committee is a voting member.

(a) establish the transportation service areas within the county, without regard to district boundary lines, for each district that operates a school bus transportation program;

(b) except as provided in subsection (2), approve, disapprove, or adjust the school bus routes submitted by the trustees of each district in conformity with the transportation service areas established in subsection (1)(a);

(c) approve, disapprove, or adjust applications, approved by the trustees, for increased reimbursements for individual transportation because of isolated conditions of the eligible transportee's residence;

(d) conduct hearings to establish the facts of transportation controversies that have been appealed from the decision of the trustees and act on the appeals on the basis of the facts established at the hearing; and

(e) determine if geographic conditions make it impractical for a child to attend school in the district of residence, in accordance with 20-5-321(1)(b).

(2) In an emergency situation, a temporary bus route change may be approved by the county superintendent. A bus route change approved by the county superintendent must be confirmed by the county transportation committee within 90 days in order to be continued for a period longer than 90 days.

(3) When the county transportation committee reviews a request for a new bus route or a change to an existing route, the committee shall consider the following:

(a) a map of the existing and proposed bus route;

(b) a description of turnarounds;

(c) conditions affecting safety;

(d) the total mileage and change in mileage of the affected bus route;

(e) the approximate total cost;

(f) reasons for the proposed bus route change;

(g) the number of children to be served;

(h) a copy of the official minutes of the meeting at which the school trustees approved the new bus route or route change; and

(i) any other information that the county transportation committee considers relevant.

(4) When an application for increased reimbursement for individual transportation is presented to the county transportation committee, it must include a signed individual

transportation contract and a copy of the official minutes of the meeting at which the trustees acted upon the request for increased reimbursement.

(5) After a factfinding hearing and decision on a transportation controversy, the trustees or a patron of the district may appeal the decision to the superintendent of public instruction, who shall issue a decision on the basis of the facts established at the county transportation committee hearing.

20-10-141. Schedule of maximum reimbursement by mileage rates. (1) The mileage rates in subsection (2) for school transportation constitute the maximum reimbursement to districts for school transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates may not limit the amount that a district may budget in its transportation fund budget in order to provide for the estimated and necessary cost of school transportation during the ensuing school fiscal year. All bus miles traveled on bus routes approved by the county transportation committee are reimbursable. Nonbus mileage is reimbursable for a vehicle driven by a bus driver to and from an overnight location of a school bus when the location is more than 10 miles from the school. A district may approve additional bus or nonbus miles within its own district or approved service area but may not claim reimbursement for the mileage. Any vehicle, the operation of which is reimbursed for bus mileage under the rate provisions of this schedule, must be a school bus, as defined by this title, driven by a qualified driver on a bus route approved by the county transportation committee and the superintendent of public instruction.

(2) Subject to adjustment by the superintendent of public instruction pursuant to section 20, Chapter 658, Laws of 2025:

(a) the rate for each bus mile traveled must be determined in accordance with the following schedule:

(i) 50 cents for a school bus as defined in 20-10-101(5)(a)(ii);

(ii) 95 cents for a school bus with a rated capacity of not more than 49 passenger seating positions;

(iii) $1.15 for a school bus with a rated capacity of 50 to 59 passenger seating positions;

(iv) $1.36 for a school bus with a rated capacity of 60 to 69 passenger seating positions;

(v) $1.57 for a school bus with a rated capacity of 70 to 79 passenger seating positions; and

(vi) $1.80 for a school bus with 80 or more passenger seating positions.

(b) Nonbus mileage, as provided in subsection (1), must be reimbursed at a rate of 50 cents a mile.

(3) The rated capacity is the number of passenger seating positions of a school bus as determined under the policy adopted by the board of public education. If modification of a school bus to accommodate pupils with disabilities reduces the rated capacity of the bus, the reimbursement to a district for pupil transportation is based on the rated capacity of the bus prior to modification.

(4) The number of pupils riding the school bus may not exceed the passenger seating positions of the bus.

20-10-142. Schedule of maximum reimbursement for individual transportation. The following rates for individual transportation constitute the maximum reimbursement to districts for individual transportation from state and county sources of transportation revenue under the provisions of 20-10-145 and 20-10-146. These rates constitute the limitation of the budgeted amounts for individual transportation for the ensuing school fiscal year. The schedules provided in this section may not be altered by any authority other than the legislature. When the trustees contract with the parent or guardian of any eligible transportee to provide individual transportation for each day of school attendance, they shall reimburse the parent or guardian for actual miles transported on the basis of the following schedule:

(1) When a parent or guardian transports an eligible transportee or transportees from the residence of the parent or guardian to a school or to schools located within 3 miles of one another, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the school, or the most distant school if more than one, by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if two or more eligible transportees are transported by a parent or guardian to two or more schools located within 3 miles of one another and if the schools are operated by different school districts, the total amount of the reimbursement must be divided equally between the districts;

(b) if two or more eligible transportees are transported by a parent or guardian to two or more schools located more than 3 miles from one another, the parent or guardian must be separately reimbursed for transporting the eligible transportee or transportees to each school;

(c) if a parent transports two or more eligible transportees to a school and a bus stop that are located within 3 miles of one another, the total reimbursement must be determined under the provisions of this subsection (1) and must be divided equally between the district operating the school and the district operating the bus;

(d) if a parent transporting two or more eligible transportees to a school or bus stop must, because of varying arrival and departure times, make more than one round-trip journey to the bus stop or school, the total reimbursement allowed by this section is limited to one round trip a day for each scheduled arrival or departure time;

(e) notwithstanding subsection (1)(a), (1)(b), (1)(c), or (1)(d), a reimbursement may not be less than 35 cents a day.

(2) When the parent or guardian transports an eligible transportee or transportees from the residence to a bus stop of a bus route approved by the trustees for the transportation of the transportee or transportees, the total reimbursement for each day of attendance is determined by multiplying the distance in miles between the residence and the bus stop by 2, subtracting 6 miles from the product, and multiplying the difference by 35 cents, provided that:

(a) if the eligible transportees attend schools in different districts but ride on one bus, the districts shall divide the total reimbursement equally; and

(b) if the parent or guardian is required to transport the eligible transportees to more than one bus, the parent or guardian must be separately reimbursed for transportation to each bus.

(3) When, because of excessive distances, impassable roads, or other special circumstances of isolation, the rates prescribed in subsection (1) or (2) would be an inadequate reimbursement for the transportation costs or would result in a physical hardship for the eligible transportee, a parent or guardian may request an increase in the reimbursement rate. A request for increased rates because of isolation must be made by the parent or guardian on the contract for individual transportation for the ensuing school fiscal year by indicating the special facts and circumstances that exist to justify the increase. Before an increased rate because of isolation may be paid to the requesting parent or guardian, the rate must be approved by the county transportation committee and the superintendent of public instruction after the trustees have indicated their approval or disapproval. Regardless of the action of the trustees and when approval is given by the committee and the superintendent of public instruction, the trustees shall pay the increased rate because of isolation. The increased rate is 1½ times the rate prescribed in subsection (1).

(4) The state and county transportation reimbursement for an individual transportation contract may not exceed $12.95 for each day of attendance for the first eligible transportee and $8.40 for each day of attendance for each additional eligible transportee.

(5) When the isolated conditions of the household where an eligible transportee resides require an eligible transportee to live away from the household in order to attend school, the eligible transportee is eligible for the room and board reimbursement. Approval to receive the room and board reimbursement must be obtained in the same manner prescribed in subsection (3). The per diem rate for room and board is $12.95 for one eligible transportee and $8.40 for each additional eligible transportee of the same household.

(6) When the individual transportation provision is to be satisfied by supervised home study or supervised correspondence study, the reimbursement rate is the cost of the study, provided that the course of instruction is approved by the trustees and supervised by the district.

20-10-143. Budgeting for transportation and transmittal of transportation contracts. (1) The trustees of a district furnishing transportation to pupils who are residents of the district shall provide a transportation fund budget that is adequate to finance the district's transportation contractual obligations and any other transportation expenditures necessary for the conduct of its transportation program. The transportation fund budget must include:

(a) an adequate amount to finance the maintenance and operation of school buses owned and operated by the district;

(b) the annual contracted amount for the maintenance and operation of school buses by a private party;

(c) the annual contracted amount for individual transportation, including any increased amount because of isolation, which may not exceed the schedule amounts prescribed in 20-10-142;

(d) any amount necessary for the purchase, rental, or insurance of school buses; and

(e) any other amount necessary to finance the administration, operation, or maintenance of the transportation program of the district, as determined by the trustees.

(2) The trustees may include a contingency amount in the transportation fund budget for the purpose of enabling the district to fulfill an obligation to provide transportation in accordance with this title for:

(a) pupils not residing in the district at the time of the adoption of the final budget and who subsequently became residents of the district during the school fiscal year;

(b) pupils who have become eligible transportees since the adoption of the final budget because their legal residence has been changed; or

(c) other unforeseen increases in bus route mileage or obligations for payment of additional contracts for individual transportation for an eligible transportee for which state and county reimbursement is authorized under 20-10-141 and 20-10-142. The budgeted contingency amount may not exceed 10% of the transportation schedule amount as calculated under the provisions of 20-10-141 and 20-10-142 for all transportation services authorized by the schedules and provided by the district unless 10% of the transportation schedule amount is less than $100, in which case $100 is the maximum limitation for the budgeted contingency amount.

(3) A budget amendment to the transportation fund budget may be adopted subject to the provisions of 20-9-161 through 20-9-166.

(4) The trustees shall report the transportation fund budget on the regular budget form prescribed by the superintendent of public instruction in accordance with 20-9-103, and the adoption of the transportation fund budget must be completed in accordance with the school budgeting laws. When the adopted final budget is sent to the county superintendent, the trustees shall also send copies of all completed transportation contracts for school bus transportation to the county superintendent. The contracts must substantiate all contracted school bus transportation services incorporated in the final budget.

20-10-144. Computation of revenue and net tax levy requirements for district transportation fund budget. Before the second Monday of August, the county superintendent shall compute the revenue available to finance the transportation fund budget of each district. The county superintendent shall compute the revenue for each district on the following basis:

(1) The "schedule amount" of the budget expenditures that is derived from the rate schedules in 20-10-141 and 20-10-142 must be determined by adding the following amounts:

(a) the sum of the maximum reimbursable expenditures for all approved school bus routes maintained by the district (to determine the maximum reimbursable expenditure, multiply the applicable rate for each bus mile by the total number of miles to be traveled during the ensuing school fiscal year on each bus route approved by the county transportation committee and maintained by the district); plus

(b) the total of all individual transportation per diem reimbursement rates for the district as determined from the contracts submitted by the district multiplied by the number of pupil-instruction days scheduled for the ensuing school attendance year; plus

(c) any estimated costs for supervised home study or supervised correspondence study for the ensuing school fiscal year; plus

(d) the amount budgeted in the budget for the contingency amount permitted in 20-10-143, except if the amount exceeds 10% of the total of subsections (1)(a), (1)(b), and (1)(c) or $100, whichever is larger, the contingency amount on the budget must be reduced to the limitation amount and used in this determination of the schedule amount; plus

(e) any estimated costs for transporting a child out of district when the child has mandatory approval to attend school in a district outside the district of residence.

(2) (a) The schedule amount determined in subsection (1) or the total transportation fund budget, whichever is smaller, is divided by 4 and is used to determine the available state and county revenue to be budgeted on the following basis:

(i) three-fourths is the budgeted state transportation reimbursement; and

(ii) one-fourth is the budgeted county transportation fund reimbursement and must be financed in the manner provided in 20-10-146.

(b) When the district has a sufficient amount of fund balance for reappropriation and other sources of district revenue, as determined in subsection (3), to reduce the total district obligation for financing to zero, any remaining amount of district revenue and fund balance reappropriated must be used to reduce the county financing obligation in subsection (2)(a)(ii) and, if the county financing obligations are reduced to zero, to reduce the state financial obligation in subsection (2)(a)(i).

(c) The county revenue requirement for a joint district, after the application of any district money under subsection (2)(b), must be prorated to each county incorporated by the joint district in the same proportion as the ANB of the joint district is distributed by pupil residence in each county.

(3) The total of the money available for the reduction of property tax on the district for the transportation fund must be determined by totaling:

(a) anticipated federal money received under the provisions of 20 U.S.C. 7701, et seq., or other anticipated federal money received in lieu of that federal act;

20-10-145. State transportation reimbursement. (1) A district providing school bus transportation or individual transportation in accordance with this title, board of public education transportation policy, and superintendent of public instruction transportation rules must receive a state reimbursement of its transportation expenditures under the transportation reimbursement rate provisions of 20-10-141 and 20-10-142. The state transportation reimbursement is three-fourths of the reimbursement amounts established in 20-10-141 and 20-10-142 or one-half of the district's transportation fund budget, whichever is smaller, and must be computed on the basis of the number of days the transportation services were actually rendered to transport eligible transportees, as defined in 20-10-101, to or from school to participate in the minimum aggregate hours of instruction required pursuant to 20-1-301. In determining the amount of the state transportation reimbursement, an amount claimed by a district may not be considered for reimbursement unless the amount has been paid in the regular manner provided for the payment of other financial obligations of the district.

(2) Requests for the state transportation reimbursement must be made by each district semiannually during the school fiscal year on the claim forms and procedure promulgated by the superintendent of public instruction. The claims for state transportation reimbursements must be routed by the district to the county superintendent, who after reviewing the claims shall send them to the superintendent of public instruction. The superintendent of public instruction shall establish the validity and accuracy of the claims for the state transportation reimbursements by determining compliance with this title, board of public education transportation policy, and the transportation rules of the superintendent of public instruction. After making any necessary adjustments to the claims, the superintendent of public instruction shall order a disbursement from the state money appropriated by the legislature of the state of Montana for the state transportation reimbursement.

(3) The superintendent of public instruction shall make the disbursement to each school district according to the following schedule:

(a) By September 1 of each year, the superintendent of public instruction shall make a payment equal to 50% of the state transportation reimbursement paid to the district in the previous school year.

(b) By March 31 of each year, the superintendent of public instruction shall make a payment to the district equal to the approved amount of state reimbursement for first semester transportation claims less the amount distributed to the district under subsection (3)(a).

(c) By June 30 of each year, the superintendent of public instruction shall make a payment to the district to pay the balance of the approved amount due to the district for first and second semester transportation.

(4) Unless authorized for payment to a school district investment account established under 20-9-235, the payment of all the district's claims within one county must be made to the county treasurer of the county, and the county superintendent shall apportion the payment in accordance with the apportionment order supplied by the superintendent of public instruction.

(5) After adopting a budget amendment for the transportation fund in accordance with 20-9-161 through 20-9-166, the district shall send to the superintendent of public instruction a copy of each new or amended individual transportation contract and each new or amended bus route form to which the budget amendment applies. State reimbursement for the additional obligations must be paid as provided in subsection (1).

(f) determining whether each charter contract merits renewal, nonrenewal, or revocation.

(2) An authorizer may delegate its duties to its officers, employees, and contractors.

(3) Regulation of choice schools by authorizers is limited to the powers and duties described in this part, consistent with the intent of this part.

(4) An authorizer shall develop, carry out, and maintain authorizing policies and practices consistent with nationally recognized principles and standards for authorizing in all major areas of authorizing responsibility, including:

(a) organizational capacity and infrastructure;

(b) soliciting and evaluating choice school proposals;

(c) performance contracting;

(d) ongoing community choice school oversight and evaluation; and

(e) charter contract renewal decisionmaking.

(b) the academic and financial performance of all operating choice schools overseen by the authorizer, according to the performance expectations for choice schools set forth in this part;

20-11-109. Duties of commission — oversight of authorizers. (1) (a) The commission shall establish a statewide formula for authorizer funding to be applied uniformly to every authorizer in the state. Authorizer funding is financed through an oversight fee.

(b) The oversight fee must be calculated as a uniform percentage of the state funding allocated to each choice school and is to be paid from the choice school's budget share of the per-pupil funding, not to exceed 3% of each community choice school's state funding in a single school year.

(c) The commission may establish a sliding scale for authorizer funding, with the funding percentage decreasing after the authorizer has achieved a certain threshold after a certain number of years of authorizing, after a certain number of schools have been authorized, or for other reasons determined at the discretion of the commission.

(d) An authorizer's oversight fee may not include any costs incurred in delivering services that a choice school may purchase at its discretion from the authorizer. The authorizer shall use the funding provided under this section exclusively for the purpose of fulfilling authorizing obligations in accordance with this part.

(2) The commission is responsible for overseeing the performance and effectiveness of all authorizers established under this part.

(3) The commission shall annually review the effectiveness of the formula it established for authorizer funding and shall adjust the formula if necessary to maximize public benefit and strengthen the implementation of this part.

(4) By October 15 of each year, the commission shall communicate to every authorizer the requirements for the format, content, and submission of the annual report.

(5) Persistently unsatisfactory performance of an authorizer's portfolio of community choice schools, a pattern of well-founded complaints about the authorizer or its choice schools, or other objective circumstances may trigger a special review by the commission.

(6) In reviewing or evaluating the performance of authorizers, the commission shall apply nationally recognized principles and standards for authorizing.

(7) If at any time the commission finds that an authorizer is not in compliance with an existing charter contract, its authorizing contract with the commission, or the requirements of authorizers under this part, the commission shall notify the authorizer in writing of the identified problems and shall provide the authorizer reasonable opportunity to respond and remedy the problems.

(8) If an authorizer fails to respond and remedy the problems identified by the commission, the commission shall notify the authorizer, within a reasonable amount of time under the circumstances, that it intends to revoke the authorizer's authority unless the authorizer demonstrates a timely and satisfactory remedy for the violation or deficiencies.

(9) In the event of revocation of an authorizer's authority, the commission shall manage the timely and orderly transfer of each charter contract held by that authorizer to another authorizer in the state, with the mutual agreement of each affected choice school and proposed new authorizer. The new authorizer shall assume the existing charter contract for the remainder of the charter contract term.

(10) On or before December 1 of each year, beginning in the first year that choice schools have been in operation for a full school year, the commission shall issue to the board of public education, the education interim committee, and the public an annual report on the state's community choice schools that includes data from the annual reports submitted by every

authorizer, as well as any additional relevant data compiled by the commission, for the school year ending in the preceding calendar year. The annual report must include:

(2) A choice school may choose to purchase services from its authorizer. In that event, the choice school and authorizer shall execute an annual service contract, separate from the charter contract, stating the parties' mutual agreement concerning any services to be provided by the authorizer and any service fees to be charged to the choice school. An authorizer may not charge more than market rates for services provided to a choice school.

(3) A choice school may purchase goods and services from for-profit providers for operational and ancillary purposes.

If the school requires an opening delay of more than 1 school year, the school shall request an extension from its authorizer. The authorizer may grant or deny the extension depending on the school's circumstances.

(2) Within 45 days of approval of a choice school proposal, the authorizer and the governing board of the approved choice school shall execute a charter contract that clearly sets forth the academic and operational performance expectations and measures by which the choice school will be judged and the administrative relationship between the authorizer and the choice school, including each party's rights and duties.

(b) A school district may not require a student enrolled in the school district to attend a choice school.

(c) A choice school may limit admission to students within a given age group or grade level.

(d) A choice school may be organized for a special emphasis, theme, or concept as stated in the school's proposal.

(e) A choice school shall enroll all students who wish to attend the school unless the number of students exceeds the capacity of a program, class, grade level, or building.

(f) If capacity is insufficient to enroll all students who wish to attend the school, the choice school shall select students through a lottery.

(2) A traditional public school converting to a choice school shall adopt and maintain a policy giving enrollment preference to students who reside within the former attendance area of that public school.

(3) (a) A choice school shall give enrollment preference to students who were enrolled in the choice school the previous school year and to siblings of students already enrolled in the choice school. An enrollment preference for returning students and siblings excludes those students from entering a lottery.

(b) A choice school may give enrollment preference to children of a choice school's employees and governing board, limited to no more than 10% of the school's total student population.

(4) This section does not preclude the formation of a community choice school for the purpose of serving students with disabilities, students of the same gender, students who pose a sufficiently severe disciplinary problem to warrant a specific educational program, or students who are at risk of academic failure. If capacity is insufficient to enroll all students who wish to attend a school, the choice school shall select students through a lottery.

(5) If a student who was previously enrolled in a choice school enrolls in any other public school in this state, the student's new school shall accept credits earned by the student in courses or instructional programs at the choice school.

(6) A traditional school district shall provide or publicize to parents and the general public information about choice schools as an enrollment option within the district's physical, geographical boundaries to the same extent and through the same means that the district provides and publicizes information about traditional public schools in the district.

(7) An authorizer may not restrict the number of students a choice school may enroll. The capacity of the choice school must be determined annually by its governing board in conjunction with the authorizer and in consideration of the choice school's ability to facilitate the academic success of its students, to achieve the objectives specified in the charter contract, and to ensure that its student enrollment does not exceed the capacity of its facility or site.

(8) If the choice school is the only public school in a town, the choice school must give preference to enrolling pupils residing in the town or within 5 miles of the school if the next closest public school is more than 10 miles away from the student's residence.

History: En. Sec. 11, Ch. 513, L. 2023.

20-11-117. Community choice school performance and renewal. (1) The performance provisions within the charter contract must be based on a performance framework that clearly sets forth the academic and operational performance indicators, measures, and metrics that will guide the authorizer's evaluations of each choice school. The performance framework must include indicators, measures, and metrics for, at a minimum:

(a) student academic proficiency;

(b) student academic growth;

(c) achievement gaps in both proficiency and growth between major student subgroups;

(d) attendance;

(e) recurrent enrollment from year to year;

(f) postsecondary readiness;

(g) financial performance and sustainability; and

(h) governing board performance and stewardship, including compliance with all applicable laws, regulations, and terms of the charter contract.

(2) Each choice school, in conjunction with its authorizer, shall set annual performance targets designed to help each school meet applicable federal, state, and authorizer expectations.

(3) (a) The contract performance framework must include rigorous, valid, and reliable indicators proposed by a choice school to evaluate its performance that are consistent with the purposes of this part.

(b) The authorizer shall collect and analyze data from each choice school it oversees in accordance with the performance framework.

(c) Multiple schools operating under a single charter contract or overseen by a single governing board shall report their performance as separate, individual schools. Each school must be held independently accountable for its performance.

(4) (a) An authorizer shall monitor the performance and legal compliance of the choice schools it oversees, including collecting and analyzing data to support ongoing evaluation according to the charter contract. Every authorizer has the authority to conduct or require oversight activities that do not unduly inhibit the autonomy granted to choice schools but that enable the authorizer to fulfill its responsibilities under this part, including conducting appropriate inquiries and investigations consistent with the intent of this part, and to adhere to the terms of the charter contract. Required oversight activities may not encumber the choice school financially and may be appealed by the choice school through the commission.

(b) Each authorizer shall annually publish and provide as part of its annual report to the commission a performance report for each choice school it oversees, within the performance framework set forth in the charter contract and 20-11-112. The authorizer may require each choice school it oversees to submit an annual report to assist the authorizer in gathering complete information about each school, consistent with the performance framework.

(c) In the event that a choice school's performance or legal compliance appears unsatisfactory, the authorizer shall promptly notify the choice school of the perceived problem and provide a reasonable opportunity for the school to remedy the problem.

(d) An authorizer may take appropriate corrective action or exercise sanctions short of revocation in response to apparent deficiencies in choice school performance or legal compliance. The action or sanctions may include, if warranted, requiring a choice school to develop and execute a corrective action plan within a specified timeframe.

(5) (a) A charter contract may be renewed for successive 5-year terms, although the authorizer may vary the term based on the performance, demonstrated capacities, and particular circumstances of each choice school. An authorizer may grant renewal with specific conditions for necessary improvement to a choice school.

(b) No later than June 30 of each year, the authorizer shall issue a choice school performance report and charter renewal application guide to any choice school whose charter contract will expire the following year. The performance report must summarize the choice school's performance record to date, based on the data required by this part and the charter contract, and must provide notice of any weaknesses or concerns perceived by the authorizer concerning the choice school that may jeopardize renewal if not promptly rectified. The choice school shall respond to the performance report and submit any corrections or clarifications within 90 days.

(6) The renewal application guide must, at a minimum, provide an opportunity for the choice school to:

(a) present additional evidence, beyond the data contained in the performance report, supporting its case for charter contract renewal;

(b) describe improvements undertaken or planned for the choice school; and

(c) detail the choice school's plans for the next charter contract term.

(7) The renewal application guide must include or refer explicitly to the criteria that will guide the authorizer's renewal decisions, based on the performance framework set forth in the charter contract and consistent with this part.

(8) (a) No later than February 1 of each year, the governing board of a community choice school seeking renewal shall submit a renewal application to the authorizer pursuant to the renewal application guide issued by the authorizer. The authorizer shall rule by resolution on the renewal application no later than 30 days after the filing of the renewal application.

(b) Every authorizer shall, when considering charter contract renewal:

(i) base its decision on evidence of the school's performance over the term of the charter contract in accordance with the performance framework set forth in the charter contract;

(ii) ensure that the data used in making renewal decisions is available to the choice school and to the public; and

(iii) provide a public report summarizing the basis for each decision.

20-11-118. Charter contract revocation and school closure or charter contract nonrenewal. (1) A charter contract may be subject to nonrenewal or revocation if the authorizer determines that the community choice school:

(a) committed a material and substantial violation of any of the terms, conditions, standards, or procedures required under this part or the charter contract and from which the choice school was not exempted;

(b) failed to meet or make sufficient progress toward the performance expectations set forth in the charter contract;

(c) failed to meet public safety standards; or

(d) failed to meet generally accepted standards of fiscal management.

(2) An authorizer shall develop revocation and nonrenewal processes that:

(a) provide the charter contract holders with timely notification of the prospect of revocation or nonrenewal and of the reasons for the possible closure;

(b) allow the charter contract holders a reasonable amount of time in which to prepare a response;

(c) provide the charter contract holders an opportunity to submit documents and testimony at a hearing to challenge the rationale for the closure recommendation and in support of the continuation of the school;

(d) allow the charter contract holders to be represented by counsel and call witnesses on their behalf;

(e) permit the recording of the proceedings; and

(f) provide for a final determination conveyed in writing to the charter contract holders.

(3) If an authorizer revokes or denies renewal of a charter contract, the authorizer shall clearly state, by resolution of its governing body, the reasons for the revocation or nonrenewal.

(4) Within 10 days of taking action to renew, not renew, or revoke a charter contract, the authorizer shall report to the commission the action taken and at the same time shall provide a copy of the report to the choice school. The report must include a copy of the resolution of the authorizer's governing body setting forth the action taken and reasons for the decision and providing assurances of compliance with all the requirements set forth in this part. The authorizer's decision is appealable to the commission in writing within 30 days of the commission's receipt of the authorizer's report.

(5) (a) Prior to a choice school closure, an authorizer shall develop a choice school closure protocol to ensure timely notification to parents, orderly transition of students and student records to new schools, and proper disposition of school funds, property, and assets in accordance with the requirements of this part. The protocol must specify responsible parties, transition and closure timelines, and a delineation of the respective duties of the choice school and the authorizer.

(b) The authorizer shall oversee the closure and work with the closing choice school to ensure a smooth and orderly closure and transition for students and parents.

(c) In the event of a choice school closure for any reason, the nonrestricted distributable assets of the choice school must be distributed first to satisfy outstanding payroll obligations for employees of the choice school, then to creditors of the choice school, then to resident school districts of students previously attending the closed choice school on a prorated per-pupil basis, and then to the state general fund. If the assets of the choice school are insufficient to pay all obligations, the prioritization of the distribution of assets may be determined by a court of law.

(d) If a closing choice school was converted from an existing traditional public school, the closing choice school is not responsible for any financial obligation or debt of the previously existing traditional public school unless the choice school assumed the debt or obligation at the time of conversion.

(6) Transfer of a charter contract, and of oversight of that choice school from one authorizer to another before the expiration of the charter contract term, may occur only if the authorizer violates the provisions of 20-11-108 or by special petition to the commission by a choice school or its authorizer. The commission shall consider a petition for transfer on a case-by-case basis and may grant transfer requests in response to special circumstances and to evidence that the transfer would serve the best interests of the community choice school's students.

20-15-310. Appropriation — definitions. (1) As used in 20-15-328 and this section, the following definitions apply:

(a) "Adjusted base" means the state appropriation to a community college in the base year:

(i) (A) plus the payment made to the community college for the base year pursuant to 20-15-328(3)(a); or

(B) minus the FTE increase funding factor divided by the FTE decrease funding factor times the payment made to the state for the base year pursuant to 20-15-328(3)(b); and

(C) minus any one-time-only legislative appropriations and appropriations for auditing purposes.

(ii) The amount calculated in subsection (1)(a)(i) is then multiplied by the inflationary factor for the second year of the current biennium.

(b) "Base year" means the first year of the current biennium.

(c) "Concurrent enrollment" means the form of dual enrollment through which a high school student receives instruction in a community college course from a high school instructor.

(d) "CTE FTE" means the FTE derived from students in courses determined by the commissioner of higher education to be career and technical education, based on national standard course classifications. For the purposes of the community college funding formula, FTE generated from a dual enrollment CTE course must be included in the calculation of CTE FTE and not in the concurrent enrollment or early college FTE categories.

(e) "Dual enrollment" means the circumstance in which a high school student is enrolled in both the student's high school and in a community college.

(f) "Early college" means the form of dual enrollment through which a high school student receives instruction in a community college course from a faculty member of the community college.

(g) "FTE" or "full-time equivalent" means the total number of undergraduate resident student credit hours in an academic year divided by 30.

(h) "FTE categories" means CTE FTE, general education FTE, the FTE derived from concurrent enrollment, and the FTE derived from early college. For the purposes of the community college funding formula, FTE generated from a dual enrollment CTE course must be included in the calculation of CTE FTE and not in the concurrent enrollment or early college FTE categories.

(i) "FTE decrease funding factor" means a dollar figure for each year of the ensuing biennium that is determined by the legislature and must be specified in the appropriations act appropriating funds to the community colleges for each biennium.

(j) "FTE increase funding factor" means a dollar figure for each year of the ensuing biennium that is determined by the legislature and must be specified in the appropriations act appropriating funds to the community colleges for each biennium.

(k) "FTE weighting factor" means a multiplier that is applied to changes in resident FTE in each of the FTE categories and that is determined by the legislature and must be specified in the appropriations act appropriating funds to the community colleges for each biennium.

(l) "General education FTE" means the FTE derived from nondual enrollment students in courses determined by the commissioner of higher education to not be career and technical education, based on national standard course classifications.

(m) "Inflationary factor" means the percentage calculated pursuant to 20-9-326, not to exceed 3% and subject to final determination by the legislature as specified in the appropriations act appropriating funds to the community colleges for each biennium.

(n) "Weighted FTE" means, for each FTE category, the FTE in that FTE category multiplied by the corresponding FTE weighting factor.

(2) It is the intent of the legislature that all community college spending, other than from restricted funds, designated funds, or funds generated by an optional, voted levy, be governed by the provisions of this part and the state general appropriations act.

(3) The state general fund appropriation for each community college must be determined as follows:

(a) For the first year of the next biennium, multiply the adjusted base by the inflationary factor for the first year of the next biennium, and to this number for each FTE category add the result of multiplying:

(i) any change in the projected weighted FTE changes for the first year of the next biennium from the actual weighted FTE in the base year; and

(ii) the FTE decrease funding factor or the FTE increase funding factor as appropriate for the first year of the next biennium.

(b) For the second year of the next biennium, multiply the adjusted base by the inflationary factor for the first year of the next biennium, multiply this result by the inflationary factor for the second year of the next biennium, and to this number for each FTE category add the result of multiplying:

(i) any change in the projected weighted FTE changes for the second year of the next biennium from the actual weighted FTE in the base year; and

(ii) the FTE decrease funding factor or the FTE increase funding factor as appropriate for the second year of the next biennium.

(i) divide the total adjusted base of all community colleges by the total FTE of all community colleges in the base year;

(ii) multiply the result of subsection (2)(a)(i) by the inflationary factor for the second year of the current biennium and then multiply by the inflationary factor for the first year of the ensuing biennium; and

20-15-323. Definition of emergency for budgeting purposes. As used in this chapter, unless the context clearly indicates otherwise, the term "emergency" for the purpose of community college budgeting means:

(1) the destruction or impairment of any community college district property necessary to the maintenance of the district, by fire, flood, storm, riot, insurrection, or act of God, to an extent rendering the property unfit for its present use;

(2) a judgment for damages against the district issued by a court after the adoption of the budget for the current year;

(3) an enactment of legislation after the adoption of the budget for the current year that imposes an additional financial obligation on the district; or

(4) any other reason of similar consequence that has been approved by the board of regents upon petition by the trustees of the district.

History: En. Sec. 51, Ch. 767, L. 1991.

20-15-324. Resolution for emergency budget — petition to board of regents. (1) Whenever the trustees of a community college district decide that an emergency exists, they may adopt a resolution proclaiming the emergency by a unanimous vote of all members present at any meeting for which each trustee has been given reasonable notice of the time and place of holding the meeting. The emergency resolution must also state the facts constituting the emergency, the estimated amount of money required to meet the emergency, the funds affected by the emergency, and the time and place the board will meet for the purpose of considering and adopting an emergency budget for the funds for the current school fiscal year.

(2) If the trustees decide that an emergency exists for any reason other than the conditions specified in 20-9-161(1) through (3), they shall petition the board of regents for permission to adopt a resolution of emergency. The petition must set forth in writing the reasons for the request, the district funds affected by the emergency, the estimated amount of money required to meet the emergency for each affected fund, the anticipated sources of financing for the emergency expenditures, and any other information required by the board of regents. The petition must be signed by each trustee.

(3) The board of regents shall promptly approve or disapprove the petition requesting approval to adopt a resolution of emergency. If the petition is approved, the trustees may adopt a resolution of emergency and take all other steps required for the adoption of an emergency budget. Approval of a petition by the board of regents authorizes the board of trustees to initiate emergency budget proceedings by resolution and does not relieve the trustees of the necessity of complying with the requirements of the emergency budgeting laws.

History: En. Sec. 52, Ch. 767, L. 1991.

20-15-325. Emergency budget limitation, preparation, and adoption procedures. (1) The meeting of the trustees of a community college district to consider and adopt an emergency budget must be open to the public, and any taxpayer in the district has the right to appear and be heard. If at the meeting a majority of the trustees present find that an emergency exists, the trustees may make and adopt a preliminary emergency budget, on the regular budget form, setting forth fully the facts constituting the emergency. In adopting the preliminary emergency budget, the trustees may budget for any fund that was included on the final budget of the district for the current fiscal year. The budget must be itemized to show the amount appropriated for each item as required on the budget form.

(2) When the emergency is the result of increased enrollment, the maximum amount of the emergency budget for all funds must be determined by budget amendment.

(3) If another type of emergency occurs, the budget must be limited to the expenditures considered by the trustees to be reasonable and necessary to finance the conditions of the emergency, and the preliminary emergency budget must include the details of the proposed expenditures.

(4) After a majority of the trustees have voted to adopt the emergency budget, it must be signed by the presiding officer of the trustees and the clerk of the district and copies must be sent to the county superintendent and the board of regents.

20-15-326. Determination of available financing — fixing and levying property taxation for emergency budget. (1) After the last day of the fiscal year for which an emergency budget has been adopted, the board of trustees shall determine the amount of the cash balance that is available to finance the emergency budget's outstanding warrants or registered warrants for each fund included on the emergency budget. The available amount of the cash balance of each fund must be determined by deducting from the county treasurer's yearend cash balance for the fund the outstanding warrants or registered warrants issued under the regularly adopted final budget for the fund and the cash reserve for the fund that the trustees have established, within the limitations of law, for the following fiscal year.

(2) The county treasurer shall prepare and deliver a statement on the financial cash status of each fund included on an emergency budget for a district that had an emergency budget during the preceding year to the board of county commissioners by the first Monday in August. The statement for each district emergency budget must include:

(a) the total amount of emergency warrants that are registered against each fund of the district; and

(b) the additional amount of money that is required to finance the registered warrants and interest on the warrants and that must be raised by a tax levy.

(3) For each fund of the emergency budget of each district requiring a tax levy as established by subsection (2)(b), the board of county commissioners shall at the time all other district and county taxes are fixed and levied, levy a tax on the taxable value of all taxable property of each applicable district that will raise sufficient financing to pay the amount established by the county treasurer.

(4) exercise full control and complete management of the facilities;

(5) rent the facilities to other public or private persons, firms, and corporations for uses, at times, for periods, and at rates that in the board of trustees' judgment will be consistent with the full use of the facilities for academic purposes and will add to the revenue available for capital costs and debt service;

(6) do all things necessary to plan for and propose financing, including all necessary loan applications, for:

(a) classroom, laboratory, library, bookstore, and other instructional facilities;

(b) office, recordkeeping, storage, equipment maintenance, and other administrative and operational facilities;

(7) borrow money for any purpose stated in this section, including, if considered desirable by the board of trustees, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(8) make purchases on a time or installment basis;

(9) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(10) pledge for the payment of the purchase price of a facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(a) the net income received from rents, board, or both in housing, food service, and other facilities;

(b) receipts from student building, activity, union, and other special fees prescribed by the board of trustees for all students;

(c) other income in the form of:

(i) gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;

(11) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, including land; and

(12) issue and sell or exchange bonds for the refunding of any outstanding bonds or other obligations issued for revenue-producing facilities.

20-15-328. Adjustments based on actual weighted FTE — special revenue account — statutory appropriation — annual transfer. (1) There is a community college FTE adjustment account in the state special revenue fund provided for in 17-2-102. The account is statutorily appropriated, as provided in 17-7-502, to the commissioner of higher education for the purposes described in this section.

(2) Beginning at the end of fiscal year 2025, at the end of each fiscal year the commissioner of higher education, utilizing the FTE decrease funding factor and the FTE increase funding factor as appropriate, shall determine the fiscal impacts resulting from the weighted FTE projections on which that fiscal year's state appropriation to a community college was based, pursuant to 20-15-310, and the fiscal impacts that would have resulted had the actual weighted FTE for that fiscal year been used to determine that fiscal year's state appropriation and shall determine any overpayment or underpayment to the community college for that fiscal year.

(3) At the end of each fiscal year, the commissioner shall calculate the underpayment or overpayment determined under subsection (2) and:

(a) the commissioner shall distribute any underpayment determined under this subsection (3) to a community college from the community college FTE adjustment account by July 15 of the current calendar year; or

(b) a community college receiving a overpayment determined under this subsection (3) shall pay a fee equal to the overpayment to the commissioner by July 15 of the current calendar year for deposit in the community college FTE adjustment account.

(4) (a) By August 1 each year, after overpayments have been received and underpayments have been made, any funds remaining in the account must be transferred into the general fund.

(b) If the amount of underpayments exceeds the amount of overpayments, the state treasurer shall transfer the difference of the payments from the general fund to this account for providing underpayments pursuant to subsection (3).

20-25-307. Disposition of land. (1) The board of regents may sell, exchange, and lease land and grant easements and licenses on land that is held or administered by the board of regents or the system and that is held by the state for the use and benefit of the board of regents or the system.

(2) The board of regents may not grant an estate or interest in land that was granted to the state in trust for the support and benefit of the system.

(3) In disposing of any estate or interest in land pursuant to subsection (1), the board of regents shall obtain consideration that equals or exceeds the full market value of the land. For sales and exchanges, full market value must be determined by the board of regents after an appraisal by a certified or licensed appraiser. If the appraiser determines that the valuation is not complicated and estimates, based on available data, that the full market value of the property is $10,000 or less, the board of regents may use a restricted or limited appraisal.

(4) Before approving an exchange of land, the board of regents shall give the public notice of the proposed exchange and an opportunity to comment. The board of regents shall, upon request of any person, hold a public hearing in the area where the state land to be conveyed

is located. Subject to subsection (6), the board of regents may, after review of the comments, approve the exchange if it determines that the exchange is in the best interests of the system.

(5) Prior to the sale of land, the board of regents shall prepare a request for proposals to purchase the land and publish public notice of the sale once a week for 4 consecutive weeks in a newspaper of general circulation published in the county where the land is situated. If a newspaper is not published in that county, notice must be published in any newspaper of general circulation in that county. The notice must describe the land to be sold, the appraised value of the land, the procedure by which persons may obtain the request for proposals, the terms and conditions of sale, and the criteria upon which each proposal will be evaluated. The sale procedure must provide reasonable opportunity for members of the public to submit proposals to purchase the land. The board of regents may sell the land only if it determines that the sale is in the best interests of the system. If the board of regents sells the land, the sale must be to the offeror whose proposal the board determines to be the most advantageous to the system, taking into consideration the price and the other evaluation criteria listed in the request for proposals.

(6) (a) The board of regents may sell or exchange the land only if the board of regents first:

(i) requests and obtains the written concurrence of the board of land commissioners;

(ii) provides proof that no use restrictions, encumbrances, or other conditions have been placed by the board of regents on the land proposed for sale or exchange that prevent the state from obtaining full market value for the land, taking into consideration the price and the other evaluation criteria listed in the request for proposals;

(iii) complies with the requirements of the Montana Environmental Policy Act provided in Title 75, chapter 1, parts 1 through 3; and

(iv) complies with the requirements of Montana antiquities laws provided in Title 22, chapter 3, part 4.

(b) The board of land commissioners may refuse to concur if it determines that:

(i) the sale or exchange does not return to the state full market value;

(ii) the evaluation criteria in the request for proposals or the sale procedure and proposal selection process did not provide the public with a reasonable opportunity to submit proposals to purchase the land or to have reasonable proposals selected;

(iii) the sale or exchange is not in the best interests of the state; or

(iv) the system has not complied with the requirements of subsections (6)(a)(ii) through (6)(a)(iv).

(7) After obtaining written concurrence of the board of land commissioners required in subsection (6), the board of regents shall convey the land by deed, executed by the presiding officer of the board or other person designated by the board, without covenants of warranty.

(a) borrow money for any purpose or purposes stated in parts 3 and 4 of this chapter, including, if considered desirable by the regents, the payment of interest on the money borrowed for a facility during the construction of the facility and for 1 year after construction and the creation of a reserve for the payment of bond principal and interest;

(b) make purchases on a time or installment basis;

(c) issue bonds, notes, and other securities, negotiable or otherwise, secured as provided in this section, including bearer bonds with appurtenant interest coupons, which must be fully negotiable notwithstanding any limitation on the source of payment of the bonds, notes, or securities, or fully registered bonds or bonds registered as to ownership of principal only;

(d) pledge for the payment of the purchase price of any facility or of the principal and interest on bonds, notes, or other securities authorized in this chapter or otherwise obligate:

(i) the net income received from rents, board, or both in housing, food service, and other facilities;

(ii) receipts from student building, activity, union, and other special fees prescribed by the regents for all students; and

(iii) (A) other income in the form of gifts, bequests, contributions, or federal grants of funds, including the proceeds or income from grants of lands or other real or personal property;

(B) receipts from athletic and other contests, exhibitions, and performances; and

(C) collections of admissions and other charges for the use of facilities, including all use by other persons, firms, and corporations for athletic and other contests, exhibitions, and performances and for the conduct of their business, educational, or governmental functions;

(e) make payments on loans or purchases from any other available income not obligated for those purposes, including receipts from sale of materials, equipment, and fixtures of the facilities or from sales of the facilities themselves, other than land;

(f) secure any bonds authorized under this section by a trust indenture between the regents and any bank or trust company within or outside of the state of Montana or by a resolution establishing covenants of the regents with the holders of the bonds relating to:

(i) the construction, operation, use, and insurance of the facilities;

(ii) the segregation, expenditure, and audit of accounts of the bond proceeds and of the income pledged;

(iii) the establishment and collection of rents, charges, admissions, and fees sufficient to provide net income adequate for prompt payment of principal and interest on bonds and creation and maintenance of reserves for that purpose; and

(iv) other matters that the regents may determine to be necessary or desirable for the security and marketability of the bonds;

(g) subject to the following provisions, issue and sell or exchange bonds, secured as provided in this section, for the refunding of any outstanding bonds or other obligations issued by the regents:

(i) refunding bonds may, with the consent of the holders of the bonds to be refunded, be exchanged at par plus accrued interest for all or part of the bonds or may be sold at a price not less than par plus accrued interest. They may be secured by a pledge of the same revenue as the bonds refunded or by a pledge of different or additional revenues received at the same unit of the university. This subsection (1)(g) may not require the holder of any outstanding bond to accept payment of the bond or the delivery of a refunding bond in exchange for the bond, except in accordance with the terms of the outstanding bond. Bonds may be issued to refund interest as well as principal actually due and payable if the revenue pledged for the bonds are not sufficient, but not to refund any bonds or interest due that can be paid from revenue then on hand.

(ii) refunding bonds may bear interest at a rate lower or higher than the bonds refunded by the refunding bonds if they are issued to refund matured principal or interest for the payment of which revenue on hand is not sufficient, for the purpose of releasing revenue required for payment of the outstanding bonds permitting the pledge of the revenue for the security of other bonds as well as the refunding bonds, subject to the rights of the holders of the outstanding bonds until those bonds are fully paid and redeemed. Except as authorized in the preceding sentence, refunding bonds may not be issued unless their average annual interest rate, computed to their stated maturity dates and excluding any premium from the computation, is at least 3/8 of 1% less than the average annual interest rate on the bonds refunded, computed to their respective stated maturity dates.

(iii) in any case in which refunding bonds are issued and sold 6 months or more before the earliest date on which all bonds refunded by the refunding bonds mature or are prepayable in accordance with their terms, the proceeds of the refunding bonds, including any premium and accrued interest, must be deposited in escrow with a suitable bank or trust company having its principal place of business within or outside of the state, which is a member of the federal reserve system and has a combined capital and surplus of not less than $1 million, and must be invested in the amount and in securities maturing on the dates and bearing interest at the rates that will be required to provide funds sufficient to pay when due the interest to accrue on each bond refunded to its maturity or, if it is prepayable, to the earliest prior date upon which the bond may be called for redemption from the proceeds of the refunding bonds and to pay and redeem the principal amount of each bond at maturity or, if prepayable, on that redemption date and any premium required for redemption on that date. The resolution or indenture authorizing the refunding bonds must irrevocably appropriate for these purposes the escrow fund and all income from the escrow fund and must provide for the call of all prepayable bonds in accordance with their terms. The securities to be purchased with the escrow funds must be limited to general obligations of the United States, securities for which principal and interest payments are guaranteed by the United States, and securities issued by the following United States government agencies, including only banks for cooperatives, federal home loan banks, federal intermediate credit banks, federal land banks, and the federal national mortgage association. The securities must be purchased simultaneously with the delivery of the refunding bonds.

(iv) revenue or other funds on hand in excess of the amount pledged by resolutions or indentures authorizing outstanding bonds for the payment of principal and interest currently due on the outstanding bonds and reserves securing the payment may be used to pay the expenses incurred by the regents for the purpose of refunding, including but without limitation the cost of advertising and printing refunding bonds, legal and financial advice and assistance in connection with refunding the bonds, and the reasonable and customary charges of escrow agents and paying agents. Revenue and other funds on hand, including reserves pledged for the payment and security of outstanding revenue bonds, may be deposited in an escrow fund created for the retirement of those bonds and may be invested and disbursed as provided in subsection (1)(g)(iii) to the extent consistent with the resolutions or indentures authorizing the outstanding bonds.

20-25-503. Presumptions and rules as to domicile. (1) Unless the contrary appears to the unit registering authority, it is presumed the domicile of a minor is that:

(a) of the parents or, if one of them is deceased or they do not share the same domicile, of the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides; or

(b) of the minor's guardian when the court appointing the guardian certifies that the primary purpose of the appointment is not to qualify the minor as a resident of this state.

(2) A resident student who marries a nonresident does not by that fact alone lose resident status for tuition and fee purposes for a period of 4 years after marriage.

(3) Residence is not lost because of relocation as a member of the armed forces of the United States.

(4) A new domicile is established by a qualified person if the person is physically present in Montana with no intention to acquire a domicile outside of Montana.

(5) Domicile is not lost by absence from Montana with no intention to establish a new domicile.

(6) Montana high school graduates who are citizens or resident aliens of the United States are resident students of the system for 4 consecutive years of attendance if:

(a) they apply for admittance to the system within 1 year after graduation; and

(b) their parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom they customarily reside has resided in Montana in one of the 2 years immediately preceding the graduation.

(7) Upon moving to Montana, an adult employed on a full-time basis within the state of Montana may apply for in-state tuition classification for the adult's spouse or any dependent minor child, or both. If the person meets the requirement of full-time employment within the

state of Montana and files for the payment of Montana state income taxes or files estimates of those taxes or is subject to withholding of those taxes and renounces residency in any other state and is not in the state primarily as a student, the person's spouse or any dependent minor child, or both, may at the next registration after qualifying be classified at the in-state rate so long as the person continues a Montana domicile. In the administration of this subsection, neither the full-time employee or spouse is eligible for in-state tuition classification if the primary purpose for coming to Montana was the education of the employee or spouse.

(8) A member of the Montana national guard as defined in 10-1-101 is presumed to be domiciled in the state for purposes of qualifying for in-state tuition classification for a postsecondary certificate or undergraduate, postgraduate, or professional degree program.

20-25-504. Evidence as to domiciliary intent — changes in status. (1) To determine the domicile of a person, the units of the system shall apply the following rules:

(a) Nonpayment of Montana income tax by a person whose income is sufficient to be taxed is highly persuasive evidence of non-Montana domicile.

(b) A person shall intend to establish a domicile in Montana.

(2) After registration, a student's classification for tuition and fee purposes remains unchanged in the absence of evidence to the contrary. A written statement of the evidence must be filed with the registering authority of the unit. Changes in classification must be in writing signed by the registering authority and take effect at the student's next registration.

(3) A minor shall qualify for a change in status only if the minor's parents or the parent having legal custody or, if neither parent has legal custody, the parent with whom the minor customarily resides or legal guardian or person having legal custody completes the requirements for establishing domicile.

(4) It is presumed a minor or adult registered as a full-time student at any unit is not qualified for a change in the person's dependent's classification for tuition and fee purposes unless the person completes 12 continuous months of residence while not attending a unit of the system or other institution of higher learning or while serving in the armed forces.

(5) Any student whose request for classification as a resident student is denied has the right of appeal to the executive secretary of the Montana university system. Immediately upon rejection and at the request of the student, the registering authority shall forward a copy of the authority's decision and a complete file on the student to the executive secretary. The executive secretary may accept other evidence of residence from either the student, the registering authority, or other interested persons. Within 30 days of the receipt of the decision of the registering authority, the executive secretary shall determine the resident status of the student and shall notify the student and the registering authority of the decision. The executive secretary's decision may be appealed to the regents if the regents agree to entertain an appeal.

This obligation must be observed by establishing procedures to safeguard the institution's activities that are necessary to protect the health, safety, and privacy of a person's residence and the privacy of the person's records. Intrusions by peace officers and other officials exercising responsibility for law enforcement must be governed by standards and procedures no less stringent than those applicable to intrusions on private quarters outside the institutions. (4) The commission shall submit a budget to the governor of each compacting state and territory at such time and for such period as may be required.

In conducting such studies, the

commission may confer with any national or regional planning body which may be established. The commission shall draft and recommend to the governors of the various compacting states and territories uniform legislation dealing with problems of higher education in the region.

20-25-1315. Legislative findings and purpose. (1) The legislature finds that:

(a) air ambulance services provide a necessary, and sometimes lifesaving, means of transporting Montanans experiencing health emergencies;

(b) Montanans desire adequate access to air ambulance services;

(c) in many cases the high charges assessed by out-of-network air ambulance services and limited insurer and health plan reimbursements have resulted in Montanans incurring excessive out-of-pocket expenses; and

(d) the federal Airline Deregulation Act preempts states from enacting any law related to a price, route, or service of an air carrier, which is interpreted as applying to air ambulance services.

(2) The purpose of 20-25-1315 through 20-25-1320 is to prevent Montanans from incurring excessive out-of-pocket expenses in out-of-network air ambulance situations in a manner that is not preempted by the Airline Deregulation Act.

History: **En. Sec. 1, Ch. 231, L. 2017.**

20-25-1316. Hold harmless. (1) If a covered person receives services from a non-Montana hospital-controlled out-of-network air ambulance service for an emergency medical condition, an insurer or health plan shall assume the covered person's responsibility, if any, for amounts charged in excess of allowed amounts for covered services and supplies, applicable copayments, coinsurance, and deductibles.

(2) An insurer or health plan that assumes a responsibility pursuant to subsection (1) shall notify the air ambulance service of that assumption no later than the date the insurer or health plan issues payment under subsection (4).

(3) If an air ambulance service receives notice pursuant to subsection (2), with the exception of amounts owed for applicable copayments, coinsurance, and deductibles, the air ambulance service may not:

(a) bill, collect, or attempt to collect from the covered person for the responsibility assumed under subsection (1);

(b) report to a consumer reporting agency that the covered person is delinquent on the responsibility assumed under subsection (1); or

(c) obtain a lien on the covered person's property in connection with the responsibility assumed under subsection (1).

(4) (a) An insurer or health plan is responsible for payment or denial of a claim within 30 days after receipt of a proof of loss, except as provided in 33-18-232(1). Within the timeframe provided in this subsection (4)(a), the insurer or health plan shall notify the covered person of the amount of deductible, coinsurance, or copayment that is the covered person's responsibility to pay.

(b) The insurer or health plan responsible under subsection (1) shall make payment based on:

(i) the billed charges of the air ambulance service;

(ii) another amount negotiated with the air ambulance service; or

(iii) the median amount the insurer or health plan would pay to an in-network air ambulance service for the services performed.

(5) If after payment is made under subsection (4) the insurer or health plan and air ambulance service dispute whether any further payment obligation exists, the insurer or health plan and air ambulance service shall enter into the dispute resolution process set forth in 20-25-1318 through 20-25-1320. After the independent dispute resolution process is exhausted, the aggrieved party may pursue any available remedies in a court of competent jurisdiction.

(6) For the purposes of this section:

(a) "emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity, including severe pain, so that a person who possesses knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in:

History: En. Sec. 2, Ch. 231, L. 2017.

20-25-1317. Disclosures by air ambulance service. An out-of-network nonhospital-controlled air ambulance service must disclose by July 1 of each year any relationships or financial arrangements with health care providers, insurers, or health plans. This includes but is not limited to employment arrangements, ownership interests, first call agreements, and board memberships. This information must be filed with the department of public health and human services and also posted prominently on the commissioner of insurance's website. The air ambulance service must ensure the continued accuracy of this information throughout the year by submitting written updates within 5 days of any changes to the information.

History: En. Sec. 3, Ch. 231, L. 2017.

20-25-1318. Independent dispute resolution. (1) If an insurer or health plan and air ambulance service enter into dispute resolution, the procedure in 20-25-1319 is to be used to determine the fair market price of the services that are the subject of the claim.

(a) bear its own attorney fees and costs incurred under the procedure provided in 20-25-1319; and

(b) equally bear all fees and costs of the independent reviewer.

(5) As used in this section, "fair market price" means the value of the services provided as determined by the independent reviewer based on the factors provided in 20-25-1319(6).

History: En. Sec. 4, Ch. 231, L. 2017.

20-25-1319. Independent dispute resolution procedure — exemptions. (1) To initiate a dispute resolution procedure under 20-25-1315 through 20-25-1320, the parties shall file a written notice of dispute with the insurance commissioner.

(2) Except as provided in subsection (3), within 30 days after the date of receipt of the notice of dispute, and if no independent reviewer is mutually agreed to by the insurer or health plan and air ambulance service under subsection (3), the insurance commissioner shall appoint an independent reviewer having the qualifications listed in 20-25-1320. The insurance commissioner shall select an independent reviewer randomly from a list established under 20-25-1320.

(3) The insurer or health plan and air ambulance provider may by mutual agreement select an independent reviewer. The parties shall notify the insurance commissioner of the mutually agreed independent reviewer prior to the appointment of an independent reviewer under subsection (2).

(4) An independent reviewer's sole substantive determination under this part is the fair market price of the services that are the subject of the claim.

(5) The independent reviewer may make procedural rulings necessary to regulate the proceedings.

(6) The factors to be used in the independent reviewer's determination are:

(a) the training, qualifications, and composition of the air ambulance service personnel;

(b) the fees for rotor wing or fixed wing services originating or provided entirely within the state of Montana that are:

(i) usually charged by the air ambulance service in Montana;

(ii) usually accepted as payment in full by the air ambulance service in Montana;

(iii) usually charged by other air ambulance services doing business in Montana;

Part 6
Interstate Library Compact

22-1-601. Library compact. The Interstate Library Compact is approved, enacted into law, and entered into by the state of Montana. The compact is in full as follows:

INTERSTATE LIBRARY COMPACT

Article I. Policy and Purpose

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis; and to authorize cooperation and sharing among localities, states, and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

Article II. Definitions

As used in this compact:

(1) "public library agency" means any unit or agency of local or state government operating or having power to operate a library;

(2) "private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library;

(3) "library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative furnishing of library services.

Article III. Interstate Library Districts

(1) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district may establish, maintain, and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities, and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(2) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(3) If a library agreement provides for joint establishment, maintenance, or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

(a) undertake, administer, and participate in programs or arrangements for:

(i) securing, lending, or servicing books and other publications, any other materials suitable to be kept or made available by libraries, or library equipment; or

(ii) for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof;

(b) accept for any of its purposes under this compact any and all donations and grants of money, equipment, supplies, materials, and services (conditional or otherwise) from any state or the United States or any subdivision or agency thereof or interstate agency or from any institution, person, firm, or corporation and receive, utilize, and dispose of the same;

(c) operate mobile library units or equipment for the purpose of rendering bookmobile service within the district;

(d) employ professional, technical, clerical, and other personnel and fix terms of employment, compensation, and other appropriate benefits; and where desirable, provide for the in-service training of such personnel;

(e) sue and be sued in any court of competent jurisdiction;

(f) acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service;

(g) construct, maintain, and operate a library, including any appropriate branches thereof;

(h) do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

Article IV. Interstate Library Districts, Governing Board

(1) An interstate library district which establishes, maintains, or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provision therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(2) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

Article V. State Library Agency Cooperation

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing, and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriate for central collection and shared use. Any such programs, services, or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district, and an agreement embodying any such program, service, or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

Article VI. Library Agreements

(1) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

(a) detail the specific nature of the services, programs, facilities, arrangements, or properties to which it is applicable;

(b) provide for the allocation of costs and other financial responsibilities;

(c) specify the respective rights, duties, obligations, and liabilities of the parties;

(d) set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(2) No public or private library agency shall undertake to exercise, itself or jointly with any other library agency, by means of a library agreement, any power prohibited to such agency by the constitution or statutes of its state.

(3) No library agreement shall become effective until filed with the compact administrator of each state involved and approved in accordance with Article VII of this compact.

Article VII. Approval of Library Agreements

(1) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of that state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the

conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within 90 days of its submission shall constitute approval thereof.

(2) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by the officer or it as to all matters within the officer's or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (1) of this article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorneys general.

Article VIII. Other Laws Applicable

Nothing in this compact or in any library agreement shall be construed to supersede, alter, or otherwise impair any obligation imposed on any library by otherwise applicable law nor to authorize the transfer or disposition of any property held in trust by a library agency in a manner contrary to the terms of such trust.

Article IX. Appropriations and Aid

(1) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(2) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

Article X. Compact Administrator

Each state shall designate a compact administrator with whom copies of all library agreements to which the administrator's state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon the administrator by the laws of that state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

Article XI. Entry into Force and Withdrawal

(1) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(2) This compact shall continue in force with respect to a party state and remain binding upon such state until 6 months after such state has given notice to each other party state of the repeal thereof. Such withdrawal shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

Article XII. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

Each petition must be signed by not less than 15% of the qualified electors of the territory within the county proposed for inclusion in the district.

(4) Upon receipt of a petition to create a public library district, the county clerk shall examine the petition and within 15 days either reject the petition if it is insufficient under the provisions of subsection (1), (2), or (3) or certify that the petition is sufficient and present it to the county governing body at its next meeting.

The governing body of the city or county that established the public library shall hold a public hearing on the question of whether the territory served by the library should be included in the district. If the governing body determines that the territory served by the public library should be consolidated into the district, it shall adopt a resolution, following the public hearing, to that effect. If an election is not held, the county governing body shall declare elected by acclamation each candidate who filed a declaration of candidacy for a position. If a nomination petition is not filed for an office, the county governing body of the county conducting the election shall appoint a member to fill the term. A person appointed pursuant to this subsection has the same term and obligations as a person elected to fill the office.

(5) The term of office of an elected board member begins on the date that the board member is elected. The term of office of an elected member is 4 years, except that a simple majority of the members of the first elected board shall serve a term of 2 years, with the minority of the board serving terms of 4 years. The members serving 2-year terms must be selected by lot.

(ii) schedule and hold a public hearing on the plan; and

22-2-306. Grant conditions — additional funds — accounts and reports. (1) A grant may not be awarded unless the grantee accepts the Montana arts council's conditions of the grant and signs a contract stipulating those conditions.

(2) A grantee must agree in writing that:

(a) the grantee is the official and sole agency for the administration of the project described in the grant agreement; and

(b) no person will, on the grounds of race, color, national origin, sex, as defined in 1-1-201, or age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity that results from the expenditure of grant funds.

(3) The grantee must agree that the funds granted will be expended solely for the purpose and activities described in the approved proposal. All funds granted to the grantee must be spent or encumbered during the grant period.

(4) Disbursements to grantees must be as follows, based upon the cash flow needs of the projects and the revenues available:

(a) Projects that are to receive more than $10,000 may receive an amount not exceeding 25% of the grant award in the first 6 months of the biennium, 50% in the first year of the biennium, 75% in the first 18 months of the biennium, and the balance in the remainder of the biennium. Within the limitations contained in this subsection, the amount of each payment must be determined by the Montana arts council in its discretion. Each payment may be made only after an examination of the costs incurred in the project and the amount, if any, of the unencumbered or unexpended balance of prior grant payments for the project.

(b) Projects that are to receive $10,000 or less may receive the total grant in any fiscal quarter if the Montana arts council determines that the cultural and aesthetic project account has funds available and that, after an examination of the costs incurred by the project, total payment is appropriate.

(c) A grant award budget may be modified in accordance with this subsection. A grantee may modify line items in an approved budget in an amount not to exceed 10% of the total grant award. A grantee may, with permission of the Montana arts council, modify line items in an approved budget in an amount not to exceed 20% of the total grant award. A modification may not increase the grant award or change the scope or purpose of the award.

(5) The grantee must maintain accounts, records, and other pertinent material pertaining to the costs incurred and expenditures made under the grant. The system of accounting employed by the grantee must be in accordance with generally accepted accounting principles and be applied in a consistent manner so that project costs and expenditures can be clearly identified. Accounts, records, and other pertinent material must be maintained for 3 years from the official termination date of the grant period or until an audit, approved by the council, has been completed and any questions arising from the audit have been resolved to the satisfaction of the council.

(6) Grantees must submit to the council semiannual reports of expenditures during the course of the project and other financial and descriptive reports that the council may require. The grantee must submit, within 30 days after completion of the project, a final financial report and a narrative report stating what was accomplished with the grant. Five percent of the total grant award must be held pending receipt of final reports by the council. With regard to grantees who in the past have submitted late reports, 30% of the grant award may be held pending receipt of final reports by the council.

(7) The council may, at the principal place of business of the grantee and during regular business hours, examine any directly pertinent records, accounts, and documents of the grantee involving transactions related to the grant.

A grant for a facility owned by a county or municipality but operated by a nonprofit organization is expected to have financial support from the county or municipality, but must have, at a minimum, in-kind support for the facility from the county or municipality. The grant application form, which must be prescribed by the Montana arts council, must request specific information about the level of local support for the project and the facility.

(d) challenge grants for permanent endowments to benefit cultural nonprofit grant recipients.

(2) The Montana arts council may require a match in cash or donated services for special project and operational support grants. The Montana arts council may accept matches in excess of the presumed value or may in its discretion require a lesser amount.

(3) Capital expenditures may not exceed 25% of the total grant funds appropriated. Capital expenditure grants require a match of at least $3 in cash or donated goods and services, which goods and services must be donated specifically for the capital expenditure project, to receive each dollar of grant funds.

(c) third priority will be given to applicants who have received two grant awards in the previous three funding cycles; and

(d) fourth priority will be given to applicants who have received three grant awards in the previous three funding cycles; and

(2) the size of an applicant's annual operating budget, for which:

(a) first priority will be given to applicants whose total annual operating budget is less than $99,999;

(b) second priority will be given to applicants whose total annual operating budget ranges between $100,000 and $249,999;

(c) third priority will be given to applicants whose total annual operating budget ranges between $250,000 and $499,999; and

(d) fourth priority will be given to applicants whose total annual operating budget is equal to or greater than $500,000.

(3) Between each funding cycle, the committee, in consultation with the budget director, shall increase the budget limits established in subsection (2) to account for inflation.

22-2-501. Definitions. As used in this part, unless the context requires otherwise, the following definitions apply:

(1) "Art dealer" means a person engaged in the business of selling works of fine art, other than a person exclusively engaged in the business of selling goods at public auction.

(2) "Artist" means a person who creates a work of fine art or, if the person is deceased, the person's heir, devisee, or personal representative.

(3) "Consignment" means that no title to, estate in, or right to possession of fine art superior to that of the consignor vests in the consignee, notwithstanding the consignee's power or authority to transfer and convey to a third person all of the right, title, and interest of the consignor in and to such fine art.

(4) "Fine art" means a painting, sculpture, drawing, work of graphic art (including an etching, lithograph, signed limited edition offset print, silk screen, or a work of graphic art of like nature), a work of calligraphy, photographs, original works in ceramics, wood, metals, glass, plastic, wax, stone, or leather, or a work in mixed media (including a collage, assemblage, or any combination of the art media mentioned in this subsection).

(5) "Person" means an individual, partnership, corporation, association, or other group, however organized.

History: En. Sec. 1, Ch. 534, L. 1985.

22-2-502. Artist-art dealer relationship. Notwithstanding any custom, practice, or usage of the trade to the contrary, whenever an artist delivers or causes to be delivered a work of fine art of the artist's own creation to an art dealer in this state for the purpose of exhibition and sale on a commission, fee, or other basis of compensation, the delivery to and acceptance of such work of fine art by the dealer constitutes a consignment, unless the delivery to the art dealer is pursuant to an outright sale for which the artist receives upon delivery or has received prior to delivery full compensation for the work of fine art.

History: **En. Sec. 2, Ch. 534, L. 1985.**

22-2-503. Agency relationship — trust property. A consignment of a work of fine art results in the following:

(1) The art dealer, after delivery of the work of fine art, is an agent of the artist for the purpose of sale or exhibition of the consigned work of fine art within the state of Montana. This relationship must be defined in writing and renewed at least every 3 years by the art dealer and the artist. It is the responsibility of the artist to identify clearly the work of art by securely attaching identifying marking to or clearly signing the work of art.

(2) The work of fine art constitutes property held in trust by the consignee for the benefit of the consignor and is not subject to claim by a creditor of the consignee.

(3) The consignee is responsible for the loss of or damage to the work of fine art while in the possession of or on the premises of the consignee.

(4) The proceeds from the sale of the work of fine art constitute funds held in trust by the consignee for the benefit of the consignor. The proceeds must first be applied to pay any balance due to the consignor, unless the consignor expressly agrees otherwise in writing.

A work of fine art received as a consignment remains trust property, notwithstanding the subsequent purchase thereof by the consignee directly or indirectly for the consignee's own account, until the price is paid in full to the consignor. If the work is resold to a bona fide purchaser before the consignor has been paid in full, the proceeds of the resale received by the consignee constitute funds held in trust for the benefit of the consignor to the extent necessary to pay any balance due to the consignor and the trusteeship continues until the fiduciary obligation of the consignee with respect to the transaction is discharged in full.

History: **En. Sec. 4, Ch. 534, L. 1985.**

22-3-428. Heritage property — procedures and guidelines required. The historic preservation officer shall adopt standardized procedures and guidelines for inventorying, collecting data on, documenting, and evaluating all types of heritage property. In adopting the standardized procedures and guidelines, the historic preservation officer may consult with state and federal agencies experienced in reviewing and mitigating environmental and cultural impacts caused by development of properties.

History: En. Sec. 4, Ch. 343, L. 1995.

22-3-429. Requests for consultation — public notice — appeal of findings. (1) A federal or state entity that acts upon a proposed federal or state action or an application for a federal, state, or local permit, license, lease, or funding may request the views of the historic preservation officer concerning:

(a) the recommended eligibility for a register listing of any heritage property or paleontological remains;

(b) the effects of a proposed action, activity, or undertaking on heritage property or remains that are found to be eligible for register listing; and

(c) the appropriateness of a proposed plan for the avoidance or mitigation of effects.

(2) A request for comment pursuant to 16 U.S.C. 470f may be made simultaneously with a request pursuant to subsection (1). The historic preservation officer shall respond in writing to a request within 30 calendar days of receiving the request and shall address each property in the request and each topic of the request. In the event that an agency requests simultaneous consultation for two or more criteria under this section, the agency and historic preservation officer may extend the 30-day review period by mutual agreement. If the historic preservation officer fails to comment within that time, that failure is construed as concurrence with the agency's recommendation. In the event of failure to comment on a specific undertaking, the historic preservation officer may not change a finding for a heritage property at a later date.

(3) If the proposed finding is that a heritage property or paleontological remains are involved and that a proposed activity will have an adverse impact on the property or remains, the proposed finding must address all properties or remains involved and describe the characteristics that illustrate the qualities that make the property or remains eligible for inclusion in the register. If the proposed finding includes a conclusion that a property or remains may be eligible but additional information or study is needed to reach an eligibility finding, the finding must specify the type and amount of information required in accordance with standards and guidelines as provided in 22-3-428.

(4) At the time that the state or federal agency requests the views of the historic preservation officer as provided in subsection (1), the agency shall provide notice to the applicant, affected property owners, and other interested persons of the request for consultation and shall identify locations where the submitted materials may be reviewed.

(5) The applicant and any affected property owners have 20 days in which to appeal the historic preservation officer's finding to the director. The appeal notice must include a written statement of reasons for the appeal and any additional supporting information.

(6) The director of the historical society shall issue a final finding within 30 days of the expiration of the 20-day appeal period provided for under subsection (5). The issuance of this finding does not limit the rights of any applicant or affected property owner to challenge a finding under an existing federal law, regulation, or regulatory or administrative process.

(7) If the applicant or an affected property owner is not satisfied with the finding of the director of the historical society concerning the eligibility of the property or remains for listing in the register or a finding of adverse effect to the property, the entity or property owner may appeal the finding to the district court in a county in which affected property is located. Appeal may be taken by filing a petition with the district court citing the decision by the director of the historical society and the evidence upon which the director relied. On appeal, the district court may consider any documents supporting or not supporting the finding, the written comments received by the director of the historical society, and any additional evidence that may be submitted to the court. The district court may substitute its judgment for the judgment of the director of the historical society as to the weight of the evidence.

(8) A state agency may not require a historical or archaeological survey as a condition of applying for or receiving a state or local permit, license, lease, or funding for a project to reconstruct or maintain an irrigation ditch or appurtenant structures or equipment when the ditch or appurtenant structures or equipment are in use or have been in use within the past 10 years, if the reconstruction or maintenance will occur within the existing ditch easement and if the project is not on land owned by the state.

22-3-430. Avoidance and mitigation of impacts. (1) Avoidance of impacts to heritage property or paleontological remains is preferred. Avoidance may not be construed to constitute neglect of the property or anticipatory demolition.

(2) If it is not feasible to avoid impacts to heritage property or paleontological remains, a mitigation plan must be developed by the agency, in consultation with the applicant, to minimize

adverse effects to the property or remains. Mitigation must be directed at the characteristics of the property that make it eligible for listing in the register. If requested by the agency, the historic preservation officer shall identify suggested mitigation actions in writing at the time that the historic preservation officer submits a proposed finding under 22-3-429.

History: **En. Sec. 6, Ch. 343, L. 1995.**

22-3-431. Registration of heritage properties. (1) Any citizen of Montana may submit to the historic preservation officer for consideration the necessary forms to nominate heritage properties to the register.

(2) (a) For private properties, the historic preservation officer shall notify the owner of the property and allow the owner a reasonable period of time to concur or object to the nomination of the property for registration. If the owner of the property, or a majority of owners if the property has more than one owner, objects to registration, the historic preservation officer may not nominate the property unless the objection is withdrawn. If there are no objections, the historic preservation officer may, upon approval by the preservation review board, nominate heritage properties to the register.

(b) The historic preservation officer and the preservation review board may review the nomination of property that was not nominated because of owner objection to determine whether the property is eligible for registration. If the historic preservation officer and the preservation review board determine that the property is eligible for registration, the preservation officer shall provide for the register information about the property for determination of registration eligibility.

(c) The historic preservation officer shall follow the procedures mandated by 36 CFR 60.6 relating to seeking property owner concurrence or objection to registration.

(3) For lands owned by the state, a county, or a municipality, the historic preservation officer may, upon approval by the preservation review board, nominate heritage properties to the register. The historic preservation officer shall notify the appropriate governmental agency and give public notice when any governmental property is being considered for nomination. Unless agency or public objections are submitted in writing within 30 days after notification, the historic preservation officer shall complete the nominations. When an agency or any citizen of Montana submits written objections, the historic preservation officer shall consider the objections and may conduct a public hearing. If a hearing is held, it must be commenced within 30 days after the final date for submission of written objections. Within 60 days after submission of the objections or after the public hearing, the historic preservation officer shall make a final decision on the proposed registration and prepare a statement responsive to the objections submitted.

22-3-432. Antiquities permits. (1) A person may not excavate, remove, or restore any heritage property or paleontological remains on lands owned by the state without first obtaining an antiquities permit from the historic preservation officer.

(2) Antiquities permits are to be granted only after careful consideration of the application for a permit and after consultation with the appropriate state agency. Permits are subject to strict compliance with the following guidelines:

(a) Antiquities permits may be granted only for work to be undertaken by reputable museums, universities, colleges, or other historical, scientific, or educational institutions, societies, or persons with a view toward dissemination of knowledge about cultural properties, provided a permit may not be granted unless the historic preservation officer is satisfied that the applicant possesses the necessary qualifications to guarantee the proper excavation of those sites and objects that may add substantially to knowledge about Montana and its antiquities.

(b) The antiquities permit must specify that a summary report of the investigations, containing relevant maps, documents, drawings, and photographs, must be submitted to the historic preservation officer. The historic preservation officer shall determine the appropriate time period allowable between all work undertaken and submission of the summary report.

(3) All heritage property and paleontological remains collected under an antiquities permit are the permanent property of the state and must be deposited in museums or other approved institutions within the state or may be loaned to qualified institutions outside the state. These procedures must consider the needs of approved in-state museums or institutions that are most proximate to excavation. For fossils that do not meet scientific criteria as significant, approval may not be unreasonably withheld.

(4) An antiquities permit is not a substitution for any other type of permit that a state agency may require for other purposes.

22-3-433. Environmental review process. (1) Each state agency responsible for the preparation of an environmental impact statement in accordance with the Montana Environmental Policy Act shall, as a part of its evaluation and study process, consult with and obtain the comments of the historic preservation officer concerning the identification and location of heritage properties and paleontological remains on lands owned by the state that may be adversely impacted by the proposed action. However, where the grant of an interest in state land requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, the environmental impact statement shall be limited to an evaluation of the heritage properties and paleontological remains located in, on, under, and within only the affected state land.

(2) When heritage properties and paleontological remains are located and identified as described in subsection (1), the responsible state agency, in consultation with the historic preservation officer and the preservation review board, shall include as part of its environmental impact statement a plan for the avoidance or mitigation of damage to heritage properties and paleontological remains to the greatest extent practicable. Whenever necessary or appropriate, the state agency may require an applicant for a lease, permit, license, or other approval for use of land owned by the state to develop an avoidance or mitigation plan in consultation with the historic preservation officer and the preservation review board.

(2) "Museum" means an institution located in Montana and operated by a nonprofit corporation or a public agency primarily for educational, scientific, or aesthetic purposes, and that owns, borrows, or cares for and exhibits, studies, or catalogs property.

(3) "Property" includes any tangible object, animate or inanimate, that has intrinsic historic, artistic, scientific, or cultural value.

History: En. Sec. 3, Ch. 630, L. 1985.

22-3-504. Loans for an indefinite term. (1) If a museum accepts a loan of property for an indefinite term or for a term longer than 7 years, the museum must inform the lender in writing at the time of the loan of the provisions of this part.

(2) For the purposes of this part, a loan for a specified term becomes a loan for an indefinite term if the property remains in the custody of the museum after the specified term expires.

History: En. Sec. 4, Ch. 630, L. 1985.

22-3-505. Manner of giving notice to lender. When the provisions of this part require a museum to give notice to a lender, the museum is considered to have given notice if the museum mails the notice to the lender at the lender's address and proof of receipt is received by the museum within 30 days from the date the notice was mailed. If the museum does not have a current address for the lender or if proof of receipt is not received by the museum, notice is considered given if the museum publishes it at least once a week for 3 consecutive weeks in a newspaper of general circulation in both the county in which the museum is located and the county of the lender's most recent address as shown on the museum's records.

History: En. Sec. 5, Ch. 630, L. 1985.

22-3-506. Notice of intent to preserve interest. (1) The owner of property on loan to a museum may file with the museum a notice of intent to preserve an interest in the property. This notice must be in writing and must contain a description of the property adequate to enable the museum to identify the property.

(2) The filing of a notice of intent to preserve an interest in property on loan to a museum does not validate or make enforceable any claim that would be extinguished under the terms of a written loan agreement or that would otherwise be invalid or unenforceable.

(3) (a) Unless the loaned property is returned to the claimant, the museum shall retain for not less than 25 years the original or an accurate copy of any notice filed by a claimant under this section.

(b) The fact that the museum retains a notice may not be construed to mean that the notice is sufficient or accurate or that it is effective to preserve an interest in property on loan to the museum.

(4) A notice of intent to preserve an interest in property on loan to a museum satisfies the requirements of subsection (1) if it is in substantially the following form and contains the information and attachments described:

22-3-508. Conservation or disposal of loaned property. (1) Unless there is a written loan agreement to the contrary, a museum may apply conservation measures to or dispose of property on loan to the museum without the lender's permission if immediate action is required to protect the property on loan or other property in the custody of the museum or if the property on loan has become a hazard to the health and safety of the public or the museum staff and:

(a) the museum is unable to reach the lender at the lender's last address of record; or

(b) the lender will not agree to the protective measures the museum recommends, yet is unwilling or unable to terminate the loan and retrieve the property.

(2) If a museum applies conservation measures to or disposes of property under the provisions of this section, the museum:

(a) has a lien on the property and on the proceeds of any disposition thereof for the costs incurred by the museum; and

(b) is not liable for injury to or loss of the property if it:

In addition, it must include a statement containing substantially the following information:

The records of ....

(2) No action may be brought against a museum to recover property on loan if more than 3 years have passed from the date the museum gave the lender notice of its intent to terminate the loan as provided in 22-3-510.

(3) No action may be brought against a museum to recover property on loan if more than 25 years have passed from the date of the last written contact between the lender and the museum, as evidenced in the museum's records.

(4) A lender is considered to have donated loaned property to the museum if the lender fails to file an action to recover the property on loan to the museum within the periods specified in subsections (1) through (3).

(5) A person who purchases property from a museum acquires good title to the property if the museum has acquired title to the property pursuant to subsection (4).

(6) Notwithstanding subsections (3) and (4), a lender who was not given notice that the museum intended to terminate a loan and who proves that the museum received a notice of intent to preserve an interest in loaned property within the 25 years immediately preceding the

filing of an action to recover the property may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at 10% a year.

(2) encourage the participation of Montana citizens and groups in the local management, on a nonprofit basis, of historic sites and buildings through the donation of time, materials, and resources toward the restoration and preservation of these properties;

(3) remove unnecessary barriers to the efficient and cost-effective management of historic sites and buildings by qualified and responsible local nonprofit corporations as contracted managers; and

(4) retain state ownership of historic sites and buildings and state control over decisions concerning their historic integrity and preservation so that the citizens of the state may realize the greatest benefits available from each property.

History: **En. Sec. 2, Ch. 261, L. 1989.**

22-3-603. Management of historic sites and buildings — contracts. Part Cross-References

Repatriation of human remains and funerary objects, Title 22, ch. 3, part 9.

22-3-801. Short title. This part may be cited as the "Human Skeletal Remains and Burial Site Protection Act".

History: En. Sec. 1, Ch. 748, L. 1991.

22-3-802. Legislative findings and intent. (1) The legislature of the state of Montana finds that:

(a) the state and its citizens have an obligation to protect from disturbance or destruction all human skeletal remains, burial sites, and burial material, including those in marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds located on state or private lands that are not protected as cemeteries or graveyards under existing state law;

(b) marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds not protected as cemeteries or graveyards under existing state law are increasingly subject to pilferage, disturbance, and destruction for commercial purposes, including land development, agriculture, mining, and the sale of artifacts;

(c) private collection of artifacts may result in the destruction of burial sites. Existing law reflects the value society places on preserving human burial sites, but the law does not clearly provide equal and adequate protection or incentives to ensure preservation and protection of all burial sites in the state regardless of ethnic origin, burial context, or age.

(d) while some human skeletal remains and burial sites may be of interest to science, the needs of the scientific community to gather information and material from burial sites must be balanced with the legal, moral, and religious rights and obligations of tribal groups, next of kin, or descendants;

(e) preservation in place is the preferred policy for all human skeletal remains, burial sites, and burial material; and

(f) notwithstanding any other provision of law, this part is the exclusive law governing the treatment of human skeletal remains, burial sites, and burial materials.

(2) It is the intent of the legislature to:

(a) ensure that all burials be accorded equal treatment and respect for human dignity without reference to ethnic origin, cultural background, or religious affiliation;

(b) provide adequate protection for all interests related to any burial site encountered during archaeological excavation or agricultural, mining, construction, or other ground-disturbing activity on state and private lands without causing avoidable or undue delay or hardship for any person who has an interest in using the land on which the burial site is located;

(c) recognize the interests, concerns, and obligations of those having a kinship, tribal, cultural, or religious affiliation with the burial site and balance those interests against the interests of scientists, landowners, and developers;

(d) provide to the board an exemption from the open meeting and public records laws when public disclosure of the location of a burial site could result in pilferage, disturbance, or destruction of the site; and

(e) recognize the need for forensic examination of human skeletal remains, burial sites, and burial material if the county coroner, county attorney, or state medical examiner determines an examination is necessary under state law.

History: En. Sec. 2, Ch. 748, L. 1991.

2025 Amendment: See 2025 Session Law for amendment made by sec. 2, Ch. 330, L. 2025. Amendment effective July 1, 2025.

22-3-805. Discovery — reporting requirements — field review. (1) A person who by archaeological excavation or by agricultural, mining, construction, or other ground-disturbing activity discovers human skeletal remains, a burial site, or burial material shall immediately notify the county coroner. Failure to notify the county coroner subjects a person to the penalty provided in 22-3-808.

(2) Upon discovery of human skeletal remains, a burial site, or burial material, excavation or further disturbance must cease until the coroner has determined whether the remains are subject to the provisions of Title 46, chapter 4, or any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death or whether a forensic examination of the human skeletal remains, burial site, or burial material is necessary. The coroner shall make a determination within 2 working days from the time the person responsible for the excavation notifies the coroner of the discovery or recognition of the remains. If the coroner cannot make the determination within 2 working days, the coroner shall notify a member of the board of the reason for and the approximate length of the delay. The coroner shall take all reasonable steps to make a determination without removing or causing further disturbance of the remains.

(3) If a forensic examination, action under Title 46, chapter 4, or action under any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death is necessary and yields evidence of criminal activity, the evidence may be seized by the coroner or law enforcement agency with jurisdiction for use in a criminal proceeding as provided by law.

(4) If the coroner determines that the remains are not subject to the provisions of Title 46, chapter 4, or any other provisions of law concerning the investigation of the circumstances, manner, and cause of death and that a forensic examination is not necessary, the coroner shall telephone the state historic preservation officer within 24 hours. Within 24 hours of notification, the state historic preservation officer shall contact either the landowner and the board or the landowner and the board member representing the nearest reservation and notify them of the discovery of human skeletal remains, a burial site, or burial material.

(5) If the state historic preservation officer cannot be contacted, the coroner shall notify a member of the board or the law enforcement agency of the nearest reservation within 24 hours. The board or the agency shall immediately notify the landowner and the board member representing that reservation.

(6) Within 36 hours after the board receives notification of a discovery of human skeletal remains, a burial site, or burial material, the board shall designate representatives to conduct,

with the permission of the landowner, an initial field review. If the field review cannot be completed within the next 36 hours, the board's representatives shall negotiate with the landowner or the landowner's representative for a reasonable time extension to complete the review. The field review must include:

(a) a determination of whether the site can be preserved;

(b) negotiation with the landowner concerning onsite reburial or disinterment and reburial; and

(c) a recommendation, including a timeframe, concerning final treatment or disposition of the human skeletal remains or burial material.

(7) If the board's representatives fail to make a recommendation or if the landowner and the board cannot agree and mediation fails to provide, within 40 days after notification to the board, a resolution acceptable to the landowner and the board, the human skeletal remains and burial materials must be removed and control is vested in the board. The board shall give control of the remains or materials in the following priority to:

(a) the descendants, if identifiable;

(b) the tribe or other cultural group that has the closest cultural affiliation with the human skeletal remains or burial materials;

(c) the tribe or other cultural group recognized as having aboriginally or historically occupied the area where the remains or materials were discovered if, upon notification by the board, the tribe or cultural group states a claim for the remains or materials; or

(d) if unclaimed by any tribe or cultural group, the board, which shall determine the appropriate disposition and oversee the reinterment of the remains and materials.

(8) For purposes of this section, "cultural group" means a present-day group or organization that has a relationship of shared group identity that can be reasonably traced historically or prehistorically to an identifiable earlier group or organization.

22-3-806. Scientific analysis — permit required. (1) Although onsite reburial is preferred, the board may, upon petition by a person seeking permission to perform scientific analysis, grant a permit for the scientific removal and analysis of human skeletal remains and burial material upon proof and determination by the board that the analysis is scientifically justifiable. A petition for a permit must include:

(a) payment of the nonrefundable application fee provided for in 22-3-804; and

(b) a brief narrative describing the methodology to be used, the timeframe needed to complete the scientific study, and any other information specifically requested by the board relating to the proposed study.

(2) The methodology proposed must be reviewed by the state historic preservation officer or the officer's designated representative and the physical anthropologist on the board, and a recommendation must be made to the full board. Once approved by the board, any change in methodology or in the timeframe must be approved by the board before the original timeframe expires. The timeframe for scientific study may not exceed 12 months from the date of issuance of the permit.

(3) A permit for scientific analysis issued by the board is subject to terms, conditions, and procedures prescribed by the board and must include the condition that a permittee shall pay all costs of excavation, study, and disposition.

(4) The board shall either issue or deny a permit within 30 working days from the date of the permit petition. If the board denies a permit upon a finding that scientific analysis is not justifiable, the board shall provide the applicant with a written statement outlining the grounds for its finding. The applicant may appeal the decision of the board under the provisions of Title 2, chapter 4, part 6, of the Montana Administrative Procedure Act.

(5) The board may suspend or revoke a permit pursuant to the Montana Administrative Procedure Act upon a finding that the permittee has violated any provision of this part or any term, condition, or procedure of a permit issued by the board.

(6) The provisions of this section do not apply to a forensic examination by the county coroner, action under Title 46, chapter 4, or action under any other related provisions of law concerning the investigation of the circumstances, manner, and cause of death.

Part 9
Repatriation of Human Remains and Funerary Objects

Part Cross-References

Human skeletal remains and burial site protection, Title 22, ch. 3, part 8.

22-3-901. Short title. This part may be cited as the "Montana Repatriation Act".

History: En. Sec. 1, Ch. 558, L. 2001.

22-3-902. Legislative findings and intent. (1) The legislature of the state of Montana finds that:

(a) since July 1, 1991, and passage of the Human Skeletal Remains and Burial Site Protection Act, Montana law has provided a mechanism to protect marked, unmarked, unrecorded, registered, or unregistered graves or burial grounds discovered on state and private land from pilferage, disturbance, and destruction in an effort to provide equal protection and respect for all burial sites, human skeletal remains, and funerary objects;

(b) despite the state's success in balancing the interests of those persons who have tribal, kinship, cultural, or religious affiliation with a burial site with the interests of scientists, agencies, law enforcement, and private landowners, the 1991 Human Skeletal Remains and Burial Site Protection Act did not provide a mechanism to repatriate culturally affiliated human skeletal remains or funerary objects that were taken from burial sites prior to July 1, 1991;

(c) funerary objects interred with culturally affiliated human skeletal remains are not abandoned when interred. Discoverers, therefore, have no right of ownership, and they cannot confer a right of ownership to another because the person who interred funerary objects with the deceased did not through interment abandon a property interest in the objects, but intended for those objects to remain with the deceased.

(d) the state of Montana has an obligation to avoid infringing upon the right to religious beliefs and practices guaranteed to all citizens under the free exercise clause of the first amendment of the United States constitution and under Article II, section 4, of the Montana constitution and to preserve the cultural integrity of American Indian citizens recognized by the state under Article X, section 1(2), of the Montana constitution;

(e) the state of Montana acknowledges the paramount privacy right of a tribal group, lineal descendant, next of kin, agency, or museum to protect sensitive and sacred information that may be required to be disclosed to demonstrate cultural affiliation or lineal descent and therefore authorizes the protection of that information to the full extent allowed by the Montana constitution; and

(f) the state of Montana acknowledges the right of an agency, museum, or person to maintain possession or control of human skeletal remains or funerary objects that are currently under scientific study or that require testing prior to the effective date of the board's determination regarding repatriation.

(2) It is the intent of the legislature to:

(a) provide a consistent state policy to ensure that all human skeletal remains and all funerary objects interred with those human skeletal remains be treated with dignity and respect;

(b) encourage voluntary disclosure and repatriation of culturally affiliated human skeletal remains and funerary objects by an agency, museum, or person;

(c) provide a mechanism to provide for repatriation of human skeletal remains and funerary objects to a tribal group, lineal descendant, or next of kin establishing cultural affiliation with those human skeletal remains or funerary objects that were taken from unprotected burial sites prior to July 1, 1991, and that are currently in the possession or control of an agency, museum, or person in this state; and

(d) protect the right of privacy guaranteed to tribal groups, lineal descendants, next of kin, agencies, or museums regarding the disclosure of sacred or religious information to the full extent allowed by the Montana constitution.

History: **En. Sec. 2, Ch. 558, L. 2001.**

22-3-904. Rules. The board shall adopt rules necessary to provide for filing of claims, procedures for hearings authorized under this part, and procedures for resolving multiple claims. Hearings may not occur until rules have been adopted. Rules must address, at a minimum, criteria for determining lineal descent, cultural affiliation, standards of evidence, and standards of proof.

History: En. Sec. 12, Ch. 558, L. 2001.

22-3-905 through 22-3-910 reserved.

22-3-911. Agency and museum inventory of human skeletal remains and funerary objects. (1) An agency or museum that on or after May 2, 2001, has possession or control over human skeletal remains or funerary objects shall within 6 months complete an inventory of all human skeletal remains and funerary objects and, to the extent possible based on all information possessed by the agency or museum:

(a) identify the circumstances surrounding the acquisition of the human skeletal remains or funerary objects, including any geographical information available pertaining to the original location of the human skeletal remains or funerary objects;

(b) list in the inventory the human skeletal remains or funerary objects that are clearly identifiable as to cultural affiliation; and

(c) list the human skeletal remains or funerary objects that are not clearly identifiable as to cultural affiliation.

(2) Within 3 months of completing the inventory, the agency or museum shall provide a copy of the inventory to:

(a) the board;

(b) the state historic preservation office; and

(c) each tribal government located in Montana.

(3) The agency, museum, board, or state historic preservation office shall provide a copy of an inventory list or a portion of a list to any other requesting party only after the agency, museum, board, or office, pursuant to Article II, section 9, of the Montana constitution, has balanced the public's right to the information and the individual privacy interest associated with the information and has determined that the right of individual privacy does not clearly exceed the merits of public disclosure.

(4) Following completion of the initial inventory, each agency or museum shall, whenever the agency or museum receives new human skeletal remains or funerary objects through a loan or donation, update its inventory list within 6 months of the loan or donation. Upon completion, the agency or museum shall provide a copy of this update to the entities listed in subsection (2) within 3 months.

History: En. Sec. 4, Ch. 558, L. 2001.

22-3-912. Claims for repatriation. (1) A claim for repatriation of human skeletal remains or funerary objects must be made by:

(a) filing a written claim for the human skeletal remains or funerary objects with the board and the possessing entity having possession or control of the human skeletal remains or funerary objects; and

(b) proving, by a preponderance of the evidence:

(i) the claimant's cultural affiliation to the human skeletal remains or funerary objects; and

(ii) that the possessing entity does not have the right of possession.

(2) A claim for repatriation under this section may be made by a claimant:

(a) who claims cultural affiliation and requests the return of human skeletal remains or funerary objects listed in the inventory of an agency or museum; or

(b) who requests the repatriation of human skeletal remains or funerary objects that are not listed in the inventory of an agency or museum but are in the possession or control of the possessing entity.

History: En. Sec. 5, Ch. 558, L. 2001.

22-3-913. Hearing — hearings examiner — evidence — study or testing order and costs — findings. (1) The board shall appoint an attorney licensed to practice law in Montana as a hearings examiner to hold a hearing pursuant to Title 2, chapter 4, part 6, on a claim filed under 22-3-912. At a hearing under this section, the hearings examiner shall hear the evidence presented by each party, including evidence presented by a possessing entity or intervenor in support of a request for a temporary delay in repatriation made under 22-3-915.

(2) Either party or an intervenor may request and is responsible for the cost of genetic or other study or testing necessary to determine cultural affiliation. Upon such a request, the hearings examiner may order any study or testing necessary and may require a surety bond to ensure protection of human skeletal remains or funerary objects. The hearings examiner may grant the study or testing requested along with sufficient time to conduct the study or testing or may deny any study or testing requested upon a finding that the study or testing would not likely be pertinent to the determination of cultural affiliation.

(3) (a) If, based on a preponderance of the evidence, the hearings examiner finds that the claimant has a cultural affiliation with the human skeletal remains or funerary objects and that the possessing entity does not have the right of possession, the hearings examiner shall recommend to the board that the board order repatriation under 22-3-916. If the hearings examiner finds that there is a need to temporarily delay repatriation based on an ongoing scientific study or a good faith effort toward scientific study under 22-3-915, the hearings examiner shall recommend a delay as provided in 22-3-915.

(b) If, based on a preponderance of the evidence, the hearings examiner finds that the claimant has not proven that the claimant has a cultural affiliation with the human skeletal remains or funerary objects and that the possessing entity has the right of possession, the hearings examiner shall recommend to the board that the board deny the claimant's request for repatriation and shall recommend that the board order that the possessing entity be granted uncontested control and possession of the human skeletal remains or funerary objects under 22-3-916.

(c) A recommendation under this subsection (3) shall be made in the form of a proposal for decision as provided in 2-4-621. The provisions of 2-4-621 apply to a recommendation made under this subsection (3).

(4) If the hearings examiner recommends repatriation, the hearings examiner shall issue an order requiring the possessing entity to consult with the claimant to arrange for the expeditious repatriation of the culturally affiliated human skeletal remains or funerary objects to the claimant, upon order of the board under 22-3-916.

History: **En. Sec. 6, Ch. 558, L. 2001.**

22-3-914. Closure of hearings. To the extent allowed by Montana law, the board shall, upon the request of either party or an intervenor, close any part of a board hearing or any part of a hearing under 22-3-913 to the public if the board finds that information required at the hearing may include identification of the specific location of a burial site that may lead to compromise of a burial site, human skeletal remains, or funerary objects or that information necessary for a determination regarding repatriation may compromise or interfere with any religious practice or custom.

History: **En. Sec. 11, Ch. 558, L. 2001.**

22-3-915. Delay of repatriation for scientific study. (1) If repatriation is ordered after a hearing, a possessing entity may request a temporary delay in repatriation because of:

(a) scientific study being conducted on or proposed to be conducted on human skeletal remains or funerary objects in its possession or control; or

(b) good faith efforts to initiate or proceed with a scientific study of human skeletal remains or funerary objects in its possession or control.

(2) If a hearings examiner determines that a possessing entity has provided evidence supporting a good faith effort regarding scientific study, the hearings examiner shall provide a reasonable period of delay to allow completion of the study prior to repatriation.

History: **En. Sec. 7, Ch. 558, L. 2001.**

22-3-916. Board decision — order — immunity against aggrieved parties — relinquishment of control by tribal group. (1) Subject to the provisions of 2-4-621 and 2-4-623, at the conclusion of the hearing and upon receipt of the recommendations of the hearings examiner, the board shall:

(a) issue findings of facts and conclusions related to any decision regarding its determination supporting or denying a claimant's written request for the repatriation of human skeletal remains or funerary objects;

(b) issue findings of facts and conclusions related to any decision regarding a possessing entity's or intervenor's request for a temporary delay in repatriation pending completion of ongoing scientific study; and

(c) provide the claimant, respondent, possessing entity, or intervenor with a written copy of its findings and conclusions regarding the specific repatriation request.

(2) A possessing entity that repatriates culturally affiliated human skeletal remains or funerary objects in good faith pursuant to this section is not liable for claims by an aggrieved party or for claims of breach of a fiduciary duty or the public trust or of violation of state law that are inconsistent with this part.

(3) This section does not prevent the governing body of a tribal group from expressly relinquishing control over any human skeletal remains or control or title to any funerary object. The acquisition of a funerary object from a tribal group or individual with the voluntary consent of the tribal group or individual with authority to alienate the object constitutes the right of possession over that object. Divestiture of culturally affiliated human skeletal remains or funerary objects from a person without a right of possession does not constitute an unconstitutional taking of property.

History: En. Sec. 8, Ch. 558, L. 2001.

22-3-917. Appeals — stay of order pending appeal — court costs and attorney fees. (1) Within 30 days of a board decision regarding human skeletal remains or a funerary object located within the jurisdiction of the state, either party may file an appeal in the district court in the county in which the subject of the dispute is located. The court may include a grant of attorney fees to the prevailing party when it would serve the interests of justice. The court shall grant an award of costs to the prevailing party. An appeal under this section is subject to the provisions of Title 2, chapter 4, part 7.

(2) The filing of an appeal by either party automatically stays a board order on repatriation of human skeletal remains or funerary objects.

(3) A protection order issued by the board remains in effect until the issue is finally resolved by a state court.

History: En. Sec. 9, Ch. 558, L. 2001.

22-3-918. Multiple claims — care and handling of human skeletal remains or funerary objects pending disposition. If multiple requests for repatriation of human skeletal remains or funerary objects occur and the appropriate claimant cannot be determined, the board shall provide for the appropriate care and handling of the human skeletal remains or funerary objects until:

(1) the requesting parties agree upon the disposition;

(2) the dispute is resolved by the board pursuant to 22-3-916; or

(3) the issue is finally resolved in a state court of competent jurisdiction.

History: En. Sec. 10, Ch. 558, L. 2001.

22-3-919 and 22-3-920 reserved.

22-3-921. Exclusions. The provisions of this part do not apply to any lithic material or other artifacts of nonhuman derivation removed from the Anzick site (known as Montana historical site No. 24PA506) on or before July 1, 1991, regardless of where the material or artifacts are located or by whom the material or artifacts are controlled or possessed.

History: En. Sec. 13, Ch. 558, L. 2001.

(c) Architectural and engineering review and approval do not apply to the historic renovation projects or projects at historic sites unless stated in specific state appropriations for construction permitted under the commission's jurisdiction.

Funding for these projects must pass through directly to the commission.

(b) The commission may contract for the preservation, stabilization, or maintenance of existing structures or buildings for an amount that exceeds $300,000 without legislative consent if the commission determines that waiting for legislative consent would cause unnecessary damage to the structures or buildings or would result in a significant increase in cost to conduct those activities in the future.

(c) whether the property can contribute to the economic and social enrichment of the state;

(d) whether the property lends itself to programs to interpret Montana history;

(e) whether the acquisition or sale will create significant social and economic impacts to affected local governments and the state;

(f) whether the sale is supported by the director of the Montana historical society;

(g) whether the commission should include any preservation covenants in a proposed sale agreement for real property;

(h) whether the commission should incorporate any design review ordinances established by Virginia City into a proposed sale agreement for real property; and

(i) other matters that the commission considers necessary or appropriate.

A majority of the members constitutes a quorum for the transaction of any business. The board shall keep a record of all the business it transacts. The presiding officer and secretary shall sign all orders, minutes, or documents for the board.

23-1-126. Good neighbor policy — public recreational lands. (1) The good neighbor policy of public land use, as applied to public recreational lands, seeks a goal of no impact upon adjoining private and public lands by preventing impact on those adjoining lands from noxious weeds, trespass, litter, noise and light pollution, streambank erosion, and loss of privacy.

(2) In order to implement the good neighbor policy expeditiously, the legislature finds it necessary to require the department of fish, wildlife, and parks to place maintenance as a priority over additional development at all state parks and fishing access sites.

(3) The restriction in subsection (2) does not apply to:

(1) In order to protect riparian vegetation, provide for stable streambanks, reduce erosion, and provide for nutrient barriers to protect the quality of rivers and streams, camping in a motor vehicle, as defined in 61-1-101, is discouraged within 25 feet of a river or stream in state parks and fishing access sites.

(2) The operation of an off-highway vehicle, as defined in 23-2-801, within state parks and fishing access sites is prohibited except:

(a) for administrative purposes; or

It is the purpose of this part to give authority to the department to plan and develop outdoor recreational resources in the state. That authority permits receiving and expending funds, including federal grants, for this purpose.

History: En. Sec. 1, Ch. 235, L. 1965; amd. Sec. 13, Ch. 417, L. 1977; R.C.M. 1947, 62-401; amd. Sec. 2, Ch. 218, L. 1979; amd. Sec. 5, Ch. 353, L. 2019.

23-2-301. Definitions. For purposes of this part, the following definitions apply:

(1) "Barrier" means an artificial obstruction located in or over a water body, restricting passage on or through the water, that totally or effectively obstructs the recreational use of the surface water at the time of use. A barrier may include but is not limited to a bridge or fence or any other artificial obstacle to the natural flow of water.

(2) "Class I waters" means surface waters, other than lakes, that:

(a) lie within the officially recorded federal government survey meander lines of the waters;

(b) flow over lands that have been judicially determined to be owned by the state by reason of application of the federal navigability test for state streambed ownership;

(c) are or have been capable of supporting the following commercial activities: log floating, transportation of furs and skins, shipping, commercial guiding using multiperson watercraft, public transportation, or the transportation of merchandise, as these activities have been defined by published judicial opinion as of April 19, 1985; or

(d) are or have been capable of supporting commercial activity within the meaning of the federal navigability test for state streambed ownership.

(3) "Class II waters" means all surface waters that are not class I waters, except lakes.

(4) "Commission" means the fish and wildlife commission provided for in 2-15-3402.

(5) "Department" means the department of fish, wildlife, and parks provided for in 2-15-3401.

(8) "Occupied dwelling" means a building used for a human dwelling at least once a year.

(9) "Ordinary high-water mark" means the line that water impresses on land by covering it for sufficient periods to cause physical characteristics that distinguish the area below the line from the area above it. Characteristics of the area below the line include, when appropriate, but are not limited to deprivation of the soil of substantially all terrestrial vegetation and destruction of its agricultural vegetative value. A flood plain adjacent to surface waters is not considered to lie within the surface waters' high-water marks.

(10) "Recreational use" means with respect to surface waters: fishing, hunting, swimming, floating in small craft or other flotation devices, boating in motorized craft unless otherwise prohibited or regulated by law, or craft propelled by oar or paddle, other water-related pleasure activities, and related unavoidable or incidental uses.

(11) "Supervisors" means the board of supervisors of a soil conservation district, the directors of a grazing district, or the board of county commissioners if a request pursuant to

23-2-311(3)(b) is not within the boundaries of a conservation district or if the request is refused by the board of supervisors of a soil conservation district or the directors of a grazing district.

(12) "Surface water" means, for the purpose of determining the public's access for recreational use, a natural water body, its bed, and its banks up to the ordinary high-water mark.

(2) The right of the public to make recreational use of surface waters does not include, without permission or contractual arrangement with the landowner:

(a) the operation of all-terrain vehicles or other motorized vehicles not primarily designed for operation upon the water;

(a) big game hunting;

(b) overnight camping;

(c) the placement or creation of any seasonal object; or

(d) other activities that are not primarily water-related pleasure activities as defined in 23-2-301(10).

(4) The right of the public to make recreational use of surface waters does not grant any easement or right to the public to enter onto or cross private property in order to use those waters for recreational purposes.

(5) The commission shall adopt rules pursuant to 87-1-303, in the interest of public health, public safety, or the protection of public and private property, governing recreational use of class I and class II waters. These rules must include the following:

(a) the establishment of procedures by which any person may request an order from the commission:

(i) limiting, restricting, or prohibiting the type, incidence, or extent of recreational use of a surface water; or

(ii) altering limitations, restrictions, or prohibitions on recreational use of a surface water imposed by the commission;

(b) provisions requiring the issuance of written findings and a decision whenever a request is made pursuant to the rules adopted under subsection (5)(a); and

23-2-311. Right to portage — establishment of portage route. (1) A member of the public making recreational use of surface waters may, above the ordinary high-water mark, portage around barriers in the least intrusive manner possible, avoiding damage to the landowner's land and violation of the landowner's rights.

(2) A landowner may create barriers across streams for purposes of land or water management or to establish land ownership as otherwise provided by law. If a landowner erects a structure that does not interfere with the public's use of the surface waters, the public may not go above the ordinary high-water mark to portage around the structure.

(3) (a) A portage route around or over a barrier may be established to avoid damage to the landowner's land and violation of the landowner's rights, as well as to provide a reasonable and safe route for the recreational user of the surface waters.

(b) A portage route may be established when either a landowner or a member of the recreating public submits a request to the supervisors that a route be established.

(c) Within 45 days of the receipt of a request, the supervisors shall, in consultation with the landowner and a representative of the department, examine and investigate the barrier and the adjoining land to determine a reasonable and safe portage route.

(d) Within 45 days of the examination of the site, the supervisors shall make a written finding of the most appropriate portage route.

(e) The cost of establishing the portage route around artificial barriers must be borne by the department, including the cost of construction of notification signs of the route.

(f) Once the route is established, the department has the exclusive responsibility to maintain the portage route at reasonable times agreeable to the landowner. The department shall post notices on the stream of the existence of the portage route and the public's obligation to use it as the exclusive means around a barrier.

(g) If either the landowner or the recreationist disagrees with the route described in subsection (3)(e), the person may petition the district court to name a three-member arbitration panel. The panel must consist of an affected landowner, a member of an affected recreational group, and a member selected by the two other members of the arbitration panel. The arbitration panel may accept, reject, or modify the supervisors' finding under subsection (3)(d).

(h) The determination of the arbitration panel is binding upon the landowner and upon all parties that use the water for which the portage is provided. Costs of the arbitration panel, computed as for jurors' fees under 3-15-201, must be borne by the contesting party or parties. All other parties shall bear their own costs.

(i) The determination of the arbitration panel may be appealed within 30 days to the district court.

(j) Once a portage route is established, the public shall use the portage route as the exclusive means to portage around or over the barrier.

(4) This part does not address the issue of natural barriers or portage around the barriers, and this part does not make the portage lawful or unlawful.

(a) a public bridge, its right-of-way, and its abutments; and

(b) a county road right-of-way.

(2) When accessing surface waters pursuant to subsection (1), a person shall stay within the road or bridge right-of-way. Absent definition in an easement or deed to the contrary, the width of a bridge right-of-way is the same width as the right-of-way of the road to which the bridge is attached.

(3) The provisions in 7-14-2134, 23-2-313, and this section related to public access to surface waters for recreational use neither create nor extinguish any right related to county roads established by prescriptive use that exist on April 13, 2009.

(4) For purposes of determining liability, a person accessing surface waters for recreational use pursuant to this section is owed no duty by a landowner or an agent or tenant of that landowner other than for an act or omission that constitutes willful or wanton misconduct.

History: **En. Sec. 2, Ch. 201, L. 2009.**

23-2-313. Fencing for livestock control and public passage — negotiation — costs. (2) (a) If a dispute arises regarding public passage pursuant to subsection (1), the department, pursuant to the department's policy in 87-1-229 to work with private land managers to resolve and reduce user conflicts, shall negotiate with the affected landowner regarding the characteristics of an access feature of a legal fence for public passage and livestock control or property management. Examples of an access feature of a legal fence that provides public passage and livestock control or property management may include:

(i) a stile;

(ii) a gate;

(iii) a roller;

(iv) a walkover;

(v) a wooden rail fence that provides for passage; or

(vi) any other method designed for public passage and livestock control or property management.

(b) One access feature, as described in subsection (2)(a), on each side of the stream is sufficient. When practicable, one access feature must be located on the downstream bridge edge, guardrail, or abutment. The department may waive these provisions when one access feature is sufficient.

(c) If the landowner and the department cannot reach agreement within 60 days after the department's initial contact with the landowner for negotiation, the department shall provide the landowner with options for methods to provide public passage while controlling livestock or managing property. If the landowner does not choose one of the method options within 30 days after the options are offered, the department shall choose and then may install one of the method options.

(3) The department, in cooperation with other interested parties, shall provide the materials, installation, and maintenance of any fence modifications necessary to provide public passage as required by this section.

2025 Amendment: See 2025 Session Law for amendment made by sec. 2, Ch. 299, L. 2025. Amendment effective May 1, 2025.

23-2-512. Identifying number. (1) The owner of each motorboat, sailboat, or personal watercraft requiring numbering by this state shall file an application for number in the office of the county treasurer in the county where the motorboat, sailboat, or personal watercraft is owned, on forms prepared and furnished by the department of justice. The application must be signed by the owner of the motorboat, sailboat, or personal watercraft and be accompanied by the fee prescribed in 61-3-321(10). Any alteration, change, or false statement contained in the application renders the certificate of number void. Upon receipt of the application in approved form, the county treasurer shall issue to the applicant a certificate of number prepared and furnished by the department of justice, stating the identifying number assigned to the motorboat, sailboat, or personal watercraft and the name and address of the owner. The identifying number must be displayed on the motorboat, sailboat, or personal watercraft.

(2) If the ownership of a motorboat, sailboat, or personal watercraft changes, a new application form with the certification fee must be filed within 40 days with the county treasurer and a new certificate of number assigned in the same manner as provided for in an original assignment of number.

(3) If an agency of the United States government has in force a comprehensive system of identification numbering for motorboats in the United States, the numbering system employed pursuant to this part by the department of justice must be in conformity.

(4) If ownership is transferred, the purchaser shall notify the county treasurer within 40 days of the acquisition of all or any part of the purchaser's interest, other than the creation of a security interest, in a motorboat, sailboat, or personal watercraft numbered in this state or of the loss, theft, destruction, or abandonment of the motorboat, sailboat, or personal watercraft. The transfer, loss, theft, destruction, or abandonment terminates the certificate of number for the motorboat, sailboat, or personal watercraft. Recovery from theft or transfer of a part interest that does not affect the owner's right to operate the motorboat, sailboat, or personal watercraft does not terminate the certificate of number.

(5) A holder of a certificate of number shall notify the county treasurer within a reasonable time if the holder's address no longer conforms to the address appearing on the certificate and shall furnish the county treasurer with the new address. The department of justice may provide by rule for the surrender of the certificate bearing the former address and its replacement with a certificate bearing the new address or the alteration of an outstanding certificate to show the new address of the holder.

(6) (a) (i) The identifying number assigned must be painted on or attached to each outboard side of the forward half of the motorboat, sailboat, or personal watercraft or, if there are no sides, at a corresponding location on both outboard sides of the foredeck of the motorboat, sailboat, or personal watercraft.

(ii) The identifying number assigned must read from left to right in Arabic numerals and block characters of good proportion at least 3 inches tall excluding border or trim of a color that contrasts with the color of the background and be so maintained as to be clearly visible and legible.

(iii) The identifying number may not be placed on the obscured underside of the flared bow where it cannot be easily seen from another vessel or ashore.

(iv) Numerals, letters, or devices other than those used in connection with the identifying number issued may not be placed in the proximity of the identifying number. Numerals, letters, or devices that might interfere with the ready identification of the motorboat, sailboat, or personal watercraft by its identifying number may not be carried in a manner that interferes with the motorboat's, sailboat's, or personal watercraft's identification.

(v) A number other than the identifying number assigned to a motorboat, sailboat, or personal watercraft or granted reciprocity under this part may not be painted, attached, or otherwise displayed on either side of the forward half of the motorboat, sailboat, or personal watercraft.

(vi) A registration decal must be placed next to the identifying number located on the left side of a motorboat, sailboat, or personal watercraft or, if there are no sides, at the corresponding location on the left outboard side of the foredeck of the motorboat, sailboat, or personal watercraft.

(b) The certificate of number must be pocket size and available to federal, state, or local law enforcement officers at all reasonable times for inspection on the motorboat, sailboat, or personal watercraft whenever the motorboat, sailboat, or personal watercraft is on waters of this state.

(c) Boat liveries are not required to have the certificate of number on board each motorboat, sailboat, or personal watercraft, but a rental agreement must be carried on board livery motorboats, sailboats, or personal watercraft in place of the certificate of number.

(7) An owner of a motorboat, sailboat, or personal watercraft shall within a reasonable time notify the department of justice, giving the motorboat's, sailboat's, or personal watercraft's identifying number and the owner's name if the motorboat, sailboat, or personal watercraft is transferred, lost, destroyed, or abandoned or within 60 days after a change of the state of principal use or if a motorboat becomes documented as a vessel of the United States.

(3) (a) Except as provided in subsection (3)(b), the exhaust of an internal combustion engine used on a motorboat or vessel must be muffled either by discharge underwater or by a functioning muffler capable of muffling exhaust noise to 90 dbA or less when measured at a distance of 1 meter from the muffler at idle speed in accordance with the stationary sound level measurement procedure for pleasure motorboats (SAE J2005). The muffler may not be modified or altered, such as by a cutout. The department may require a test at dockside to determine exhaust noise level.

(b) The provisions of subsection (3)(a) do not apply to a motorboat or vessel:

(i) competing in a state-sanctioned regatta or boat race while on trial runs between 9 a.m. and 5 p.m. and during a period not more than 48 hours immediately preceding the regatta or boat race;

(iii) operated by an authorized agent of federal, state, or local government to carry out the duty of enforcement, search and rescue, firefighting, or research.

(4) (a) Except as provided in subsection (4)(b), a vessel may not be equipped with a siren, and a person may not use or install a siren on a vessel.

(b) An authorized emergency vessel may be equipped with a siren capable of sound audible under normal conditions from a distance of not less than 500 feet, but the siren may be used only when the vessel is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, and the operator of the vessel shall sound the siren when necessary to warn persons of the vessel's approach.

23-2-522. Discharge of waste from vessel prohibited. (1) A person may not discharge or cause, permit, or allow to be discharged any garbage, refuse, waste, or sewage from any vessel into, upon, or near the waters at a stream, river, or lake within the boundaries of the state of Montana.

(2) The department of environmental quality shall adopt rules to protect water quality and aquatic ecosystems by establishing guidelines for the installation of vessel pumpout facilities.

(3) In adopting the rules, the department shall use these definitions:

(a) "Marine sanitation device" means any equipment on board a vessel that is designed to receive, retain, treat, or discharge sewage and also means any process to treat the sewage.

(b) "Vessel terminal" means a private or public shoreside installation on any waters of Montana that provides mooring, docking, berthing, and other facilities for the use of vessels.

(4) The rules must include standards for the construction, operation, and maintenance of vessel pumpout facilities.

(5) This section may not be construed to require the department to install pumpout facilities without prior legislative approval and an appropriation.

23-2-523. Prohibited operation and mooring — enforcement. (1) A person may not operate or knowingly permit a person to operate a motorboat or vessel or manipulate waterskis, a surfboard, or a similar device or other contrivance in a reckless or negligent manner so as to endanger the life, limb, or property of a person by:

(a) engaging in maneuvers that unreasonably or unnecessarily endanger life, limb, or property, including but not limited to weaving through congested vessel traffic or jumping the wake of another vessel unreasonably or unnecessarily close to the other vessel or when visibility around the other vessel is obstructed and including swerving at the last possible moment to avoid collision, following directly behind a waterskier, speeding in confined or restricted areas, and buzzing or wetting down others, which constitute reckless operation of a vessel;

(b) crossing or jumping the wake of another vessel when within 100 yards of the vessel or within 100 yards of a waterskier being towed by the vessel, except when directly entering or leaving a public or private marina, waterski facility, or other watercraft docking or loading area.

(2) A person may not operate a motorboat, including a sailboat propelled by a motor of any kind, or manipulate waterskis, a surfboard, or a similar device attached to a motorboat while under the influence of alcohol, drugs, or a combination of the two.

(3) It is unlawful for the owner of a motorboat or vessel or a person having the motorboat or vessel in charge or in control to authorize or knowingly permit the motorboat or vessel to be operated by a person who by reason of physical or mental disability is incapable of operating the watercraft under the prevailing circumstances.

(4) A person may not operate or knowingly permit a person to operate a motorboat or vessel at a rate of speed greater than will permit the person, in the exercise of reasonable care, to bring the vessel to a stop within the assured clear distance ahead. However, nothing in this part is intended to prevent the operator of a vessel actually competing in a regatta that is sanctioned by an appropriate governmental unit from attempting to attain high speeds on a marked racing course.

(5) A person may not make a reckless approach to, departure from, or passage by a dock, ramp, diving board, or float.

(6) Skiers being pulled by motorboats must have on their person a United States coast guard approved personal flotation device in good and serviceable condition.

(7) A person may not moor a vessel to buoys or beacons placed in any waters of this state by the authority of the United States, an agency of the United States, or the department or in any manner hang on with a vessel to a buoy or beacon, except in the act of maintenance work on the buoy or beacon, nor may any person deface, remove, or destroy a buoy, beacon, or other authorized navigational marker maintained in the waters of this state.

(8) If an officer whose duty it is to enforce this law observes a vessel being used without sufficient lifesaving or firefighting devices or in an overloaded or other unsafe condition and in

the officer's judgment the use creates an especially hazardous condition, the officer may direct the operator to take whatever immediate and reasonable steps would be necessary for the safety of those aboard the vessel, including directing the operator to return to a mooring or launching site and to remain there until the situation creating the hazard is corrected or ended.

(9) The population density and heavy recreational use of certain lakes require a noise standard more restrictive than the standard set in 23-2-526 in order to protect the public health and safety. Unless operated on a river or stream in compliance with a rule adopted under 23-2-521, a person may not operate a motorboat or personal watercraft on Flathead Lake, situated in Lake and Flathead Counties, Echo Lake, situated in Flathead County, or Swan Lake, situated in Lake County, in proximity to the shoreline if the noise emitted is greater than 75 dbA measured at the shoreline in accordance with the shoreline sound level measurement procedure (SAE J1970).

(10) Unless accompanied by a person 18 years of age or older, a person 12 years of age or younger may not operate a motorboat or a personal watercraft that is powered by a motor rated at more than 10 horsepower. A person 13 or 14 years of age may not operate a vessel or personal watercraft powered by a motor rated at more than 10 horsepower without possessing a valid Montana motorboat operator's safety certificate or evidence of completion of a Montana-approved water safety course or unless accompanied by a person 18 years of age or older.

(11) A person who owns or has charge or control of a motorboat or personal watercraft powered by a motor rated at more than 10 horsepower may not authorize or knowingly permit the motorboat or personal watercraft to be operated:

(a) by a person 12 years of age or younger unless accompanied by a person 18 years of age or older; or

(b) by a person 13 or 14 years of age unless the person possesses a valid Montana motorboat operator's safety certificate or evidence of completion of a Montana-approved water safety course or is accompanied by a person 18 years of age or older.

(12) A person may not rent a motorboat or a personal watercraft powered by a motor rated at more than 10 horsepower to a person under 18 years of age.

23-2-524. Passing rule and right-of-way. (1) When two vessels are approaching each other "head on" or nearly so, each vessel shall bear to the right and pass the other vessel on its left side to avoid the risk of collision.

(2) When vessels approach each other obliquely or at right angles, the vessel that has the other vessel on the starboard side shall keep out of the way and shall, if the circumstances of the case require, avoid crossing ahead of the other vessel.

(3) A vessel overtaking another vessel shall keep out of the way of the vessel being overtaken.

(4) When a sailboat and motorboat are operating as to involve a risk of collision with each other, the motorboat shall yield to the sailboat in all cases.

23-2-525. Restricted areas. (1) A person may not anchor a vessel or place another obstacle on any body of water over which the state has jurisdiction in a position that obstructs a passageway ordinarily used by other vessels.

(2) A person may not operate a pleasure vessel within 20 feet of the exterior boundary of a water area that is clearly marked by buoys or some other distinguishing device as a bathing or swimming area. Swimming areas must be marked with white buoys having international orange markings in conformance with the uniform state waterway marking system by the owners of the areas.

(3) A person may not operate a vessel within 75 feet of a person engaged in fishing or hunting waterfowl, unless unavoidable. If unavoidable, the vessel must be operated at not

greater than no-wake speed or at a minimum speed necessary to maintain upstream progress while within 75 feet of the person engaged in fishing or hunting waterfowl.

(4) (a) A person may not purposely, knowingly, or negligently operate a motorboat upon the waters of this state within 200 feet of a tow-float or buoy displaying a "diver-down" symbol, red with a white slash, on a flag.

(b) The motorboat may enter the 200-foot safety zone by use of sail or oar. In an emergency or if there is insufficient water on either side of the 200-foot safety zone to pass by and stay out of the zone, the operator may use power within the zone but may not exceed no-wake speed. The burden of proving that an emergency exists or that there is insufficient water is on the operator.

(c) The fish and wildlife commission may by rule determine areas where establishment of a 200-foot safety zone is not allowed in order to provide for diver safety or the regulation of water traffic.

(2) No vessel shall be equipped with any motor or other propulsion machinery beyond its safe power capacity, taking into consideration the type and construction of such watercraft and other existing operating conditions.

(3) Except as provided in 23-2-523(9), for the purposes of 45-8-101 and 45-8-111, the operation of a motorboat or personal watercraft that emits noise in excess of 86 dbA when measured at a distance of 50 feet or emits exhaust noise in excess of 90 dbA measured 1 meter from the muffler at idle speed in accordance with the stationary sound level measurement procedure for pleasure motorboats (SAE J2005) is presumed to be a public nuisance and constitute disorderly conduct, except when otherwise lawfully operated under a motorboat racing permit issued by a political subdivision of the state.

23-2-527. Collisions, accidents, and casualties. (1) The operator of a vessel involved in a collision, accident, or other casualty, so far as the operator can do so without serious danger to the operator's own vessel, crew, and passengers, shall render to other persons affected by the collision, accident, or other casualty assistance that may be practicable and that may be necessary in order to save them from or minimize any danger caused by the collision, accident, or other casualty. The operator shall give the operator's name, address, and identification of the operator's vessel in writing to any person injured and to the owner or person in control of any property damaged in the collision, accident, or other casualty.

(2) The department shall prepare and distribute to each sheriff's office and each game warden of this state a standardized accident report form. A person involved in a collision, accident, or other casualty involving a death, disappearance, personal injury, or property damage in excess of $2,000 shall immediately report the collision, accident, or other casualty to the sheriff's office or game warden of the county in which the collision, accident, or casualty occurred and fill out a standardized accident report form.

(3) A sheriff advised of a collision, accident, or other casualty reported under this part shall:

(a) conduct an appropriate investigation of the collision, accident, or other casualty; and

(b) prepare and submit a report of the results of the investigation, together with the completed standardized accident report forms, to the department.

In addition to the suspension or revocation and fine, the board may prohibit application for relicensure for a 2-year period. Fines collected under this subsection must be deposited in the general fund.

If in the opinion of the board sufficient competition cannot be had among this class of horses, the race may be eliminated for the day and a substitute race provided instead. Races with exclusively Montana-bred horses must be run for 20% higher purses than races in comparable conditions that are not run with exclusively Montana-bred horses.

23-4-302. Distribution of deposits — breakage. (1) Each licensee conducting the parimutuel system for a simulcast race meet shall distribute all funds deposited in any pool to the winner of the parimutuel pool, less an amount that in the case of exotic wagering on races may not exceed 26% and in all other races may not exceed 20% of the total deposits plus the odd cents of all redistribution to be based on each dollar deposited exceeding a sum equal to the next lowest multiple of 10, known as "breakage".

(2) Each licensee conducting the parimutuel system for a simulcast race meet shall distribute all funds deposited with the licensee in any pool for the simulcast race meet, less an amount that in the case of exotic wagering on these races may not exceed 26%, unless the signal originator percentage is higher, in which case the Montana simulcast licensee may adopt the same percentage withheld as the place where the signal originated, and that in all other of these races may not exceed 20% of the total deposits plus the odd cents of all redistribution to be based on each dollar deposited exceeding a sum equal to the next lowest multiple of 10, known as "breakage".

(3) Each licensee conducting a parimutuel system for a simulcast race meet shall deduct 1% of the total amount wagered on the race meet and deposit it in a state special revenue account. The board shall then distribute all funds collected under this subsection to live race purses or for other purposes that the board considers appropriate for the good of the existing horseracing industry.

(4) (a) Source market fees from licensed advance deposit wagering hub operators must be deposited by the board in the board's state special revenue account.

(b) The board shall pay 80% of the source market fees generated between May 1 and the following April 30 to live race meet licensees based on each live race meet licensee's percentage of the total annual on-track parimutuel handle during the previous live race season. Prior to the beginning of each year's live race season, the correct percentage must be distributed by the board to each live race meet licensee to be used for race purses or other purposes that the board considers appropriate for the good of the horseracing industry.

(c) Ten percent of the source market fees paid to the board in a calendar year may be retained by the board for the payment of administrative expenses. One-half of the remaining 10% of the source market fees paid to the board in a calendar year may, by January 31 of the following calendar year, be paid to the owner bonus program and the other one-half to the breeder bonus program.

(5) (a) The parimutuel network licensee conducting fantasy sports league wagering shall distribute all funds deposited in the pool to the winner of the parimutuel pool less the takeout amount of not more than 30% of the total deposits.

(b) The takeout amount must be distributed according to the yearly license agreement between the parimutuel facility licensee, the parimutuel network licensee, and the board. No more than 10% of the amount collected under this subsection (5)(b) may be appropriated by the legislature for administration of this chapter. The remaining portion collected under this subsection (5)(b) must be deposited in a state special revenue account. The board shall then distribute this portion to live race purses and for other purposes that the board considers appropriate for the good of the existing horseracing industry.

(c) The odd cents of all redistribution based on each dollar deposited that exceeds a sum equal to the next lowest multiple of 10, known as "breakage", as well as unclaimed winning tickets from each parimutuel pool, must be distributed by the board to live race purses or for other purposes that the board considers appropriate for the good of the existing horseracing industry.

23-4-303. Licensee's right to withhold deposits. Subject to 15-10-420, if a government or governmental agency imposes a levy on a licensee by a special tax on the money deposited under the parimutuel system or upon or against a licensee's receipts, the licensee may withhold in addition to the percent and breakage provided for in 23-4-302 the amount of the tax levied.

History: En. Sec. 13, Ch. 196, L. 1965; R.C.M. 1947, 62-513; amd. Sec. 125, Ch. 584, L. 1999.

23-4-304. Gross receipts — department's percentage — collection and allocation. (1) (a) Each live race meet licensee shall pay to the department within 5 days following receipt by the licensee 1% of the gross receipts of each day's parimutuel betting at each race meet. At the end of each race meet the licensee shall prepare a report to the department showing the amount of the overpayments and underpayments. If the report shows the underpayments to be in excess of the overpayments, the balance must be paid to the department. Money paid to the department may be used for the expenses incurred in carrying out this chapter. The licensee shall, at the same time, pay to the department all funds collected under 23-4-202(4)(d) on exotic wagering on races. These funds must be deposited in a state special revenue account. The board shall then distribute all funds collected under 23-4-202(4)(d) to live race purses or for other purposes that the board considers appropriate for the good of the existing horseracing industry.

(b) Each licensed simulcast facility shall pay to the department either 1% of the gross receipts of each day's parimutuel betting at each race meet or the actual cost to the board of regulating the simulcast race meet, whichever is higher. The money must be paid to the department within 5 days after receipt of the money by the licensee. At the end of each race meet the licensed simulcast facility shall prepare a report to the department showing the amount of the overpayments and underpayments. If the report shows the underpayments to be in excess of the overpayments, the balance must be paid to the department. Money paid to the department must be deposited in an account in the state special revenue fund and must be used for the administration of this chapter. The licensed simulcast facility shall, at the same time, pay to the department all funds collected under 23-4-202(4)(d) on exotic wagering on races. These funds must be deposited in a state special revenue account. The board shall then distribute all funds collected under 23-4-202(4)(d) to live race purses or for other purposes that the board considers appropriate for the good of the existing horseracing industry.

(c) The licensed parimutuel network conducting fantasy sports league wagering shall pay the funds distributed pursuant to 23-4-302(5)(b) to the department within 10 days after receipt of the money by the licensee.

(2) Prior to the beginning of the live racing season, funds collected under 23-4-202(4)(d) must be distributed by the department, after first passing through a state special revenue account, to be used for race purses that are distributed to each live race meet by the board or for other purposes that the board considers appropriate for the good of the horseracing industry.

23-4-305. Deposit of unclaimed money. Each licensee holding a race meet shall, within 30 days of the end of the meet, report to the board the total face value of all unclaimed winning tickets from each parimutuel pool. The money from unclaimed winning tickets must be retained by the licensee for capital improvement approved by the board.

23-5-110. Public policy of state concerning gambling. (1) The legislature finds that for the purpose of ensuring the proper gambling environment in this state it is necessary and desirable to adopt a public policy regarding public gambling activities in Montana. The legislature therefore declares it is necessary to:

(a) create and maintain a uniform regulatory climate that assures players, owners, tourists, citizens, and others that the gambling industry in this state is fair and is not influenced by corrupt persons, organizations, or practices;

(b) protect legal public gambling activities from unscrupulous players and vendors and detrimental influences;

(c) protect the public from unscrupulous proprietors and operators of gambling establishments, games, and devices;

(d) protect the state and local governments from those who would conduct illegal gambling activities that deprive those governments of their tax revenues;

(e) protect the health, safety, and welfare of all citizens of this state, including those who do not gamble, by regulating gambling activities; and

(f) promote programs necessary to provide assistance to those who are adversely affected by legalized gambling, including compulsive gamblers and their families.

(2) The legislature adopts the policy that an applicant for a license or permit or other department approval under parts 1 through 8 of this chapter does not have a right to the issuance of a license or permit or the granting of the approval sought. (b) A copy of the petition must be served upon the department at the same time. When the department receives the copy of the petition, it shall certify and file in court a copy of the filing, testimony, and other evidence upon which the final order was entered by the department. (iii) made upon unlawful procedure;

(iv) affected by other error of law;

(3) The commencement of proceedings under this section, unless specifically ordered by the court, may not operate as a stay of the department's final order.

If the amount due the holder of the security interest is less than the value of the personal property, the personal property may be sold at public auction by the law enforcement agency that seized the personal property in the manner provided by law for the sale of property under execution. The proceeds of the sale must first be used to pay the amount due to the holder of the security interest, with the remainder deposited in the account provided for in subsection

(3). Instead of sale at public auction, the law enforcement agency may turn the personal property over to the holder of the security interest. The personal property may not be sold to an officer or employee of the law enforcement agency that seized the property or to a person related to an officer or employee by blood or marriage.

(b) If there is no security interest claimant and the law enforcement agency that seized the personal property wishes to retain the property for its official use, it may do so. If the personal property is not retained, it must be sold at public auction by the law enforcement agency that seized the personal property in the manner provided by law for the sale of property under execution and the proceeds of the sale must be deposited in the account provided for in subsection (3).

(c) If a security interest claimant has presented proper proof of a claim and the law enforcement agency that seized the personal property wishes to retain the property for its official use, it may do so provided it compensates the claimant in the amount of the security interest outstanding at the time of the seizure.

(3) Any forfeited negotiable instruments must be liquidated to cash. All forfeited cash and the proceeds of liquidated negotiable instruments must be deposited in a state special revenue account to the credit of the department of justice. The department may expend the money deposited in the account only for purposes of enforcement of gambling laws.

(4) In making a disposition of personal property, the court may take any action to protect the rights of innocent persons.

(1) "Arcade" means a commercial establishment whose primary purpose is to make amusement games available for public play.

(2) "Concessionaire" means a person who owns one or more amusement games and who enters into an agreement with an operator, as defined in subsection (5)(a), to conduct games. A concessionaire may also be an operator.

(3) "Crane game" means an amusement game activated by the insertion of a coin or token by which the player uses one or more buttons, control sticks, or similar means of control or a combination of those means of control to position a mechanical or electromechanical claw or other retrieval device over a prize and attempts to retrieve it.

(4) "Nonprofit organization" means a nonprofit corporation or a nonprofit charitable, religious, scholastic, educational, veterans', fraternal, beneficial, civic, or service organization, established for a purpose other than conducting amusement games.

(5) "Operator" means a person who:

(a) enters into an agreement with a county fair commission, board of directors of a fair district, joint fair and civic center commission, business, or an association of businesses, such as a shopping center or downtown area, to provide amusement games; or

(b) makes an amusement game available for public play on premises owned by the operator or on premises owned by another person.

(6) "Prize" means:

(a) tangible personal property; or

(b) nontransferable tokens or tickets that may be accumulated and redeemed for tangible personal property.

History: En. Sec. 1, Ch. 523, L. 1991; amd. Sec. 1, Ch. 327, L. 1993.

23-6-102. Requirements for games. An operator, concessionaire, nonprofit organization, or arcade may provide amusement games to the public under the following conditions:

(1) The sale of a right to participate, the determination of winners, and the distribution of prizes all occur in the presence of all players.

(2) The appropriate permit to operate the game has been obtained as provided for in 23-6-103.

(3) The player pays cash for the right to play the game.

(b) If tokens or tickets are awarded following play of the amusement game:

(i) the value of the tokens or tickets for redemption purposes may not exceed 5 cents;

(ii) the maximum number of tokens or tickets awarded after a single play of the amusement game may not exceed the value of 10 times the total amount paid by all participants to play the amusement game; and

(iii) any tangible personal property for which tokens or tickets are redeemed may exceed a wholesale value of $50.

(6) The system for awarding prizes does not require forfeiture of a previously won prize unless the prize is traded for a prize of equal or greater value.

(7) Concealed numbers or conversion charts are not used in conducting the game.

(8) The game is not designed or adapted with a control device to permit manipulation of the game to control the ability of a player to win or to predetermine who the winner will be. A crane game may not contain a variable resistor or any turn screw, knob, potentiometer, or similar device that may be used to alter the closing strength of the game's claws or retrieval device.

(9) The object of the game is attainable and possible to perform, under the stated game rules, from the playing position of the player.

(10) The game is conducted in a fair and honest manner and does not constitute a fraud upon the players.

History: En. Sec. 3, Ch. 523, L. 1991.

23-6-104. Amusement games allowed. (1) Crane games, as defined in 23-6-101, and the games described in subsection (2) may be made available for public play.

(2) (a) Fish pond (duck pond). The player catches a fish or other object floating in a pond of water by using a pole, hand, net, or string. All fish or objects are marked on the bottom, indicating the size of prize the player wins. The player is awarded a prize each time, and the player must be allowed to continue playing until a prize is won.

(b) Hoop or ring toss. The player tosses a hoop or ring over a target that must consist of bottles, pegs, blocks, or prizes. The operator shall specifically advise the player as to the degree that the hoop or ring must go over the target. All hoops of the same color used at an individual stand must be the same size. All targets used at an individual booth must be the same size, or the operator shall advise the player by posting signs or using color codes denoting the different sizes.

(c) Dart games. The target area for all dart games must be of a material capable of being penetrated and of retaining a metal tip dart. The target area must be in the rear of the stand and must be at least 3 feet but not more than 15 feet from the foul line. A target must be stationary at all times.

(i) Balloon (poparoo) (balloon smash). The targets are inflated balloons. The player throws one or more darts to burst a predetermined number of balloons. If the predetermined number of balloons are burst by the darts, the player receives the prize indicated.

(ii) Dart throw. The targets are various sizes and shapes located on the target area. The player throws darts individually at the target. A dart must stick in a predetermined target to win the prize as designated.

(iii) Tic tac toe dart. The target is a tic tac toe board located in the target area. The player throws darts at the target and wins a designated prize when the thrown darts line up in a row in the target. The darts may line up vertically, horizontally, or diagonally to win.

(iv) Add-um-up darts. The target consists of numbered squares located in the target area. Prizes are awarded based on the total score obtained by the player by throwing and sticking the darts in the numbered squares. A dart that sticks on a line must be thrown again. The player may add up the score of the darts thrown.

(d) Ball tosses. In all ball toss games, the balls used at a specific stand must be of the same weight and size. Targets must be of the same weight and size, or the operator shall color code the targets and advise the player of the difference in targets by posting a sign or providing a duplicate of the target showing the limitations or restrictions. The sign or duplicate target must be readily visible to the player.

(i) Milk bottle toss. The player tosses or throws balls at simulated milk bottles. The player wins by either tipping over or knocking bottles off the raised platform as designated by the operator. The bottles may be constructed of wood, metal, or plastic or a combination of the three. Operators may vary the number of bottles and balls used in each game. Floating or loose weights in bottles are not allowed. The weight of individual bottles may not exceed 7½ pounds.

(ii) Milk can (Mexican hat) (cone). The player tosses a ball into the opening of a milk can, into a fiberglass Mexican hat turned upside down, or through a cone to win.

(iii) Football toss (tire toss). The player tosses or throws a football through a stationary tire or hoop to win.

(iv) Basketball toss/throw. The player tosses or throws a basketball through a hoop to win.

(v) Bushel baskets. The player tosses balls into a bushel basket mounted on a stationary backdrop at a fixed angle. The balls must stay in the basket to win. Rim shots are allowed, except the operator may designate the top 6 inches of the basket rim by color and disallow balls striking this area as winning tosses.

(vi) Cat-ball-toss (star/diamond toss). The player tosses balls into a simulated cat's mouth or a round, diamond, or star-shaped hole to win.

(vii) Ping pong toss. The player tosses ping pong balls into dishes, saucers, cups, or ashtrays floating in water. A predetermined number of balls must remain in the dishes, saucers, cups, or ashtrays for the player to win. The dishes, saucers, cups, or ashtrays must have water covering the bottom of the surface that is facing up.

(viii) Fishbowl game. The player tosses ping pong balls into a water-filled fish bowl to win.

(ix) Volleyball toss (soccer ball). The player tosses a volley or soccer ball into a keg-type container mounted on a stationary backdrop at a fixed angle. The ball must stay in the keg to win a prize. Rim shots are authorized as stated in subsection (2)(d)(v) for bushel baskets.

(x) Goblet ball (whiffle ball). The player tosses a whiffle ball into a target area of glass or plastic goblets. Located in the target area are colored goblets that determine the type of prize the player wins. At least 33% of the goblets in the target area must be winners. The ball must stay in the goblet to win a prize.

(xi) Break the plate/bottle. The player tosses or throws a ball at a plate, phonograph record, or bottle. The type of prize won is determined by the number of targets broken by the player.

(xii) Punk rack. The targets for this game are rows of dolls or cats on a ledge at the rear of the stand. The dolls or cats must be filled with sawdust, styrofoam, cotton, or other like material that provides a firm base for the ball to strike. The hair protruding from the side of the dolls or cats may not exceed 3 inches. The prize is determined by how many dolls or cats the player knocks over or off the ledge, as posted by the operator.

(xiii) Teeth game. The target consists of a large face with wooden teeth. The prize is determined by how many teeth the player knocks down by throwing a ball.

(xiv) Toilet game (doniker). To win, the player tosses or throws a ball or other object through a toilet seat located at the rear of the stand.

(xv) Coke roll. The player rolls a ball down an alley with the object of knocking over two coke bottles standing at the end of the alley. The player must tip over both bottles to win. Bottles must be placed on predetermined spots painted on the surface of the alley.

(xvi) Rolldown. The player rolls balls down an alley with the object of putting the balls in numbered slots at the end of the alley. The scores represented by the balls in each numbered slot are added up at the conclusion of the game. Scores above or below a predetermined score win. The alley surface must be smooth and free from defects at all times.

(xvii) Fascination (I got it). Fascination is a group game that involves competition among the players. The target area consists of 25 holes, and the player tosses or rolls a ball into one of the holes. The object of the game is to get five balls in a row either vertically, horizontally, or diagonally. The first player to accomplish this is the winner. Prize size is determined by the number of players participating in each game.

(xviii)Batter-up. The player uses a whiffle ball bat to swing and strike whiffle balls that are pitched at medium speed from a pitching machine. The player wins when the player hits a ball into the home run shelf. The home run shelf is located at the back of the batting cage approximately 15 feet from the player.

(xix) Sky bowling. Two bowling pins are set on predetermined painted spots on a shelf. A ball is attached to a chain suspended from a stationary support at least 6 inches to the right or left of the bowling pins. The object is to swing the ball, miss the pins with the ball as it goes forward, and knock the pins over as the ball returns.

(xx) Clown rolldown. A ball is tossed through the open mouth of a moving clown or animal head. The ball then rolls down a chute to numbered slots at the rear of the clown or animal head. The scores represented by the balls in each numbered slot are added up at the conclusion of the game. Prizes are awarded on the points achieved.

(xxi) Skee ball. The player rolls a ball up the mechanical bowling alley into targets. A computer adds up the scores, and the predetermined scores win.

(xxii) Speedball radar game. The player gets four balls and throws three balls through radar to establish speeds and to estimate at what speed the fourth ball will pass through the radar. The player wins a prize if the player accurately estimates the speed of the fourth ball. The radar must be mounted and stationary.

(e) Shooting games. These games are conducted by the player using a weapon of some type to shoot at a target in the rear of the stand. The safety requirements of local city or county ordinances must be observed by the operator and player. The target may be stationary or mobile.

(i) Short range (shooting gallery). In this game, the player is given four rounds to shoot at a spot target 1/4 inch or less in diameter. The player wins when the spot target is completely shot out, or the player is given five rounds to shoot one round each at five triangular, round, or 1/2-inch square targets. The prize is determined by the number of targets struck by the player, or the player is given five rounds to shoot one round each at five triangular, round, or 1/2-inch square targets. Within each target is a bull's eye. The player must hit the bull's eye without touching the outer surface of the target. The prize is determined by the number of bull's eyes correctly hit.

(ii) Shoot-out-the-star (machine gun). The player, using an automatic air pellet gun, is given 100 pellets to shoot at a star-shaped target. The player must shoot out all of the target to win. The star cannot be more than 1¼ inches from point-to-point.

(iii) Water racer. This group game involves a competition, with the player winning a prize based on the number of players competing. The player, using a water pistol, shoots the water into a target. The water that strikes the target causes a balloon to inflate or advances an object to ring a bell. The first player who bursts the balloon or rings the bell is the winner.

(iv) Rapid fire. This group game involves competition similar to the water racer game described in subsection (2)(e)(iii). The player uses an electronic pistol to shoot at a target. Hits on the target give the player a score. The first player to reach a predetermined score is the winner.

(v) Cork gallery. The player uses a cork gun or similar device to propel objects, including but not limited to corks, suction cup darts, or styrofoam balls, to shoot at targets located on a shelf or at a bull's eye target. The player must hit the bull's eye or knock the target over or off the shelf to win a prize. The prize is determined by the target knocked over or off the shelf, by the number of targets knocked over or off the shelf, or by the player accomplishing other tasks, as stated in the posted rules. When suction cup darts or other darts are used and fail to stay on or in the target, the player must shoot the dart again. The base of each target must be uniform, front and rear.

(vi) Boomball. The player uses a cannon with compressed air to propel balls into a target area. The targets have varied point value. If the ball remains in the target, a computer adds up the score. Prizes are awarded based on the points achieved.

(f) Coin pitchers.

(i) Spot pitch (lucky strike). The player pitches a coin at colored spots located on a table in the center of the stand. The coin must touch or stay inside of a spot to win a prize.

(ii) Plate pitch. The player pitches a coin onto a glass plate to win a prize as designated.

(iii) Glass pitch (bowl). The player pitches a coin into or onto dishes or glasses. If the coin remains in a top target glass item, then the player wins that item.

(g) Cakewalk. The players walk on a predetermined route with designated spots, and when the operator stops the walk, the player on a predetermined spot wins a prize.

(h) Miscellaneous games.

(i) Skill chute (bulldozer) (penny fall).

(A) The games in each of the following sentences require the player to insert a coin or token into a chute, aiming the coin or token so that it will fall in front of a continuous sweeper (bulldozer) operating on a playing field containing additional coins, tokens, or merchandise. A coin that is aimed correctly will cause a sweeper (bulldozer) operating on a playing field containing additional coins to push coins into a counting mechanism that will convert the coins into tokens or tickets and dispense them to the player. A token that is aimed correctly will cause a sweeper (bulldozer) operating on a playing field containing additional tokens or merchandise to push the tokens or merchandise into a hole or chute that sends them to the player. A token that is aimed correctly will cause a sweeper (bulldozer) operating on a playing field containing additional tokens to push tokens into a hole or chute that sends them to the player or pushes tokens into a counting mechanism that will convert the tokens into tickets and dispense them to the player.

(B) There may not be a ledge, tip, or similar obstruction that inhibits the passage of coins, tokens, or merchandise into the counting mechanism, hole, or chute.

(ii) Tip-em-up bottle. The player is provided with a pole and a string that has a hoop or ring attached at the end. The player, using the pole with a ring, must raise a bottle lying on its side to an upright position to win.

(iii) Hi-striker. The player, using a wooden maul, must strike a lever target that causes a metal weight to rise on a guideline or track and ring a bell. The player must ring the bell a predetermined number of times to win a prize.

(iv) Rope ladder. The player must climb up a rope ladder, which is anchored at both ends by a swivel, and ring a bell or buzzer to win a prize.

(v) Whac-a-mole. This is a group game that has a target surface with five holes through which animated moles pop up and down at random. The player must hit as many moles as possible with a mallet. The first player to hit a predetermined number of moles wins.

(vi) Dip bowling game. The player rolls a bowling-type ball over a hump in the track. If the ball stays on the back side of the hump, the player wins.

(vii) Horserace derby. This is a group game in which a player advances a horse by shooting or rolling a ball in the target area. The faster and more skillfully the player shoots or rolls the ball, the faster the player's horse will run. The first horse to cross the finish line wins.

(viii) Shuffleboard. The player pushes a puck down a shuffleboard alley to knock over poly pins at the end of an alley. The player wins by knocking down all the pins.

(ix) Bean bag. The player tosses or throws a bean bag or a simulated bean bag at cans, bottles, or other objects on a raised platform. The player wins a prize when the player either knocks the object off the raised platform or tips the target over.

(x) Soccer kick. The player kicks a soccer ball through a hole in the target area to win.

(xi) Frog game. A plastic frog or similar object sits on a small end of a teeter-totter. The opposite end of the teeter-totter is struck with a mallet, causing the frog to fly off the teeter-totter. If the frog lands in a pail or similar receptacle, the player wins a prize.

(xii) Cover the spot. The object of this game is for the player to drop five circular discs onto a circular spot, completely covering the spot. The diameter of each of the discs used to cover the spot must be a minimum of 64% of the diameter of the spot to be covered. The spot to be covered must be painted or drawn on a permanent, solid material, such as metal or wood, or may be a lighted circle. The spot and each disc must have a uniform diameter.

(xiii) Pocket billiards. Using a regulation pocket billiard table, a player must run a consecutive number of balls to win a prize. The number of balls is set by the operator.

(xiv) Other coin- or token-operated games of skill. The player inserts a coin or token into a mechanical, electrical, or electromechanical device manufactured for bona fide amusement purposes only that dispenses tokens or tickets based on the player's skill in operating the device. Games authorized under this subsection are limited to those involving a substantial degree of skill. A substantial degree of skill is present if:

(A) a player's physical or mental abilities play an integral role in determining the number of tokens or tickets accumulated during the play of the game;

(B) the number of tokens or tickets initially received by the average player would increase with repeated play of the game; and

(C) a player's precision, dexterity, or knowledge enables the player to obtain more tokens or tickets than would be received by a less precise, dexterous, or knowledgeable player.

(3) In addition to the amusement games allowed by subsections (1) and (2), the department of justice may adopt rules allowing games that may be operated at a fair or carnival and that meet the requirements of this part and may set and collect fees to offset the costs associated with review and approval.
